

## LIBRARY FUNDS SOUGHT . . .

Make Love No. 1  
Goal Of StudentsBy MILAN WALL  
Star Staff Writer

Two University of Nebraska student organizations Tuesday said they want to "Make Love No. 1."

But the "Love" they are talking about is the Lincoln campus' Love Library, and the organizations want to put the facility on its way to becoming the "No. 1" library in the Big 8.

So, in a major break from tradition, the university's Corn Cobs and Tassels have set "Make Love No. 1" as the theme of this year's homecoming activities.

## For Love Fund

The two pep organizations said they have urged all campus living units to abandon the practice of constructing giant homecoming displays and donate money that would have been spent on the displays to a new "Love Fund" at the NU Foundation.

"We thought the idea was great for spirit organizations," said Gary Kuklin, president of Corn Cobs.

"People we talked to said living units were very receptive to the idea," said homecoming chairman Dru Toebben, as "spirit for the whole university."

## Halted By Many

The two Lincoln students noted that many living units have halted the construction of big displays, opting instead for smaller displays or a splash of color here and there.

Many have also begun donating the monies they previously spent on materials to charitable organizations.

Although returning alumni have been disappointed that the bigger displays have nearly disappeared, many students have long complained that the displays took money that could go for better purposes and valuable time away from

studies, especially for freshmen.

## Build Strength

The students, joined by library officials at a news conference, said they hoped the idea to build library strength might spread to alumni and other citizens, who were invited to contribute to the fund.

"I'm delighted about this gesture," said English Prof. Howard Norland, chairman of the university library committee. "It may have the effect of dramatizing to the state that the library is the only major research library in the state."

Library Director John Heussman said when approached by students about the idea he was "at first skeptical," and then eventually "excited."

Although "Make Love No. 1" will be the principal theme of homecoming activities culminating in the Nebraska Kansas game Oct. 16, traditional activities will also precede that Saturday.

A pep rally is set for Oct. 15 and the homecoming queen will be revealed at a dance afterwards. A "Go Big Red Week" will feature a swim meet, a window painting contest and nightly entertainment.

## 'RAW PRESSURE' USED

Congressmen  
Help Company

... IN CLAIM FOR MILLIONS

Washington (AP) — A Navy official Tuesday charged four of the most powerful members of Congress with using raw political pressure to try to win a favorable settlement of a multimillion-dollar shipbuilding claim.

Gordon Rule, chairman of the Navy's contract claims control unit, said Navy officials were brought to meetings, and that Defense Department officials were pressured face to face and through dozens of phone calls to approve the claim of the Avondale Corp., described as the largest single employer in Louisiana.

Rule said the first hint of congressional pressure came Nov. 3, 1970, Rep. Hale Boggs, D-La., summoned two Navy officials to a meeting in his Capitol office.

Attending with Boggs, the House majority leader, he said, were Rep. F. Edward Hebert, D-La., chairman of the House Armed Services Committee, and aides to Sen. Allen J. Ellender, D-La., president pro tem of the Senate, and Sen. Russell Long, D-La.

Ellender is chairman of the Senate Appropriations Committee. Long heads the Senate Finance Committee.

## Important To Navy

To the Navy, Rule said, these men are the most important delegation in Congress and he told Chairman William Proxmire, D-Wis., of the Senate House economic subcommittee:

"It is my personal opinion and indeed my conviction that such unreasonable outside pressure was brought to bear to such an extent that it was almost impossible to rely strictly on merit or objectivity in settling this claim.

"A lot of people try to substitute pressure for merit," Rule said as he described why he refused to approve the Navy's award of \$11.5 million to Avondale on claims arising out of a contract to build destroyer escorts.

Payment of the award has been held up by Rule's refusal to approve it.

Rule repeated his claim made earlier that Rear Adm. Nathan Sonenshein, head of the Naval Ships System Command, made a grievous mistake in involving himself personally in negotiations with high officials of Avondale and other corporations making huge claims against the Navy over and above the total amounts of shipbuilding contracts.

Admiral Denies It  
Sonenshein, seated next to Rule at the committee table, denied any political pressure was ever brought to bear on him or that he has any knowledge of any irregularities in the award of the claim.

"Adm. Sonenshein is a very wonderful gentleman but I don't know what his qualities

are as a negotiator," Rule said, turning to Sonenshein to tell him directly: "I think you should not have gotten involved as you did."

Speaking of the involvement of members of Congress, Rule concluded:

"I'm not saying such practices are criminal in nature or violate any law. I'm just saying it's dead wrong and constitutes raw pressure."

Rule said Navy officials were told by an Avondale official he was dissatisfied with the way his claim was progressing and that he would seek help from members of Congress. The meetings, letters and telephone calls followed, Rule said.

In New Orleans, a spokesman for Avondale said there was no comment on the hearing.

The Avondale claims were based on allegations that government specifications under the contract were inconsistent, deficient or impossible to perform or that "excessive quality requirements" had been imposed.

They were first approved by the group headed by Sonenshein, then rejected as unproved by Rule's office.

Since that time they have been sent back to the corporation with instructions that all claims must be proved conclusively with full legal backing.

Boggs Has Denied It  
Boggs has denied that he and the others did anything unusual, saying they were interested only in getting a quick decision for a constituent, not in forcing a particular cash settlement.

Rule disagreed and under close questioning by Proxmire commented: "Have you ever heard of a whole congressional delegation calling the Navy people up and the contractor and discussing price? Would you do it?"

"I hope not," Proxmire replied.

Rule said Congress should end such tactics by its own rules.

Two Reformatory  
Escapees Sought

Law enforcement officers are on the lookout for two youths who ran away from the Men's Reformatory Tuesday, where they had been under custody for the Kearney Boys Training School.

They were identified as Daniel Ray Collins, 17, of Omaha, and Paul Earl Lemburg, 18, of Boelus.

A Reformatory official said the two disappeared separately Tuesday morning from the penal complex's west prison farm where they had been working.

Both had been placed at the Reformatory because of disciplinary problems at the Kearney institution, an official said.

Proposal Would Abolish  
All Biological Weapons

Geneva (UPI) — The United States, Russia and their NATO and Warsaw Pact allies Tuesday proposed a new arms control treaty to abolish all biological weapons and prohibit any future production.

The treaty was submitted to the 25-nation disarmament conference and was the first proposal made jointly by all NATO and Warsaw Pact nations since the talks began in 1962.

It was also the first genuine disarmament treaty. Previous conventions such as the nuclear non-proliferation and nuclear-free seabed pacts have been measures not actually eliminating a certain kind of weapon.

Although not fully endorsed at the conference by unaligned countries which also want chemical weapons banned, the treaty received general approval as the best compromise possible.

It will now go to the United Nations General Assembly with endorsement by

the world body expected late in November.

The treaty will prohibit the development, production and stockpiling of all biological warfare agents and toxins.

Parties to the treaty also agreed to eliminate existing stocks of such weapons within nine months after the treaty goes into effect.

The treaty must be ratified by 22 countries to be adopted.

U.S. Negotiator James F. Leonard said the treaty reflects everyone's views. Soviet negotiator Alexei A. Roshchin made the same comment, adding that Moscow agreed to the destruction clause at the request of others.

Western officials said Soviet acceptance of this clause indicates that Russia possessed biological weapons despite official denials.

President Nixon one year ago ordered all American stockpiles to be destroyed, a process which is now going on. Other countries are not known to possess biological weapons.

## NEW PLATES FEATURE 'GO BIG RED' COLORS

Beginning next year, Nebraska cars will also be donning "Go Big Red" colors as depicted in the 1972 license plate shown above. A law passed by the 1969 Legislature provides that the Cornhusker State license plates will be scarlet on cream in 1972, and the reverse, cream on

scarlet in 1975, and then alternate the combinations annually after 1975. The Lancaster County Motor Vehicle Dept. has begun receiving the new license plates for distribution after Jan. 1.

## Sen. Jackson 'Talks Like Candidate'

By DON WALTON  
Star Staff Writer

North Platte — Sen. Henry Jackson of Washington Thursday said he will actively campaign in Nebraska's presidential primary election if he decides to seek the Democratic nomination.

"I will be making a decision this fall," he told newsmen.

"If I become a candidate, I will run in Nebraska."

Hammering at the theme of economic growth tied to U.N. security needs, Jackson said he thinks he would do well among Nebraska Democrats.

"I know these people," he declared. "They are my kind of people. I feel at home out here."

## Partisan Address

Invoking the name of John F. Kennedy in a tough partisan address to the AFL-CIO state convention Jackson sounded very much like he is ready to jump into the battle.

Reminding labor delegates that he was Kennedy's Democratic national chairman in 1960, Jackson recalled how the late president campaigned on two major issues.

"He talked about keeping this country strong and about getting this country moving again," the senator noted.

"Well, that is the problem we face again."

President Nixon has "given us one continuous recession since he took office," Jackson said.

## Bear Burden Equitably

Now, he said, "it is essential that all segments of society bear the burden equitably" as the U.S. reconstructs its economy.

"Americans cannot tolerate any continuance of the inequities built into the current wage-price freeze," he said.

Jackson said tax cuts should be undertaken immediately to trigger consumer spending in the lower income brackets and Social Security tax increases scheduled for Jan. 1 should be postponed.

## Should Be Doubled

Public service employment should be doubled, the senator said, and public works construction programs should be accelerated.

If wages and prices are to be frozen, so should the dividends and interest rates, Jackson said.

Earlier, talking with newsmen, Jackson said he will oppose Sen. Mike Mansfield's newest proposal to establish a deadline for the withdrawal of U.S. troops from Vietnam.

## May Need Tool

The President may need to use a withdrawal deadline as a tool to gain release of American prisoners of war, he said.

"As long as the President continues to withdraw troops at the same rate, I shall give him my support."

Those who label Jackson as a hawk or as a conservative are inaccurate, he said.

## Neither Hawk, Dove

"I am neither a hawk nor a dove. I just don't want my country to become a pigeon," Jackson said.

President Nixon's visit to Red China is "a risky trip" if advance work has not already assured him of some signs of success, the senator said.

Jackson hopes Red China can be persuaded to enter into negotiations on strategic arms limitations and "use its influence with Hanoi to bring about an immediate cease fire in Vietnam."

## Keep Country Strong

Social justice and peace "can only be accomplished by keeping this country strong," the senator told labor delegates.

The U.S. continues to face "dangerous adversaries," he said. "They would impose tyranny at the first opportunity."

"If anyone doubts that ask a Czech."

on the steps of the State Capitol in total silence." Meinhart said 407 soldiers from Nebraska had died in Vietnam.

Mindszenty Leaves  
Hungary For Rome

Rome (AP) — At the urging of his Pope, Josef Cardinal Mindszenty gave up Tuesday his hope of freedom in Hungary and flew to Rome under a Communist stipulation that he never return to his native land.

"I am ready to say goodbye to my country and to continue in exile a life of prayer and penitence," the cardinal told Pope Paul VI. "Even the most serious sacrifice asked of a person becomes a little thing in the service of God and the good of the church."

The 80-year-old cardinal is prime of Hungary but he has been unable to carry on his office — first because he was imprisoned and later as he spent 15 years in asylum at the U.S. mission in Budapest.

A new agreement between Hungary and the Vatican — terms not revealed — led to his departure Tuesday morning from his lonely life in the U.S. mission.

Left By Auto  
Cardinal Mindszenty left Budapest by automobile, then flew from Vienna. By agreement between Budapest and the Vatican, his departure was kept secret until shortly before he landed in Rome.

The cardinal, fatigue showing in his pale face, traced a cross in the air on landing and drove directly from Rome's airport to a moving meeting with Pope Paul in Vatican City's historic St. John Tower. The Pope embraced him and gave him a gold ring and a cross.

Later a statement issued by the Vatican said Pope Paul had asked the cardinal to accept "an honorable solution" to his battle with Hungarian authorities by leaving his

homeland and coming to Rome.

The statement quoted Cardinal Mindszenty as saying the agreement making this possible was "perhaps the heaviest cross of my life."

## Life Sentence

Hungary in 1949 sentenced the cardinal to life in prison on charges of treason because he opposed the Communist takeover after World War II.

Freed during the Hungarian uprising in 1956, he fled to the U.S. mission when Soviet tanks put down the rebellion.

Subsequent attempts to get Cardinal Mindszenty to come to Rome failed because, in the words of Franziskus Cardinal Koenig of Vienna last January, "he does not accept being 'pardoned' like a common criminal while he knows he is innocent." The Hungarian government declined to take back its 1949 verdict.

In Washington, Charles Bray, a State Department spokesman, said: "We did not play an active role in the negotiations which led to his departure. We were essentially a bystander in these negotiations."

The United States granted Cardinal Mindszenty asylum in its mission on Nov. 4, 1956, on humanitarian grounds.

Anthro Prof  
Sues University

Hartford, Conn. (UPI) — University of Connecticut anthropology professor Donald C. Simmons is suing the school for giving credit to students who refused to take his final exam during the 1970 student strike.

Simmons filed his suit in U.S. District Court contending that the university violated his rights as a professor to grade his students by giving credit in place of his original "absent" grades.

Social justice and peace "can only be accomplished by keeping this country strong," the senator told labor delegates.

The U.S. continues to face "dangerous adversaries," he said. "They would impose tyranny at the first opportunity."

"If anyone doubts that ask a Czech."

## Second Improvement Area Designated

By GORDON WINTERS  
Star Staff Writer

The location of a second neighborhood improvement program was announced Tuesday night at a meeting of the Citywide Tenants Association by Carl Kopines, city housing administrator.

"Tomorrow morning we should have the Department of Public Works out cleaning alleys and so forth," Kopines said.

The area involved, termed the "North 23rd St. Area" by Kopines, is bordered on the south by Holdrege, on the North by Potter, on the west by Whittier and on the east by 24th.

Kopines said the area would present a "different set of challenges" than the first program at 27th and South.

Kopines said that he had noted "rapid development of rodent harbors — old outside buildings beginning to deteriorate and large growths of weeds. Kopines also said the alleys were not in good condition."

"This wasn't a problem in the first area," he said.

There are 41 properties in the area, Kopines said. He said 55 to 60% of these were owner-occupied, in comparison with about 85% owner-occupancy in the 27th and South area.

The area was picked for the neighborhood improvement program because his department had several requests for surveys of problems, he said.

Phase I of the program, in addition to cleaning the alleys, will include a joint survey by the Lincoln Health Department and the housing administrator's office, Kopines said.

Also at the meeting, Mrs. Bea Richmond, president of a tenants group said that efforts were being made to form a coalition of various groups concerned with the problems of people with low incomes.

Mrs. Richmond said one of the biggest benefits of the coalition would be that people could call one telephone number and be referred to an organization that could help them with the problem.

Other benefits she listed were a "food buyers club", a "low-income credit union", consumer's education, tutoring, and other classes.

Mick Meinhardt, coordinator of Nebraskans for Peace, announced local plans in connection with the National Vietnam Moratorium Oct. 13.

He said activities would be limited to the noon hour. He said the group was planning to have "407 people lay face down

on the steps of the State Capitol in total silence." Meinhardt said 407 soldiers from Nebraska had died in Vietnam.

Elections for new officers for the Citywide Tenants Association will be held at a meeting of the group next month, Mrs. Richmond announced.

Mindszenty Leaves  
Hungary For Rome

Rome (AP) — At the urging of his Pope, Josef Cardinal Mindszenty gave up Tuesday his hope of freedom in Hungary and flew to Rome under a Communist stipulation that he never return to his native land.

"I am ready to say goodbye to my country and to continue in exile a life of prayer and penitence," the cardinal told Pope Paul VI. "Even the most serious sacrifice asked of a person becomes a little thing in the service of God and the good of the church."

The 80-year-old cardinal is prime of Hungary but he has been unable to carry on his office — first because he was imprisoned and later as he spent 15 years in asylum at the U.S. mission in Budapest.

A new agreement between Hungary and the Vatican — terms not revealed — led to his departure Tuesday morning from his lonely life in the U.S. mission.

## Left By Auto

Cardinal Mindszenty left Budapest by automobile, then flew from Vienna. By agreement between Budapest and the Vatican, his departure was kept secret until shortly before he landed in Rome.

The cardinal, fatigue showing in his pale face, traced a cross in the air on landing and drove directly from Rome's airport to a moving meeting with Pope Paul in Vatican City's historic St. John Tower. The Pope embraced him and gave him a gold ring and a cross.

Later a statement issued by the Vatican said Pope Paul had asked the cardinal to accept "an honorable solution" to his battle with Hungarian authorities by leaving his

homeland and coming to Rome.

The statement quoted Cardinal Mindszenty as saying the agreement making this possible was "perhaps the heaviest cross of my life."

## Life Sentence

Hungary in 1949 sentenced the cardinal to life in prison on charges of treason because he opposed the Communist takeover after World War II.

Freed during the Hungarian uprising in 1956, he fled to the U.S. mission where Soviet tanks put down the rebellion.

Subsequent attempts to get Cardinal Mindszenty to come to Rome failed because, in the words of Franziskus Cardinal Koenig of Vienna last January, "he does not accept being 'pardoned' like a common criminal while he knows he is innocent." The Hungarian government declined to take back its 1949 verdict.

In Washington, Charles Bray, a State Department spokesman, said: "We did not play an active role in the negotiations which led to his departure. We were essentially a bystander in these negotiations."

The United States granted Cardinal Mindszenty asylum in its mission on Nov. 4, 1956, on humanitarian grounds.

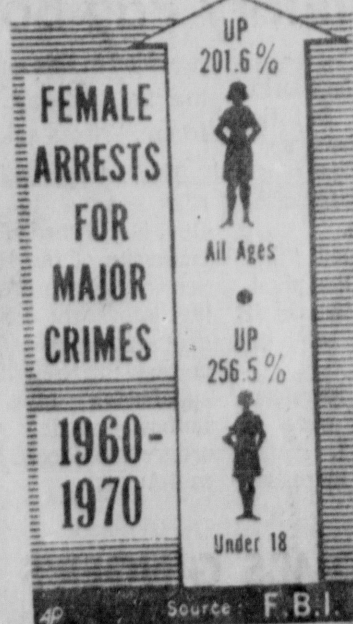

Anthro Prof  
Sues University

Hartford, Conn. (UPI) — University of Connecticut anthropology professor Donald C. Simmons is suing the school for giving credit to students who refused to take his final exam during the 1970 student strike.

Simmons filed his suit in U.S. District Court contending that the university violated his rights as a professor to grade his students by giving credit in place of his original "absent" grades.

New York Times  
News Summary

(c) New York Times News Service

United Nations, N.Y. — The Soviet Union, "in principle," regards the improvement of relations between Washington and Peking "as a natural development," Soviet foreign Minister Andrei A. Gromyko said Tuesday at the U.N. General Assembly. This was the first formal statement made on President Nixon's new China policy by a major Soviet government or Communist Party figure. (More on Page 2.)

Mindszenty Leaves Hungary

Rome — Jozsef Cardinal Mindszenty, who was convicted of treason in 1949 by a Hungarian court and sentenced to life imprisonment, arrived in Vatican City after 15 years of self-imposed exile in the American embassy in Budapest. (More on Page 1.)

Conference On Ulster Ends

London — The two-day conference between the prime ministers of Britain, Northern Ireland and the Irish Republic ended with a joint pledge condemning "any form of violence as an instrument of political pressure," and in a vaguer phrase, to end internment in Northern Ireland "without delay." The talks were regarded as helpful by all sides. (More on Page 18.)

New Money System Proposed

Washington — A new world monetary system not dependent on the U.S. dollar was proposed by a number of leading industrial countries. (More on Page 12.)

Chile Demands \$774 Million

Santiago — Two U.S. companies that own

three copper mines nationalized by Chile this year will not receive anything in compensation, President Salvador Allende Gossens announced. He said the Anaconda and Kennecott companies would be required to pay Chile \$774 million.

Germ Arms Abolition Urged

Geneva — The United States, the Soviet Union and 10 of both their allies agreed to submit to the Geneva disarmament conference a revised draft treaty prohibiting biological warfare agents and toxins. (More on Page 1.)

Weak Consumer Bill Backed

Washington — Legislation to create an independent federal agency with the authority to advocate and defend consumer interests was given support by the White House, in a change

of policy. Ralph Nader, who called the White House's announced support "a reflection on how weak the bill is," had helped draft an earlier and stronger version.

Lady Fleming Sentenced

Athens — Five persons were found guilty by a Greek military court for plotting to help a would-be assassin escape from jail. The court sentenced Lady Fleming, the Greek-born widow of the discoverer of penicillin, to 16 months in prison for her part in the plot. (More on Page 18.)

Nixonomics Critics Assailed

Washington — Critics of President Nixon's economic policies were assailed by Commerce Secretary Stans for making inaccurate

statements about the program and "bringing it into political arena." (More on Page 2.)

Henderson Knew Civilians Died

Ft. Meade, Md. — Col. Oran K. Henderson testified before a Pentagon board of inquiry that he had been aware on the day of the attack on My Lai that a number of civilians had been killed, Lt. Gen. William R. Peers told the military court hearing the case against Henderson.

Isolation Prison Proposed

Albany, N.Y. — A facility that would house as many as 500 of the New York prison system's most aggressive inmates, isolating them from the rest of the state's 16,000 prisoners, is being sought, Corrections Commissioner Russell G. Oswald said.

# Stans Scolds Critics Of Nixon Economics

Washington (AP) — Commerce Secretary Maurice Stans Tuesday scolded critics who see runaway dividends, a business tax bonanza or a possible depression in President Nixon's economic policies.

He said that at his request all but 38 of the nation's 1,250 largest corporations promised they will not raise dividends to shareholders during the 90-day wage-price freeze.

"I think that is a pretty direct reply to a petty political accusation that was made, that dividends go scot free," Stans said.

However, he conceded that nothing now prevents corporations from saving up profits to declare as fattened dividends after the freeze ends Nov. 13. But he reiterated his belief that

business profits now are too low and must increase so new jobs can be created.

Of the 38 corporations that have not pledged voluntary dividend restraint, Stans said 31 have not yet replied to his letter requesting such a limit, and seven told him they didn't want to comment one way or the other.

Of the seven, Leeds Inc., Bell

International and Morton-Norwich Products said they had no record of receiving the original letter from Stans. Another, Plessey Inc., said it is not covered by the request because it is a British subsidiary.

The remaining three — Botany Industries, Leslie Sev Industries and International Food Services — could not be reached because of a Jewish holiday.

Stans denied that the administration tax policy unduly favors business, that the administration is applying a "trickle-down theory of economic stimulation or that the nation may be heading for a depression as speculated Sunday by Chairman Wright Patman, D-Tex., of the House Banking Committee.

Stans said that since 1960, by his figures, individuals have received \$27 billion in tax cuts and business only \$9 billion. He said he doesn't count the depreciation speedup because it is a one-shot benefit. He said business will benefit directly from \$2.8 billion a year in investment credits and \$600 million in proposed benefits to exporters, while individuals will get a \$2.2 billion a year benefit from proposed repeal of the auto excise tax.

TEAR IS SHED . . . by Black's widow, left, as his body is buried.

## Legal Giant Black Buried In Pine Coffin

Washington (UPI) — Hugo L. Black, son of a Clay County, Ala., storekeeper who rose to pre-eminence on the Supreme Court, was buried in an unfinished pine coffin Tuesday and eulogized as a legal giant who "had little patience with so-called strict constructionists."

President Nixon decided at the last minute to attend the service at Washington Cathedral for Black, who died Saturday at age 85 after a severe stroke. The President sat beside Atty. Gen. and Mrs. John N. Mitchell throughout the service which rang with Black's favorite hymns and writings.

The Rev. Duncan Howlett, former minister of All Souls Unitarian Church here delivered a eulogy containing a reference to Nixon's oft-stated intention to name "strict constructionists" to the court. Howlett said Black had little patience with them.

"He thought they substituted principles laid down by latter-day jurists for the decrees of the Constitution itself," Howlett said. "He opposed the strict constructionists because he thought they tended to build upon interpretations of our legal charter, not upon the charter itself."

Black, a field artillery captain in World War I, was buried in Arlington National Cemetery in a spot about a 10-minute walk from the grave of John F. Kennedy.

The seven remaining members of the court were joined at the funeral by former Chief Justice Earl Warren and former Justices Tom Clark, Stanley F. Reed, Charles E. Whittaker, Arthur Goldberg and Abe Fortas.

## Nixon OKs Draft Extension, Delays Military Pay Boost

Washington (UPI) — President Nixon signed legislation extending the draft for two years Tuesday but held up a \$2.4 billion-a-year military pay raise until after the wage-price freeze expires Nov. 13.

Nixon said he hoped "that this is the last time the president must sign an extension of the draft induction authority."

The military pay increases contained in the bill were to become effective Oct. 1.

"By law the pay increases

provided in this act are subject to the 90-day wage-price freeze," Nixon said.

This interpretation by Nixon runs counter to the view of Rep. F. Edward Hebert, D-La., chairman of the House Armed Services Committee, and other legislators who contend that the draft-pay increase bill which passed the Senate last week supersedes the legislative authority under which Nixon ordered the freeze into effect in mid-August.

## NAVY BOMBS GINGER'S EYE

Miami (UPI) — Navy bombers dumped hundreds of silver iodide bombs and flares into the "eye" of monster Hurricane Ginger Tuesday, hoping to tame the 90 mile-an-hour winds before it turns toward the mainland.

The Navy's "Black Falcon" attack bomber squadron from Oceana Naval Base in Virginia made four separate bomb-

ing runs on the storm, followed by 50-minute periods of monitoring by scientists in the "Stormfury" seeding project.

A total of 15 planes was involved in the seeding operation, designed to cool the warm outside walls of the storm's eye and thus strip the power from the hurricane.

## Gromyko Urges World Arms Talks

United Nations, N.Y. (AP) — Soviet Foreign Minister Andrei A. Gromyko declared Tuesday that the improved political climate was favorable to a world disarmament conference and other steps to ease tension.

In a moderately worded policy statement before the 130-nation General Assembly, the veteran Soviet diplomat said the time was ripe also for an all-European conference on security.

"The goal of eliminating military blocs in Europe now seems to be attainable in principle," he declared.

He said the Soviet Union regarded the U.S. move toward normalizing relations with Red China "as a natural development" but he followed with a veiled warning against any effort of Washington and

Peking to team up against the Russians.

"In the past," he said, "there have been quite a few combinations of some states directed against others; and they carried with them international tension; and sometimes even wars."

Turning to the question of the proposed world disarmament conference, Gromyko noted that efforts in the past to convene such a meeting had been unsuccessful but that "today the general political situation is more favorable to this idea."

Outside U.N.

Elaborating on a Soviet memorandum submitted several weeks ago, Gromyko said the conference should be held outside the framework of the United Nations so that nonmembers as well as members could attend.

## Leading Indicators Fall In August

Washington (AP) — The statistic used by the government to predict broad business movements declined 0.9% last month after an almost uninterrupted series of increases so far this year, the Commerce Department said Tuesday.

The figures, called leading business indicators, increased in July by 1.7%, the department announced, an upward

revision from the 1.4% increase previously announced.

Six of the eight components now available declined in August, the department said, but it warned against taking the figures too seriously because of the uncertain effects of President Nixon's new economic program. That program was announced Aug. 15, in the middle of the survey.

## Foreign Aid For Next 6 Years Is Estimated At Over \$60 Billion

Washington (AP) — Unable to get the Nixon administration's projections, the Senate Foreign Relations Committee released Tuesday its own figures estimating total U.S. foreign aid over the next six years at more than \$60 billion — including \$17 billion to South Vietnam.

The staff study was ordered after President Nixon invoked executive privilege in backing the Pentagon's refusal to supply the committee with its five-year military-aid projections.

The committee based its total in projecting the fiscal years 1973-77 on the amount spent in fiscal 1971, the budget request for the current fiscal year—and a 3.5% annual inflation factor.

"It's a right healthy amount," Chairman J. W. Fulbright, D-Ark., told reporters, adding that the total "may be one reason they have been so reluctant" to give the estimates. He called the committee figures conservative.

# West Treats New Yorkers

By CHRIS CONNELL  
Associated Press Writer  
New York (AP) — They had come riding out of the Golden West towing a chuck wagon behind them. And on Tuesday they went to work on Wall Street to treat the financial district to "the world's largest beef fondue party."

"What do you mean it's free?" demanded one man, when a sample of beef quick-cooked in oil was forced on him. "You must want me to do something for this."

However, the 50 men and women visitors from five Western states, including Nebraska, made no direct demands as they distributed 600 pounds of beef from the 19th century chuck wagon to bankers, messenger boys, stock brokers and secretaries on their lunch hour at Broad and Wall streets outside the New York Stock Exchange.

The whole thing was a publicity stunt by the cattle industry to protest the sale of imported beef. It was dreamed up by Eddie Collins, a cat-

## North Platte Native Found Dead In West

Fresno, Calif. (AP) — A consultant accused of offering a contract to kill a school superintendent was found dead in a motel room here with an empty barbiturate bottle near his side.

A smoldering hibachi stove was found Sunday afternoon near the body of Chester L. Ferguson, 51, police said. The coroner's office said the cause of death was undetermined and an autopsy was ordered.

Ferguson was the uncle of Donald Ferguson, administrative assistant for the Lincoln Public Schools, who is seeking the Democratic nomination to the U.S. Senate.

Chester Ferguson was a native of North Platte.

Ferguson was standing trial in the Los Angeles suburb of Torrance on charges that he attempted to hire an unidentified man for \$5,000 to murder Dr. Thomas Goodman, then Torrance school superintendent.

Ferguson was president of a firm that represented the school districts of Pasadena, Torrance and other cities in salary negotiations with teachers. Goodman was reportedly angry after Ferguson boasted of his work in the Torrance district in promotional letters mailed throughout the state, police investigators said.

Superior Court Judge Bernard Lawler declared a mistrial when Ferguson failed to appear Monday. Prosecutors said they will move to dismiss the case.

## Mrs. McDonald's Rites Thursday

Grand Island (AP) — Funeral services will be here Thursday for Mrs. Rosabel McDonald, widow of Lester B. McDonald, former University of Nebraska and professional football player.

Mrs. McDonald died Monday at the age of 52 after being ill for several months.

Survivors include a daughter, Mrs. Joe (Linda) Williams of DeSoto, Kan., and son Dave McDonald of Fort Lauderdale, Fla.

## Mishaps Kill 89

Chamonix, France (AP) — Mountain climbing accidents in France during the 1971 summer resulted in 89 deaths, authorities reported. Fifty-four died on Mont Blanc.

# West Treats New Yorkers

By CHRIS CONNELL  
Associated Press Writer  
New York (AP) — They had come riding out of the Golden West towing a chuck wagon behind them. And on Tuesday they went to work on Wall Street to treat the financial district to "the world's largest beef fondue party."

"What do you mean it's free?" demanded one man, when a sample of beef quick-cooked in oil was forced on him. "You must want me to do something for this."

However, the 50 men and women visitors from five Western states, including Nebraska, made no direct demands as they distributed 600 pounds of beef from the 19th century chuck wagon to bankers, messenger boys, stock brokers and secretaries on their lunch hour at Broad and Wall streets outside the New York Stock Exchange.

The whole thing was a publicity stunt by the cattle industry to protest the sale of imported beef. It was dreamed up by Eddie Collins, a cat-

## North Platte Native Found Dead In West

Fresno, Calif. (AP) — A consultant accused of offering a contract to kill a school superintendent was found dead in a motel room here with an empty barbiturate bottle near his side.

A smoldering hibachi stove was found Sunday afternoon near the body of Chester L. Ferguson, 51, police said. The coroner's office said the cause of death was undetermined and an autopsy was ordered.

Ferguson was the uncle of Donald Ferguson, administrative assistant for the Lincoln Public Schools, who is seeking the Democratic nomination to the U.S. Senate.

Chester Ferguson was a native of North Platte.

Ferguson was standing trial in the Los Angeles suburb of Torrance on charges that he attempted to hire an unidentified man for \$5,000 to murder Dr. Thomas Goodman, then Torrance school superintendent.

Ferguson was president of a firm that represented the school districts of Pasadena, Torrance and other cities in salary negotiations with teachers. Goodman was reportedly angry after Ferguson boasted of his work in the Torrance district in promotional letters mailed throughout the state, police investigators said.

Superior Court Judge Bernard Lawler declared a mistrial when Ferguson failed to appear Monday. Prosecutors said they will move to dismiss the case.

## Mrs. McDonald's Rites Thursday

Grand Island (AP) — Funeral services will be here Thursday for Mrs. Rosabel McDonald, widow of Lester B. McDonald, former University of Nebraska and professional football player.

Mrs. McDonald died Monday at the age of 52 after being ill for several months.

McDonald died last July 21.

Survivors include a daughter, Mrs. Joe (Linda) Williams of DeSoto, Kan., and son Dave McDonald of Fort Lauderdale, Fla.

## Mishaps Kill 89

Chamonix, France (AP) — Mountain climbing accidents in France during the 1971 summer resulted in 89 deaths, authorities reported. Fifty-four died on Mont Blanc.

tleman and radio commentator from Red Oak, Iowa.

It was Collins who two years ago had a 400-pound steer shipped to a Long Island housewife who was leading a boycott in protest against high beef prices.

Collins defied the woman, Mrs. Mickey De Lorenzo, to raise the steer at a profit. She gave up, however, and the steer landed on an upstate farm, where it subsequently succumbed to the effects of

## Two Protest Proposed Hike In Northwestern Bell Rates

Alliance (AP) — About 20 persons turned out Tuesday for a State Railway Commission hearing on a Northwestern Bell Telephone Co. request for a rate increase totaling some \$13.5 million annually in Nebraska.

The hearing was one of a series scheduled in outstate Nebraska on the rate increase request.

Only two persons testified at the morning session of the hearing and both opposed the rate hike.

One of those testifying was Paul Phaneuf, an electrical engineer and manager of the Panhandle Rural Electric Membership Assn.

Phaneuf said telephone customers have no voice in determining rates and said the Railway Commission does not have sufficient staff to ade-

## Nebraska News

some barbed wire it swallow-

This time, Collins' target was Mayor John V. Lindsay and other New Yorkers, who have endorsed the abolition of beef import quotas. Currently,

quately regulate Northwestern Bell.

Jerry Durnil, manager of Cattlefax, a non profit organization which provides livestock marketing information, said the increase would hurt his company's business considerably. He said he polled a "large majority" of the 235 Cattlefax subscribers and all opposed the rate increase.

Durnil said most of his firm's business is done on the telephone and he did not think the rate increase is justified.

Durnil also read a statement on behalf of the Nebraska Stockgrowers Assn. The statement from Mick Stewart, secretary-treasurer of the stockgrowers, said the group believes it is hard to justify the rate increase and suggested there might be another way to protect Northwestern Bell profits, such as increasing efficiency.

Collins said, about 6% of the nation's beef is imported.

Collins arrived with a fake warrant for Lindsay's arrest, issued by a kangaroo court in Dodge City, Kan. But his trip to City Hall to serve it a few days ago proved futile.

In advance of his cause on Wall Street, Collins' crew built a wood fire and fondled beef chucks with pitchforks in a kettle of oil on the chuck wagon. The wagon was brought from Billings, Mont., towed unromantically but practically behind a car.

"This is an authentic chuck wagon," said its owner, John Conter of Billings. He added that it dated to the Gold Rush days of the last century, and hadn't been used in 40 years.

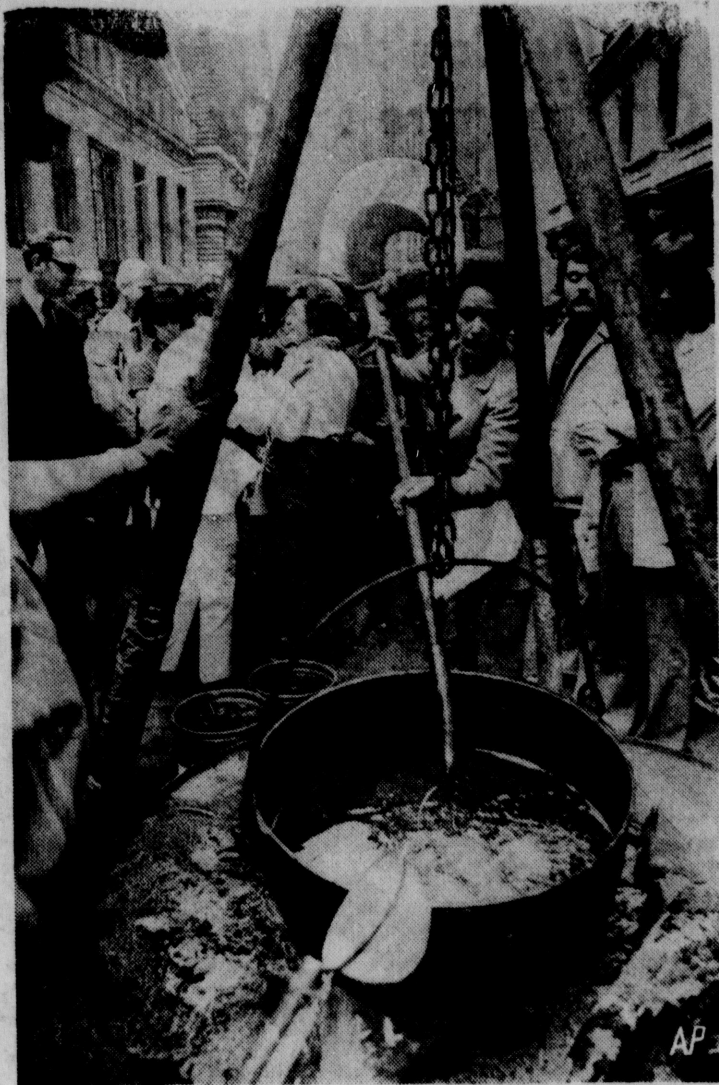

Wall Street wasn't quite as impressed by the Westerners as the Westerners were by Wall Street, it developed.

"I don't know where the sky went," said Mrs. Edward Portz, North Platte, Neb., looking up at the skyscrapers. "At home our closest neighbor is eight miles away."

"It certainly is awesome," agreed June Bradley, Colorado Springs, Colo. "We don't have skyscrapers in Colorado Springs, but our mountains in Colorado are pretty awesome, too."

However, Wall Street was by no means indifferent to the 40 or so women in their cowboy hats. Wives of cattle feeders and ranchers, they came from Nebraska, Iowa, South Dakota, Colorado and Wyoming.

"Everyone enjoyed this," said stockbroker Peter G. Marino.

## Sheep Growers Meet Scheduled

Seward — The Seward County Sheep and Wool Growers Association in cooperation with the Seward County Extension Service will hold an outlook meeting Oct. 7 at 8 p.m. at the Civic Center in Seward.

Allen Wellman, agricultural economist at the University of Nebraska, and Charles Martin and Neil Stanley, sheep commission firm representatives from Omaha, will be guest speakers.

## Mrs. Bashore Resigns York Reformatory Post

By the Associated Press  
Mrs. Barbara Bashore Tuesday submitted her resignation as superintendent of the Women's Reformatory at York.

State Institutions Director Michael La-Monita said he had accepted the resignation effective Oct. 27, but said that Mrs. Bashore is being relieved of her duties immediately and Mrs. Jackie Crawford will be the acting superintendent.

"This resignation, I believe, in light of the recent situation, is in the best interests of the program," said Mrs. Bashore in her letter of resignation.

She was referring to an incident early Saturday morning in which 33 York area youths, friends of her 19-year-old son, Michael, were arrested during a party at her home on the reformatory grounds.

No inmates were involved in the incident and Mrs. Bashore was out of town at the time.

The incident is still under in-

Submits Resignation

vestigation, Mrs. Bashore said, although the guard who allowed the youngsters to go through the gate has been suspended.

"What is most important is the program, the people at the institution," she said in her letter, "that institution is made up of 40 women who need every break, every opportunity they can get."

As to whether the resignation was requested, she said, "I did not give anyone a chance to ask for my resignation."

Mrs. Bashore said she has not determined her future plans, but said, "I hope to remain within the field of corrections."

## Hartman's Crossbred Wins

Omaha — A Charolais-Angus cross and a multi-breed steer took the top two places in the crossbred show at the Ak-Sar-Ben livestock show Tuesday.

The champion crossbred animal was shown by 17-year-old Rick Hartman of Wood River, who had the reserve grand champion at Ak-Sar-Ben in 1969 and had shown the champion Hereford steer at the Nebraska State Fair in 1971.

Kasperbauer who has been a 4-H member for six years.

A multi-breed steer sired by a Farmers Hybrid bull from a Hereford cow won reserve honors for 17-year old Jeff Kasperbauer, son of Mr. and Mrs. Don Kasperbauer of Manning, Iowa. The, 1,150 lb. steer was appropriately named The Un and Only by Kasperbauer who has been a 4-H member for six years.

## Youth Sentenced To State Prison In Jailbreak Try

Kearney (AP) — District Judge S. S. Sidner has sentenced 18-year-old Delbert Bickford of Kearney to a term of one to two years in the Nebraska Penal Complex on a charge of attempted jailbreak.

The judge pronounced sentence after Bickford changed his plea from innocent to guilty. A charge of assault with intent to inflict great bodily injury was dropped.

The charge resulted from an attempted escape from the Buffalo County jail April 21. Jailer Ralph Poole was allegedly assaulted with a bar of soap wrapped in a sock.

## Caskey Installed

Stanton — Charles Caskey has been installed as president of the Stanton Businessmen's Club. Rod Schellpeper is the new vice president, and Adolph Stuchlik, the permanent secretary-treasurer.

## Robert Roselle Chosen President

succeeds Philip A. Henderson, NU Extension economist.

Other officers named to take office January 1, 1972 for the ensuing year are Dr. Thomas Sullivan, NU Poultry Science Department, vice president; Dr. Hazel Fox, chairman, NU Department of Food and Nutrition, treasurer; Dr. Khem Shahani, NU Department of Food Science and Technology, secretary; and Dr. Charles H. Adams, NU Department of Animal Science, historian.

## North Platte Man Killed by Fall From Roof

North Platte — Services for John C. Mills, 50, who died here Sunday of injuries suffered when he fell from a roof he was helping repair, will be 2 p.m. Wednesday at Our Redeemer Lutheran Church.

Mr. Mills, an employee of the Ford garage in North Platte, was a scoutmaster.

He is survived by his wife, Velma; son, Mark, at home; daughter, Mrs. David (Gail) Arnold; sister, Mrs. Victor (Elizabeth) Kuhlmann, North Platte; grandson.

## IN PERSPECTIVE

By WILLIAM O. DOBLER

The meeting in Alaska of U.S. President Richard M. Nixon and Japanese Emperor Hirohito has been appropriately described as historic. But many things today concerning Japan are of an historic nature because the nation has changed so dramatically in the post-World War II era.

The Alaska meeting was the first time any Japanese emperor has ventured to another land. Again, President Nixon has demonstrated a good measure of imagination and determination in the area of foreign affairs.

Japan and the U.S. are linked together in mutual defense pacts and in terms of international commerce. The South Pacific island nation, an enemy during the war, is now one of our strongest allies and a key element of our Asian policy. Without the friendly relations we have with Japan, our position in all of Asia would be most tenuous.

Japan stands, too, as a magnificent example of democracy and free enterprise at work. From a point of almost total destruction during the war, Japan has risen to the state of third largest economically in the world, second only to the U.S. and Russia in terms of gross national product.

From a highly militaristic nation, Japan has become pacifist in nature and far more nationalistic than it was. At this time, Japan sees its future in terms of commerce around the world.

It is in this light that one must look at Japan if there is to be any understanding of her relations with the West. Japan is a rather barren land with a large population. To acquire the resources it needs, it must rely heavily on imports.

But to support its industry and all its people, it must do a significant export business. Thus, Japan is tied for its entire welfare upon a healthy export-import business. The U.S. serves, of course, as a major consumer of Japanese goods and is obviously concerned with new trade restrictions adopted by President Nixon.

The importance of the Nixon-Hirohito get-together cannot be over-emphasized. It is not that any great new agreements have been reached between the two men in behalf of their nations because this simply was not planned and did not happen.

The visit is very much like the trip Nixon will soon take to China. The President said recently that the importance of his visit to China will not be in coming to any new agreement with this other Asian giant.

The two nations of China and the U.S., said the President, are far apart in many areas and disagreement between the two will undoubtedly continue for many years to come. But Nixon feels that if we are talking about our differences, we are less likely to be fighting about them.

The President will be going to China to further the idea that if we can talk reasonably to one another, we can find a way to live at peace, even if we do not agree on very many things. This is the kind of personal philosophy that should exist among people and there is no reason that it cannot exist among nations.

Nixon met with Hirohito for much the same reason. He did not intend to accomplish anything spectacular, but rather, to demonstrate the good relationship that exists between Japan and the U.S. in the hope that the same thing can be encouraged and fostered in the future.

The situation is a two-way street. While Japan desperately needs the U.S. at this point in history, the U.S. has good reason to court friendly relations with the Land of the Rising Sun.

We might wish sometimes that we could be totally isolationist but such is not the practical reality of the world today. If we are to preserve our freedom, then we have to have friendly relations with many other nations throughout the world.

The world is not constituted today in such a manner that any nation can totally go it alone. Japan serves as our bridge to influence in Asia and it is a bridge we very much need to maintain for the sake of our own security. The Alaska meeting, therefore, represents a firm improvement of our foreign affairs.

## JACK ANDERSON

## 'Truth Squads' Plan Of Highway Lobby

WASHINGTON — The highway lobby is dispatching "truth squads" to conduct what it describes as a "name-calling" campaign against the environmentalists.

The lobby will use a false front, ironically, to spread its version of the "truth." A phony "Speakers' Bureau" will send out highway spokesmen, disguised as legitimate lecturers, to attack the ecology movement.

Their speeches will be carefully written for them by the lobby. Its chief propagandist, John Gibbons, estimated in a confidential memo that "at least half a dozen 'different' speeches" would have to be written.

These canned speeches are supposed to provide a "hard-hitting, name-calling refutation of the current highway myths." The reason for naming adversaries, Gibbons explained, is to attract attention.

"Only this invitation to controversy," he wrote, "can be expected to get the attention of the media which is desired."

The "truth squads" will be organized by the Highway Users Federation, a pressure group financed by the road-builders, auto-makers, oil firms, insurance companies and other highway interests.

These pave-for-pay boys, known irreverently around Washington as the "road gang," want to build more highways, without too much regard for the scenery that lies in their paths.

Owen Allen, the federation's field service chief, urged his

regional representatives in a Sept. 10 memo to "line up as many speaking engagements and media appearances as possible" for the truth squads.

Seventeen highway lobbyists are ready to hit the road as truth-squad speakers. They will concentrate on the cities where conservationists have been most effective at stopping the encroachment of highways and freeways.

Among the cities the truth squads expect to hit are Atlanta, Chicago, Miami, New York City, Philadelphia and San Francisco.

The campaign was outlined by Gibbons in a series of memos intended for the eyes only of the highwaymen.

He proposed "a massive 'truth squad operation'" which not only would send out speakers but would seek radio-television interviews "on a big scale." Press handouts would be used, too, to discredit the ecology movement.

In a later Aug. 30 memo, he suggested that the highway lobbyists should direct their name-calling against environmentalists who talk about "air pollution; land use; destroying urban life; the evil highway lobby . . . housing dislocation; and assorted ecological (subjects) involving parks, wildlife, natural resources, etc."

Footnote: We spoke to Gibbons who said only that the language in his memos was "preliminary." He refused to tell us how much the highway lobby is spending on the truth-squad campaign.

## 'Why Couldn't It Have Been Fulbright Or Proxmire . . Or McGovern . . Or . . !'

## Zoning Debated, Court Honored

The City Council served the best interests of the neighboring area and the community as a whole Monday when it turned down a request for a zoning change that would have made way for development of a shopping center at the southeast corner of 40th St. and Normal Blvd. The City-County Planning Commission has twice turned thumbs down on the proposal and it was withdrawn before final action could be taken when it was first submitted before the council last year.

Sometimes of late the council has not followed the example set by Mayor Sam Schwartzkopf in sticking to established planning concepts rather than opting for property development at any cost. The mayor has vetoed several council zoning decisions in recent months, we think for good reason.

On the particular proposal at 40th and Normal, given the character of the surrounding neighborhood, the street lay-out and potential for traffic problems, the shape and character of the property package itself and the proximity of other commercial development, shops and services, the council had no choice but to deny the zoning change and acted responsibly in doing so.

While taking care of zoning matters Monday, the council also heard representatives of the Lincoln Tennis Association make a plea for development of a nine-to-twelve court, all-weather tennis center at Woods Park, with a tennis professional added to the city staff

to conduct tournaments, give instruction and promote the sport in Lincoln.

Diplomatically, the tennis enthusiasts noted that Lincoln's recreational facilities are generally "excellent," commending past and present council members for their part in the program, but said that tennis facilities in the city are inadequate.

We would agree — they are inadequate. Three more outdoor tennis courts are under construction by the city right now and still more of the neighborhood variety will be needed. The council may find the cost of a multi-court, all-weather tennis center prohibitive, however, unless it breaks away from the year-in, year-out hold-the-line budgeting concept that has predominated during Schwartzkopf's terms as mayor.

Finally, we take note of the recognition given the Lincoln Municipal Court by the American Bar Association. The Lincoln court for the third year in a row was awarded first place in its category of cities in the ABA's outstanding traffic court program given in recognition of achievements in traffic court administration, facilities, environment, community relations, corrective penalization and education practices. Lincoln was first-place winner for the third consecutive time, indicating continued improvement and progress, and giving Lincolinites something else to be proud of. The Lincoln municipal bench is to be commended for its professionalism.

## Movie Review Proposed

One of the racier shows in town in Omaha recently has been the weekly regular meeting of the City Council, members of which having become experts as to the exact amount of clothing that can be removed until the customer's sense of morality is insulted.

Nothing even resembling the look of female flesh will be tolerated, above the waist either, the Omaha council has decided, in its crackdown on topless dancing in Omaha night spots. It's a pretty heavy club the Omaha council holds, too — the power to suspend the liquor license with which the night club owner makes his living.

Having driven the topless dancer out of town, the Omaha council is now considering sitting in judgment on movies. Councilman John Ritums, apparently with some backing from council colleagues, says he has asked the Omaha City Legal Department to investigate the possibility of establishing a city movie review board.

## ANTHONY LEWIS

## Monetary Crisis Considered At Capital Meeting; Surcharge Enlargement Would Bring Retaliation

LONDON — "What is at stake is not just money but the West's whole postwar achievement — the system of international security, trade and economic growth." That is one unexcitable Englishman's view of the monetary crisis as the bankers and treasury men of the world meet in Washington to seek a way out.

Many serious men, on both sides of the Atlantic, now think the crisis has to be seen in such broad terms. In fact they believe the danger in the situation arises precisely from a failure of that perspective on the part of the American government.

This is not said by people who like to bait the United States or who are unaware of other countries' share in creating the monetary problem. But Washington forced the crisis, and in the negotiations to solve it, Washington exerts the greatest power and therefore bears the largest responsibility.

What gives concern is the state of mind indicated by the tactics of American negotiators so far. To call the tactics aggressive is to understate what European financial men feel about them. From President Nixon's original self-righteous rhetoric about foreigners and

speculators" doing in the dollar to Secretary of the Treasury Connally's gauche arrogance at the recent London monetary meeting, American leaders have behaved like sophomore radicals announcing non-negotiable demands.

The declared target of American policy is a turnaround of \$13 billion a year in the annual U.S. balance of trade — at the expense of everyone else. A fervently pro-American financier in London privately characterizes that figure as "fantastic nonsense . . . mad . . . disruptive . . . disastrous."

The point is that it would take the most drastic changes in world trading patterns to bring about such a shift in the dollar flow. But the dollar problem is not primarily one of trade as the rest of the world sees it: the strain has come from vast war expenditures and capital investment abroad.

One mistake the Nixon administration may be making is overestimating its bargaining strength. There are signs of that in connection with the 10 per cent import surcharge imposed in violation of agreed international rules. There seems to be an assumption that other countries, especially Japan, will find the surcharge so painful that they will have to come to terms.

Without looking into that dark distance, we can see at least this much: Time is not necessarily on the side of the United States in the monetary

## MARQUIS CHILDS

## The Man From Somerset

WASHINGTON — The recent bombing of North Vietnam, most massive in three years, is a manifestation of America's continuing involvement in a war deeply dividing the nation. On no one does this weigh more heavily than on the senior senator from Kentucky, a Republican, John Sherman Cooper.

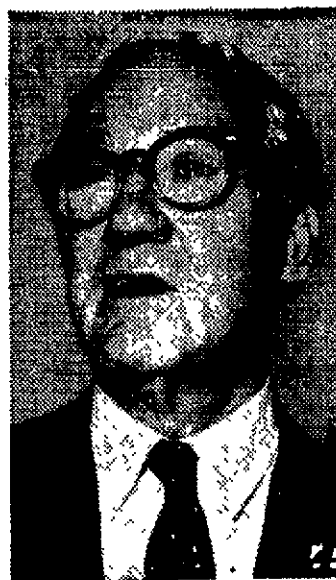

Cooper's opposition to the bombing goes back to 1964. While voting for the Gulf of Tonkin resolution in August of that year, he said on the Senate floor that to be granted such broad powers, the President was obligated immediately to search for ways to negotiate an end to the fighting and perhaps even to refer the question to the Geneva powers.

The following year and again in 1966, he drove hard for a stop to the bombing of the north. The weight of his influence had not a little to do with Lyndon Johnson's decision to negotiate and halt bombing in the north. The thousands of tons of bombs rained down north of the DMZ a few days ago is a grim commentary on the power that persists once the guns start firing.

In his opposition to the war and in every field, Cooper's record is in many respects unique in its scope and in the independence it reflects. After his re-election in 1966, he said he would not seek another term and he repeated this several times.

Usually when an elected officeholder makes such an announcement, the scramble to succeed him becomes a stampede. Petitioners from Kentucky, and among them are Democrats as well as Republicans, urge him to run again next year. They agree he could win with virtually no campaign.

Some of Cooper's close allies in the Senate despair over the

SEN. COOPER

way the power of the chief executive overshadows the Congress, and they point to the resumption of heavy bombing as proof, Cooper disagrees. It may be his Kentucky heritage of grit, but he does not give up for all his bruising encounters with power.

During the congressional recess, he flew to Helsinki to get a reading on the Strategic Arms Limitation Talks (SALT). After lengthy conferences with the American delegation, he brought back the word, now on the front pages, that an agreement limiting defensive weapons is likely before the end of the year. Cooper joined Sen. Philip A. Hart, D., Mich., to knock out funds for the anti-ballistic missile in the defense budget of 1969. They lost by a single vote. A second attempt the following year was defeated by 52 to 47. The senator's present intention in light of a probable agreement is not to challenge the funds for ABM this year.

In 1958, in partnership with John F. Kennedy, then a senator from Massachusetts, Cooper initiated the consortium of a half-dozen nations supply-

ing aid to India and Pakistan. It worked well until the rivalry between Moscow and Peking accentuated the enmity between the states that share the subcontinent. Cooper was ambassador to India in 1955 and '56, between his service in the Senate for two short terms and his election in '57 to a full term.

At times, voting for civil rights measures, he runs afoul of his comparatively conservative constituency. His was one of three votes against the measure giving the attorney general greatly broadened powers to wire-tap. Addressing the Louisville Chamber of Commerce a little later on pollution, as he finished a voice from the back of the hall boomed out:

"We want to know why you voted for crime the other day."

The senator, who has served longer in the Senate than Henry Clay, longer than any Kentuckian except Alben Barkley, can tell that kind of anecdote with the dry humor that is out of his roots in his hometown of Somerset. When he goes back home, people line up to talk to him not just about politics but about their personal problems. For all his years in Washington, New Delhi and in New York at the United Nations, he is still the man from Somerset.

The other say Cooper had his 70th birthday. His knowledge and experience gave him a remarkable perspective on the political scene both at home and abroad. If he goes through with his intention of retiring, is this experience to be lost? The young today would reject anyone over the age of 25, or maybe 30. That loud, arbitrary cutoff denies the wisdom of men such as Cooper who have come through the struggle of our times bloody but unbowed.

## Letters To The Editor

Brevity in letters is requested but length in itself will have no bearing on needless details and repetitious matter will be edited out of letters. Too frequent use of the same subject may be rejected. All letters must be accompanied by writer's true name and address. Letters will be printed under a pen name or initials. However, letters will be printed under the name of the writer.

## Health Foods

Omaha, Neb.

Health is much more important than wealth, but more seem to consider wealth first. Perhaps it's because many don't realize that health or sickness is of our own making.

Many of the doctors call many of our ills a virus or an allergy when they are nothing more than impure blood caused by what we put into our stomachs. Why have we quit eating natural food?

Another reason is that we believe all we hear and read in the way of advertisements. The almost unlimited budget of the food distributors' lobby makes it difficult to get certain facts regarding food addiction before the public.

We eat far more than is good for us, and to top it off, we have the habit of eating dessert after we are full. Then after we have eaten too well, we go for a drug. And we are so hooked on foodless food that we can't understand that drugs only give relief. When we fail to correct the cause, we fail to cure.

And then we have the chemical fertilizers. They are only a shot in the arm. Yes,

they increase the yields but in due time they strike back in bringing about conditions that invite pests and disease.

When will people learn from nature the lessons she teaches?

J. W. C.

## Name And Story

Lincoln, Neb.

Quite understandably, most Nebraskans probably do not know what the Nebraska Association of Commerce & Industry is. Part of this lack of recognition lies with a lengthy and difficult name to remember.

Behind the name, however, is the interesting story of a nationwide trend to consolidate previously separate state business organizations into single, statewide business associations representing all segments of the business community.

Colorado businessmen started the trend several years ago with formation of the Colorado Association of Commerce and Industry. Next came Nebraska, which consolidated Associated Industries of Nebraska (founded in 1912) and the Nebraska State Chamber of Commerce (founded in 1960) into the Nebraska Association of Commerce & Industry in 1966.

Minnesota followed suit with formation of the Minnesota Association of Commerce and Industry. And we have now been notified that Associated Industries of Kansas and the Kansas State Chamber of Commerce will become the Kansas Association of Commerce and Industry, effective Nov. 1.

Connecticut also followed the trend recently but adopted a slightly different name — the Connecticut Business and

Industry Association.

The trend is, we think, a good one in which an "umbrella" type of business organization can more economically and more efficiently represent the general business community in the Legislature and in other area affecting business.

We do have lack of recognition problems that occur when any organization changes its name. But the Nebraska business community should be complimented for being a leader in the consolidation trend.

GLENN J. McENIRY

Executive Vice President, Nebraska Association of Commerce &amp; Industry

## Help During Fire

Lincoln, Neb.

On behalf of Lancaster Manor, I wish to thank all of the wonderful people who responded to our call for help last Saturday to help us prepare rooms for the 39 Westview residents who became our unexpected guests late Friday. I do not know the names of any of the individuals but they came in all ages and with the same desire to assist in an emergency, and none complained about the dirty work he was asked to do.

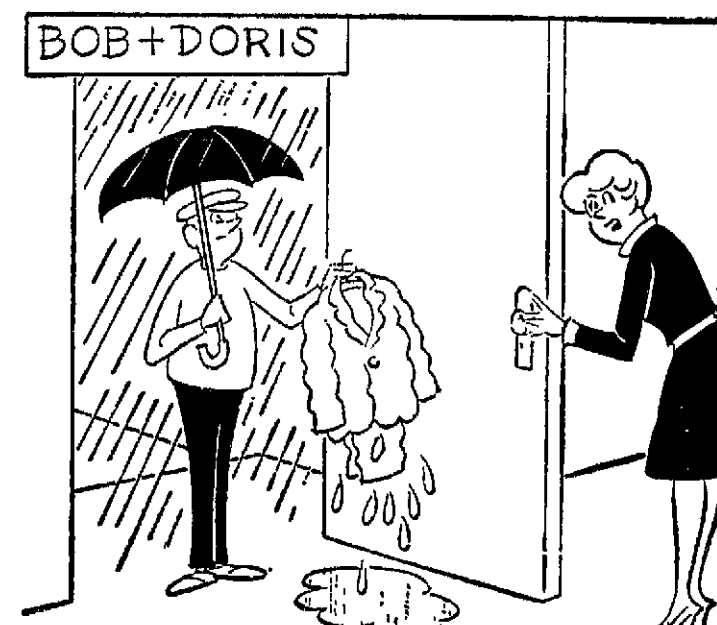

Also deserving special commendation are "Shorty" Damewood and his crew from Newberg & Bookstrom who spent all day Saturday making plumbing and heating hookups for us.

I am personally grateful to all of our own fine employees who rushed in Friday night and again all day Saturday and Sunday to help out.

C. ESTHER DAVIS  
Administrator

When he goes back home, people line up to talk to him not just about politics but about their personal problems. For all his years in Washington, New Delhi and in New York at the United Nations, he is still the man from Somerset.

The other say Cooper had his 70th birthday. His knowledge and experience gave him a remarkable perspective on the political scene both at home and abroad. If he goes through with his intention of retiring, is this experience to be lost? The young today would reject anyone over the age of 25, or maybe 30. That loud, arbitrary cutoff denies the wisdom of men such as Cooper who have come through the struggle of our times bloody but unbow-

## Letters To The Editor

Brevity in letters is requested but length in itself will have no bearing on publication. Writers are advised that contributions from one person on the same subject may be rejected. All letters must be accompanied by writer's true name but may be submitted for publication under a pen name or initials. However, letters will be printed under a pen name or initials at the editor's discretion.

## Health Foods

Omaha, Neb. Health is much more important than wealth, but more seem to consider wealth first. Perhaps it's because many don't realize that health or sickness is of our own making.

Many of the doctors call many of our ills a virus or an allergy when they are nothing more than impure blood caused by what we put into our stomachs. Why have we quit eating natural food?

Another reason is that we believe all we hear and read in the way of advertisements. The almost unlimited budget of the food distributors' lobby makes it difficult to get certain facts regarding food addiction before the public.

We eat far more than is good for us, and to top it off, we have the habit of eating dessert after we are full. Then after we have eaten too well, we go for a drug. And we are so hooked on foodless food that we can't understand that drugs only give relief. When we fail to correct the cause, we fail to cure.

And then we have the chemical fertilizers. They are only a shot in the arm. Yes,

they increase the yields but in due time they strike back in bringing about conditions that invite pests and disease.

When will people learn from nature the lessons she teaches?

J. W. C.

## Name And Story

Lincoln, Neb. Quite understandably, most Nebraskans probably do not know what the Nebraska Association of Commerce & Industry is. Part of this lack of recognition lies with a lengthy and difficult name to remember.

Behind the name, however, is the interesting story of a nationwide trend to consolidate previously separate state business organizations into single, statewide business associations representing all segments of the business community.

Colorado businessmen started the trend several years ago with formation of the Colorado Association of Commerce and Industry. Next came Nebraska, which consolidated Associated Industries of Nebraska (founded in 1912) and the Nebraska State Chamber of Commerce (founded in 1960) into the Nebraska Association of Commerce & Industry in 1966.

Minnesota followed suit with formation of the Minnesota Association of Commerce and Industry. And we have now been notified that Associated Industries of Kansas and the Kansas State Chamber of Commerce will become the Kansas Association of Commerce and Industry, effective Nov. 1.

Connecticut also followed the trend recently but adopted a slightly different name — the Connecticut Business and

Industry Association.

The trend is, we think, a good one in which an "umbrella" type of business organization can more economically and more efficiently represent the general business community in the Legislature and in other areas affecting business.

We do have lack of recognition problems that occur when any organization changes its name. But the Nebraska business community should be complimented for being a leader in the consolidation trend.

GLENN J. MCENIRY  
Executive Vice President,  
Nebraska Association of  
Commerce & Industry

## Help During Fire

Lincoln, Neb.

On behalf of Lancaster Manor, I wish to thank all of the wonderful people who responded to our call for help last Saturday to help us prepare rooms for the 39 Westview residents who became our unexpected guests late Friday. I do not know the names of any of the individuals but they came in all ages and with the same desire to assist in an emergency, and none complained about the dirty work he was asked to do.

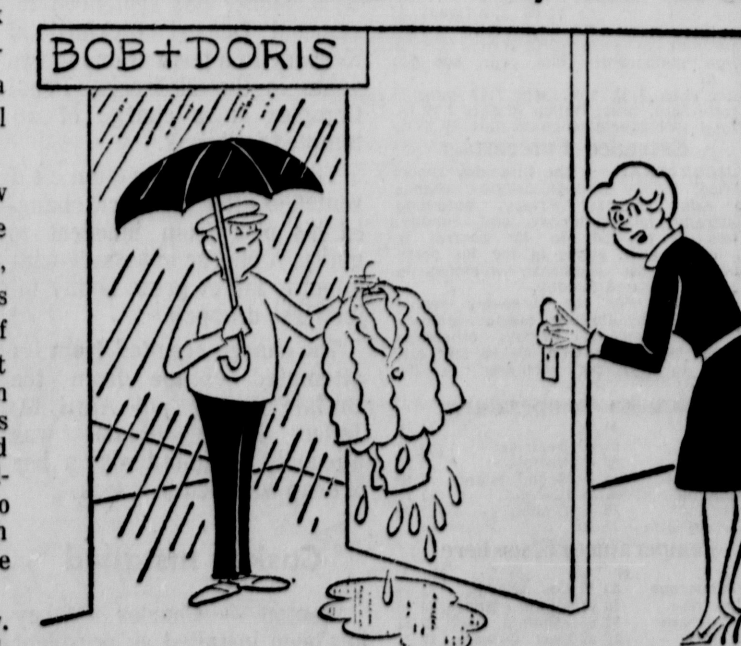

Also deserving special mention are "Shorty" Damewood and his crew from Newberg & Bookstrom who spent all day Saturday making plumbing and heating hookups for us.

I am personally grateful to all of our own fine employees who rushed in Friday night and again all day Saturday and Sunday to help out.

C. ESTHER DAVIS  
Administrator

# Education Board To Discuss Renovation Of Junior Highs

By MILAN WALL  
Star Staff Writer

The Lincoln Board of Education Tuesday heard a report on progress in planning additions and renovations at several junior high schools and agreed to discuss details of the plans next month.

Supt. John Prasch told the board he has had discussions with architects and school staff members relating to possible expansion at three of the buildings.

The board has already given the go-ahead to early planning efforts at Goodrich, Lefler and Irving Junior Highs and for a new junior high in east Lincoln.

Biggest addition would be at Goodrich, and Prasch said the staff there would prefer addition of a classroom wing and more industrial shop areas. The staff has said it sees an auditorium as a lower priority, but, would welcome a lecture-type room with a stage for small dramatic productions.

Prasch also said Goodrich faculty members "would prefer a new media center opening into new and old classrooms," rather than a wing of inflexibly arranged classrooms.

"I'd hate to see us building another bunch of chicken coops that you can't change," agreed board member John Lux.

Prasch said Lefler has envisioned roofing a court for a new media center, converting the present media center to more cafeteria space and building a gymnasium.

Irving staff members were asked, Prasch said, to report back on its needs if it had 400

## Contributions Increase In First Pilot Campaign

A 21% increase in contributions in Lincoln's first pilot campaign was announced Tuesday noon as the 1972 United Fund drive was launched at a Dutch treat luncheon. The overall goal is \$1,207,639.

Walter G. Stephenson Jr., general chairman, told some 500 United Fund kickoff participants the firms in the pilot campaign raised \$44,702 in pledges for 1972, compared with \$36,819 last year.

"We hope all Lincolniters will respond in this manner to the

show the district has a total of 30,122 students, up slightly from last year's 30,035.

As of last Friday, the superintendent said, the new kindergarten class was 2,128, a slight drop from last year's small class of 2,146. First graders totaled 2,094, down about 350 from last year's first grade class.

In other business, the board:

—heard a report on a pilot program in aerospace science at Northeast High.

—was told the superintendent's student advisory board is active again and is studying possibilities for open campuses.

—agreed to breakfast with Lincoln Education Association leaders on Oct. 26.

—agreed to meet informally later this fall with Northeast High parents concerned over what Prasch said was a belief that Northeast is a low priority in the building program.

—reviewed cooperative programs with the University of Nebraska-Lincoln with Teachers College Dean Robert Egbert.

needs of Lincoln and its people", Stephenson said at the luncheon coshosted by the Lincoln Rotary Club.

"Through the pilot campaign, we hoped to improve the participation of employees in Lincoln and our results indicate we are able to present needs of the United agencies and gain an encouraging response," he said.

**Confident of Success**

Stephenson said in view of pilot campaign returns, the United Fund team feels confident Lincoln will be able to reach its \$1,207,639 goal. Over 70% of the United Fund monies are pledged by individual contributors, who will be contacted by more than 2,500 volunteer workers during the six-week campaign.

Stephenson prefaced his remarks on the pilot campaign results by noting that individual pilot firms had different goals, such as increasing employee participation or striving for fair share contributions from every employee. Along with Turner Allen, chairman of the pilot campaign, Stephenson announced the following results:

The 275 employees of Dorsey Laboratories increased their individual contributions and contributed a total of \$5,048, a 110% increase over 1971.

DuTeau Chevrolet employees, already at a high standard of giving, increased their per capita contribution to \$24.23 with 100% participation.

The Nebraska Division of Employment and Department of Labor and Safety increased their employee participation to 97.4% raising \$2,872 for the United Fund.

General Tobacco and Candy, already a Fair Share Firm, with 100% employee participation increased their per capita gift to \$24.07 which is a 22% total raise.

**Increase Noted**

Employees of KFOR Radio, a Fair Share Firm, raised their per capita contribution to \$26.53 with 100% employee participation. This is a 10.4% increase over 1971.

Magee's employees, already at a Fair Share standard, showed a 13% increase per employee with all employees participating. This brings their per capita gift to \$26.94.

Employees of McGinnis Ford, with 100% participation, were able to gain a 10% increase in employee giving over 1971 which brings their per capita gift to \$16.50.

The employees of the Radisson Cornhusker increased employee participation from 54% to 95% this year. This represents an increase of 12% over their 1971 contribution.

**Employees of Saint Elizabeth's Community Health Center** increased participation from 48% to 95% this year. In addition, their total contribution increased 47% for a total of \$5,678.

Employees of the State Farm Insurance increased employee participation to 99% with an additional 19% per capita hike making their per capita gift \$29.53.

The small businesses in the West O Street area were included in the pilot campaign. Their total contribution increased 46% over last year. These same contributors gave \$1,299 last year and raised \$1,399 this year.

The staff members of the 26 United Fund Agencies raised their contributions at \$7,490. This represents a 17% increase over 1971.

## Federal Officials Will Study State's Title I Controversy

A five-man team representing the U.S. Office of Education will arrive in Lincoln Monday to begin a review of controversies surrounding the state's Title I programs.

Father James Dawson of the Lincoln Roman Catholic Diocese said Tuesday he had been informed the team will spend next week in the state, beginning with a meeting Monday morning with State Department of Education officials.

The team will meet with Nebraska's three Catholic bishops and its three diocesan

superintendents that afternoon, Dawson said.

The federal review has been sought by both Catholic leaders and the State Department of Education after Catholic educators complained that federal guidelines were not being followed in the administration of Title I programs.

The programs, funded under Title I of the Elementary and Secondary Education Act of 1965, are designed to help educationally disadvantaged students.

The issue stems from continuing opinions from the state attorney general's office that the Nebraska Constitution prohibits expenditure of federal funds to pay teachers or teaching aides to work within private schools.

Catholic educators say the services to which private schoolchildren are entitled cannot be provided according to federal guidelines unless they are provided "on-site" in the private schools.

Current practice is for the students to go to public schools for sessions such as remedial reading and speech therapy and then return to their own buildings.

Dawson said a spokesman for the U.S. Catholic Conference in Washington was told Nebraska is one of three states about which the U.S. Office of Education is "very concerned."

## Trading Stamps Can Be Stopped During Freeze

Washington (UPI) — The Cost of Living Council ruled Tuesday that retail stores may stop giving trading stamps during the wage-price freeze if they pass on the value of the stamps to their customers in the form of lower prices.

The Council said the cost of the stamps should be based on the value at which they may be redeemed by the customer, not what they cost the merchant.

Price cuts may be applied across the board to all merchandise or may be applied selectively to the items for which stamps would normally have been given. If retailers choose the selective method, the Council said they must post signs at each cash register explaining the details of the procedure.

## Vice President Of Iraq Ousted

Beirut, Lebanon (AP) — Iraq's vice president and foreign minister were ousted Tuesday night, Baghdad Radio announced.

The broadcast from the Iraq capital said the vice president, Maj. Gen. Salih Mahdi Ammash, and Foreign Minister Abdel Karim Sattara al Sheihly also were dismissed from the 11-man ruling revolutionary command council.

The actions were taken in a meeting of the council, the radio said.

# Education Board To Discuss Renovation Of Junior Highs

By MILAN WALL  
Star Staff Writer

The Lincoln Board of Education Tuesday heard a report on progress in planning additions and renovations at several junior high schools and agreed to discuss details of the plans next month.

Supt. John Prasch told the board he has had discussions with architects and school staff members relating to possible expansion at three of the buildings.

The board has already given the go-ahead to early planning efforts at Goodrich, Lefler and Irving Junior Highs and for a new junior high in east Lincoln.

Biggest addition would be at Goodrich, and Prasch said the staff there would prefer addition of a classroom wing and more industrial shop areas. The staff has said it sees an auditorium as a lower priority, but would welcome a lecture-type room with a stage for small dramatic productions.

Prasch also said Goodrich faculty members "would prefer a new media center opening into new and old classrooms," rather than a wing of inflexibly arranged classrooms.

"I'd hate to see us building another bunch of chicken coops that you can't change," agreed board member John Lux.

Prasch said Lefler has envisioned roofing a court for a new media center, converting the present media center to more cafeteria space and building a gymnasium.

Irving staff members were asked, Prasch said, to report back on its needs if it had 400 more students. "It's already a pretty compact building," said Prasch, and "has poor gym facilities."

He said he has also given some thought to alternatives for expansion at Mickle and Culler Junior Highs.

The planning for possible junior high expansion is underway to meet changing demands of student populations and building capabilities.

The board has said it will eventually close Whittier and Everett Junior Highs and convert those buildings to other uses. Students from those buildings would be absorbed at several other facilities after the renovations and additions are completed.

In other matters, Prasch said fourth-week enrollment figures show the district has a total of 30,122 students, up slightly from last year's 30,035.

As of last Friday, the superintendent said, the new kindergarten class was 2,128, a slight drop from last year's small class of 2,146. First graders totaled 2,094, down about 350 from last year's first grade class.

In other business, the board:

- heard a report on a pilot program in aerospace science at Northeast High.
- was told the superintendent's student advisory board is active again and is studying possibilities for open campuses.
- agreed to breakfast with Lincoln Education Association leaders on Oct. 26.
- agreed to meet informally later this fall with Northeast High parents concerned over what Prasch said was a belief that Northeast is a low priority in the building program.
- reviewed cooperative programs with the University of Nebraska-Lincoln with Teachers College Dean Robert Egbert.

## Contributions Increase In First Pilot Campaign

A 21% increase in contributions in Lincoln's first pilot campaign was announced Tuesday noon as the 1972 United Fund drive was launched at a Dutch treat luncheon. The overall goal is \$1,207,639.

Walter G. Stephenson Jr., general chairman, told some 500 United Fund kickoff participants the firms in the pilot campaign raised \$44,702 in pledges for 1972, compared with \$36,819 last year.

"We hope all Lincolniters will respond in this manner to the needs of Lincoln and its people", Stephenson said at the luncheon coshosted by the Lincoln Rotary Club.

"Through the pilot campaign, we hoped to improve the participation of employees in Lincoln and our results indicate we are able to present needs of the United agencies and gain an encouraging response," he said.

**Confident of Success**

Stephenson said in view of pilot campaign returns, the United Fund team feels confident Lincoln will be able to reach its \$1,207,639 goal. Over 70% of the United Fund monies are pledged by individual contributors, who will be contacted by more than 2,500 volunteer workers during the six-week campaign.

Stephenson prefaced his remarks on the pilot campaign results by noting that individual pilot firms had different goals, such as increasing employee participation or striving for fair share contributions from every employee. Along with Turner Allen, chairman of the pilot campaign, Stephenson announced the following results:

## Federal Officials Will Study State's Title I Controversy

A five-man team representing the U.S. Office of Education will arrive in Lincoln Monday to begin a review of controversies surrounding the state's Title I programs.

Father James Dawson of the Lincoln Roman Catholic Diocese said Tuesday he had been informed the team will spend next week in the state, beginning with a meeting Monday morning with State Department of Education officials.

The team will meet with Nebraska's three Catholic bishops and its three diocesan superintendents that afternoon, Dawson said.

The federal review has been sought by both Catholic leaders and the State Department of Education after Catholic educators complained that federal guidelines were not being followed in the administration of Title I programs.

The programs, funded under Title I of the Elementary and Secondary Education Act of 1965, are designed to help educationally disadvantaged students.

The issue stems from continuing opinions from the state attorney general's office that the Nebraska Constitution prohibits expenditure of federal funds to pay teachers or teaching aides to work within private schools.

Catholic educators say the services to which private schoolchildren are entitled cannot be provided according to federal guidelines unless they are provided "on-site" in the private schools.

Current practice is for the students to go to public schools for sessions such as remedial reading and speech therapy and then return to their own buildings.

Dawson said a spokesman for the U.S. Catholic Conference in Washington was told Nebraska is one of three states about which the U.S. Office of Education is "very concerned."

## Cyclamate Repayment Bill Opposed

Washington (UPI) — Consumer advocates expressed opposition Tuesday to legislation that would reimburse chemical firms, soft drink bottlers and canners for money they lost when the government banned cyclamates as a health hazard.

"A tragic precedent could be created whereby any loser of profits from using suspect chemicals will be reimbursed with tax money," said Ruth Desmond, president of the Federation of Homemakers.

She said DDT manufacturers were closely watching the measure in hopes they, too, could bill the government for losses.

"It's outrageous to establish a precedent of repaying people when the government exercises its police power," said Anita Johnson, an associate of Ralph Nader.

Robert Choate, best known for his charge that breakfast cereals are not nutritious, said passage of the bill would loosen self-restraint by food firms.

"The Food and Drug Administration has repeatedly said it can't monitor the entire food industry," Choate said. "Self-regulation therefore is imperative. Vigorous self-regulation will come only when companies know they must bear the ultimate economic burden for any transgressions."

Mrs. Desmond, Miss Johnson and Choate are scheduled to testify Thursday in the second day of hearings on the bill before a House judiciary subcommittee chaired by Rep. Harold D. Donohue, D-Mass.

## Vice President Of Iraq Ousted

Beirut, Lebanon (AP) — Iraq's vice president and foreign minister were ousted Tuesday night, Baghdad Radio announced.

The broadcast from the Iraq capital said the vice president, Maj. Gen. Salih Mahdi Am-mash, and Foreign Minister Abdel Karim Sattara al Sheilily also were dismissed from the 11-man ruling revolutionary command council.

The actions were taken in a meeting of the council, the radio said.

Washington (UPI) — The Cost of Living Council ruled Tuesday that retail stores may stop giving trading stamps during the wage-price freeze if they pass on the value of the stamps to their customers in the form of lower prices.

The Council said the cost of the stamps should be based on the value at which they may be redeemed by the customer, not what they cost the merchant.

Price cuts may be applied across the board to all merchandise or may be applied selectively to the items for which stamps would normally have been given. If retailers choose the selective method, the Council said they must post signs at each cash register explaining the details of the procedure.

The small businesses in the West O Street area were included in the pilot campaign. Their total contribution increased 46% over last year. These same contributors gave \$1,299 last year and raised \$1,899 this year.

The staff members of the 26 United Fund Agencies raised their contributions at \$7,490. This represents a 17% increase over 1971.

# ASTROLOGICAL FORECAST

By SIDNEY OMARR

## Forecast For Wednesday

A new device, the Tilt Meter, has been developed by an aircraft company; it can detect the tidal pull of the moon or sun on the liquid in a teacup. Man is made up of 90% liquid. Why, then, is it that the sun and moon (and planets) have no discernible influence on human life?

ARIES (March 21-April 19): Spotlight on friendships. You may be called on to make decision which is controversial—no matter what. Realize some around you now are supersensitive. Tread lightly. Exhibit sense of humor.

TAURUS (April 20-May 20): You may feel you have run into an immovable object. Key is recall past lessons; apply experience. Look ahead. Check apparent minor matters. Be thorough. Leave no loopholes.

GEMINI (May 21-June 20): Change, variety, greater consciousness with opposite sex—those are on agenda. Virgo in individual figures prominently. Nail down aspirations. Make position crystal clear. Gain shown through written word.

CANCER (June 21-July 22): Delve deep; reject the superficial. Find out the why of events. Scorpio individual intrigues. You exhibit tendency to be overly intense. Don't fear unknown. Ride with tide. You can win.

LEO (July 23-Aug. 22): Lie low; do more observing than asserting. You may not be seeing too clearly. Romantic haze could cloud basic issues. Realize this and avoid permanent commitment. Legal counsel would be good idea.

VIRGO (Aug. 23-Sept. 22): Pound home requirements. Means let others know what you need. Taking things for granted would be error. Some associates, co-workers display green streak of envy. Adhere to the basic.

LIBRA (Sept. 23-Oct. 22): Good lunar aspect now coincides with love interests, relationships with children. Finish projects. Expand personal horizons. Look beyond the immediate. Creative force is in evidence.

SCORPIO (Oct. 23-Nov. 21): What was confusing falls into place. You get second chance. Correct previous misconceptions. Attention to details now could make you a winner. Act accordingly. Leo, Aquarius persons are involved.

SAGITTARIUS (Nov. 22-Dec. 21): Account on short journeys, development of ideas, ability to communicate with relatives. Trust hunch; follow through. Learn by sharing knowledge. Ignore neighbor who talks too much.

CAPRICORN (Dec. 22-Jan. 19): Money, personal possessions, those now are emphasized. Figure things out for yourself. Too many helpers prove costly. You can expand activities without being extravagant. Pull in financial reins.

AQUARIUS (Jan. 20-Feb. 18): Lunar cycle high; circumstances turn in your favor. Timing improves. Judgment, intuition ring bell. Take initiative. Make new starts, contacts. Personal magnetism, rating soars. Get going to many places.

PISCES (Feb. 19-March 20): Look behind scenes for answers. What appears obvious could actually be a deception. Know this and do have second thoughts. Ask questions; persistent effort will pay dividends. Deep desire for information.

IF TODAY IS YOUR BIRTHDAY you are sensitive, generally gentle in approach to situations and people. Recent changes will work in your behalf. An Aquarius individual could make you happy in upcoming months. Social life is due to be celebrated.

(To find out more about yourself and astrology, order Sydney Omarr's 50-page booklet, "The Truth About Astrology." Send birthdate and 25 cents to Omarr Booklet, The Lincoln Star, Box 3240, Grand Central Station, New York, N.Y. 10017.)

### ASTROLOGICAL FORECAST

☆ By SIDNEY OMARR ☆

#### Forecast For Wednesday

A new device, the Tilt Meter, has been developed by an aircraft company. It can detect the tidal pull of the moon or sun on the liquid in a teacup. Man is made up of 90% liquid. Who, then, is to say that the sun and moon (and planets) have no discernible influence on human life?

**ARIES** (March 21-April 19): Spotlight on friendships. You may be called on to make decision which is controversial—no matter what. Realize some around you now are superstitious. Tread lightly. Exhibit sense of humor.

**TAURUS** (April 20-May 20): You may feel you have run into an immovable object. Key is recall past lessons; apply experience. Look, plan ahead. Check apparent minor matters. Be thorough. Leave no loopholes.

**GEMINI** (May 21-June 20): Change, variety, greater communication with opposite sex—these are on agenda. Virgo individual figures prominently. Nail down aspirations. Make position crystal clear. Gain shown through written word.

**CANCER** (June 21-July 22): Drive deep; reject the superficial. Find out the why of events. Scorpio individual intrigues. You exhibit tendency to be overly intense. Don't fear unknown. Ride with tide. You can win.

**LEO** (July 23-Aug. 22): Lie low; do more observing than asserting. You may not be seeing too clearly. Romantic haze could cloud basic issues. Realize this and avoid permanent commitment. Legal counsel would be good idea.

**VIRGO** (Aug. 23-Sept. 22): Pound home requirements. Means let others know what you need. Taking things for granted would be error. Some associates, co-workers display green streak of envy. Adhere to the basics.

**LIBRA** (Sept. 23-Oct. 22): Good lunar aspect now coincides with love interests, relationships with children. Finish projects. Expand personal horizons. Look beyond the immediate. Creative force is in evidence.

**SCORPIO** (Oct. 23-Nov. 21): What was confusing falls into place. You get second chance. Correct previous misconceptions. Attention to details now could make you a winner. Act accordingly. Leo, Aquarius persons are involved.

**SAGITTARIUS** (Nov. 22-Dec. 21): Accents on short journeys, development of ideas, ability to communicate with relatives. Trust hunch; follow through. Learn by teaching means share knowledge. Ignore neighbor who talks too much.

**CAPRICORN** (Dec. 22-Jan. 19): Money, personal possessions—these now are emphasized. Figure things out for yourself. Too many helpers prove costly. You can expand activities without being extravagant. Pull in financial reins.

**AQUARIUS** (Jan. 20-Feb. 8): Lunar cycle high; circumstances turn in your favor. Timing improves. Judgment, intuition ring bell. Take initiative. Make new starts, contacts. Personal magnetism rating soars. Get going—many places!

**PISCES** (Feb. 19-March 20): Look behind scenes for answers. What appears obvious could actually be a deception. Know this and do have second thoughts. Ask questions; persistent effort will pay dividends. Dig deeper for information.

**IF TODAY IS YOUR BIRTHDAY** you are sensitive, generally gentle in approach to situations and people. Recent changes will work in your behalf. An Aquarius individual could make you happy in upcoming months. Social life is due to be accelerated.

# Peterson, Ferguson Unveil New Proposals At AFL-CIO Meet

North Platte — Two Democratic senatorial prospects Tuesday unveiled new proposals at an AFL-CIO state convention increasingly dominated by presidential politics.

While Sen. Henry Jackson brought his unannounced campaign to the delegates in person, other Democratic

aspirants made sure they were not forgotten.

Sen. Fred Harris who had to cancel a scheduled appearance before the convention on Wednesday, sent a telegram of greeting.

So did Sen. Edmund Muskie.

Sen. George McGovern chose to address the delegates by telegram, with a sharp attack on President Nixon's economic policies.

Supporters of Sen. Hubert Humphrey and Sen. Birch Bayh are scheduled to make their pitch to the delegates Wednesday.

Meanwhile, Wallace Peterson of Lincoln, a likely candidate for the Democratic senatorial nomination, told the convention he favors the dissolution of some of America's giant corporations.

And Donald Ferguson of Lincoln, an announced candidate for the Democratic senatorial nod, urged labor to join in supporting universal voter registration in America.

"There must be a direct assault upon concentrated monopoly," Peterson said.

"Some of the corporate giants which now dominate our economic life must be dissolved, broken up into smaller competitive units."

Peterson said a thorough revamping of the personal income tax system is also needed.

"If the personal income tax were made loophole-proof and given a moderately progressive rate structure, then we could abolish the corporate income tax, provided corporations were required by law to distribute all their earnings," he said.

Monopoly power, he said, leads to higher prices, reduced output, more unemployment and a slower rate of technological progress.

Peterson is chairman of the University of Nebraska Department of Economics.

Ferguson said the U.S. needs to develop "a system which will automatically register every citizen in this country when he becomes eligible to vote, while at the same time safeguarding against the abuse of the right to vote."

On economic matters, Ferguson said the nation's goal should be full employment.

But the Nixon administration places top priority on "the preservation and enhancement of American industry at the sacrifice of the common man," Ferguson said.

Nixon's economic philosophy of planned unemployment and new tax credits for business is "a Robin Hood in reverse," he said.

And Sen. Carl Curtis stands with the administration, Ferguson said.

McGovern's telegram described Nixon's economic program as "the most unfair economic package ever designed by a President of the United States."

Instead of new tax credits for big business, Nixon should have invested new money in housing, schools, hospitals and pollution control, McGovern said.

"That would have put people back to work instead of making the fat cats fatter," he said.

**175 Rounded Up**  
New Delhi (UPI) — Authorities in the northern Indian state of Punjab have rounded up about 175 supporters of the Naxalite terrorist movement during the past five weeks, the Press Trust of India reported.

## Reorganization Committee Okays 3 Petitions, Election

The State Committee for School District Reorganization announced Tuesday approval of three petition plans and one election proposal.

Petition plans approved, by County, include:

Jefferson — Form a new K12 district including Class I district numbers 1, 7, 46, 47, 51, 58, 65, 72, 87, 97, 101 and 104 and Class III District 8 (Fairbury).

Boone — Dissolve Class I District 78 and attach territory to Class III District 1 (Albion).

Keith — Dissolve Class I District 29 and attach territory to Class II District 6 (Paxton).

The election proposal approved by the committee was:

Jefferson — Form a new K12 district including Class I district numbers 1, 7, 46, 47, 51, 58, 65, 72, 87, 97, 101 and 104 and Class III District 8 (Fairbury).

# Broadcasters Call For An Independent System

The Nebraska Broadcasters Association Tuesday called upon the U.S. Congress to guarantee "maintenance of a free and independent broadcasting system."

The action came in a unanimous vote during a business meeting at the NBA's annual convention.

In other business matters, the association elected Frank Scott, manager of radio station KLNG in Omaha, as its president-elect.

Scott succeeds Roger Larson, general manager of KFOR in Lincoln. Larson assumed the presidency of the association.

**Seek Amendment**

In the resolution on free broadcasting, the NBA "earnestly" recommended that Congress "immediately amend Section 326 of the Communications Act of 1934 in such a manner that there will be no question of the maintenance of a free and independent broadcasting system in these United States."

The resolution said the system should be "free from coercive control by government agencies and commissions; free from misinterpretation by the courts; free from harassment by small pressure groups."

The resolution said court rulings "have actually negated the intent" of the legislation.

**Attacks 'Foundation'**

Interpretations of the "fairness doctrine" by courts and the Federal Communications Commission "have attacked the very foundation of freedom of speech and free enterprise," the resolution said.

And proposed license renewal processes will limit broadcasting's freedoms and "give to the few control over broadcasting facilities out of all proportion to their importance to the democratic principles of the

Scott Larsen

American way of life," it said.

On its final convention day, the NBA also heard from Francis X. Tobin, director of the regional Office of Emergency Preparedness in Kansas City.

Tobin told them he believes details of Phase II of the President's economic program will be announced in ten days to two weeks.

**Unaware of Details**

Although he said he is not aware of details, Tobin told newsmen later that he is "certain it will not be a return to conditions prior to the wage freeze."

He said his office, with four-state jurisdiction, has fielded 100,000 inquiries, 500 complaints and is investigating 15 of the latter.

In its business meeting, the NBA voted to hold next year's convention in Grand Island.

Frank Fogarty of Omaha was named NBA executive secretary and Orval Koch of Lincoln was re-elected treasurer.

Named to the board of directors were Russ Gast of WOW radio in Omaha, Glen Ilgenfritz of KHUB radio in Fremont and Larry Walklin of KRNU radio at the University of Nebraska-Lincoln.

Past President Amos Eastridge of KMTV in Omaha will serve on the board, as will holdover members Joe di Natale of North Platte, John Powell of Hastings, Robert Schuelle of Grand Island and Ray Lockhart of Ogallala.

## \$100,000 Cross Petition Filed Against Royal Grove

A cross-petition for \$100,000 damages was filed in Lancaster District Court Tuesday by Robert W. Marhenke of 225 West Saunders against SPA Inc., doing business as Royal Grove Nite Club at 340 West Cornhusker Hwy.

Marhenke also asks that Tommy L. Jelsma be joined in the suit as owner of the night club property leased to SPA Inc.

Jelsma, as club manager, and SPA have jointly operated the night club, according to Marhenke's allegations, in such manner as to attract "boisterous and disorderly crowds" and to become a "nuisance."

Marhenke asks \$100,000 for alleged deterioration in the

value of his residential property and "pain and suffering" caused by the club's operation.

In its suit filed against Marhenke, SPA Inc., asks \$100,000 damages for alleged defamatory actions and prejudicial statements to the City Council and State Liquor Control Commission.

### Did Bird Eat Pot?

Lyon, France (P) — Marthe Giselle, 48, planted a handful of seeds from her parrot's food supply in the spring. Police questioned her in the fall because they said 355 of the plants that came up were hemp, a marijuana-like narcotic.

# More Women Are Becoming Involved In Violent Crimes

By LYNN SHERR  
Associated Press Writer

In increasing numbers, women are becoming more involved in crime and violence in the United States.

During the 10 years between 1960 and 1970, for instance, FBI figures show that female arrests for major crimes rose 200.6%, compared to an increase of 72.7% for men during the same period.

Statistics show the female conflict with the law covers the whole range of crime, from murder to shoplifting, from petty larceny to bank robbery; they are tending to be full partners with men, rather than accomplices as in the past; they represent the whole social

spectrum, black and white, poor and middle class, urban and suburban.

**Two Factors**

Most experts attribute the phenomenon primarily to two unrelated factors: the mushrooming use of narcotics, and the changing role of women. Another element is the deep involvement of many women with radical movements and their attacks on property, draft offices, etc.

Says Dr. Marvin E. Wolfgang of the Criminology Research Center at the University of Pennsylvania: "As we approach greater sexual equality and women engage in more occupations and social interactions, there is a higher

probability they'll be involved in more criminal behavior.

"They'll simply get into similar situations to those men have had. The sheer frequency of those contacts will increase."

Four women are now on the FBI's Most Wanted list. Three of them, Bernadine Dohrn, Susan Saxe and Katherine Anne Power, are charged with crimes growing out of radical political activities.

The fourth woman on the FBI

list is a 35-year-old prison escapee charged with murder.

**Local Statistics**

The FBI figures on major crime are borne out in local statistics as well. In California women performed 76% more robberies in 1970 than they did in 1960. In Denver, they were arrested for nearly five times the number of burglaries as 10 years ago. In Detroit, arrests of women possessing illegal weapons have climbed 1,255%.

The FBI statistics also show that for female offenders under 18 years of age, the crime rate increased 256.5% during 1960-70, while it rose 79.5% for males under 18.

Dr. Wolfgang said the soaring rate of juvenile girls is almost predictable. "When the crime rate goes up, it's principally in the 'under 18' category—for both males and females," he said.

He also pointed to a similar surge in female aggression in

juvenile gangs, and connected both trends to the use of drugs.

"The drug scene is predominantly a youthful one. I suspect that explains it as well as anything."

**Middle-Class Offenders**

Drugs also explain the rise in the number of middle-class offenders. Virginia Carlson, superintendent of the California Institution for Women at Folsom, says "over 65% of them are Caucasian—definitely middle class group, from two-and-three-bedroom houses."

The increase in female crime, however, doesn't necessarily portend a new wave of criminal activity for the country, said Dr. Wolfgang.

"Full equality for women would logically lead to similar rates of crime for males and females," he said. "But it doesn't mean the entire crime rate will increase. As the role of men also changes, their crime rates may change. There may be a reduction for men."

Wednesday, Sept. 29, 1971 The Lincoln Star 11

## Health Council Names Gustafson

Ronald N. Gustafson, native of Wakefield and graduate of Nebraska Wesleyan University, has been appointed planning assistant for personal health for the Southeast Nebraska Health Planning Council, Executive Director Jerry Woolien reported Tuesday.

Gustafson is completing a master's degree program in political science at the University of Nebraska-Lincoln.

## ETV Commission Will Meet Thursday

Formal acceptance of a \$223,662 grant from the U.S. Office of Health, Education and Welfare and authorization to invite bids of color television cameras are expected to be the major items on the agenda at a Thursday meeting of the Nebraska Educational Television Commission.

The public meeting is scheduled at 1:30 p.m. in the Alliance Room of the Nebraska

Center for Continuing Education.

According to Commission Secretary Jack McBride, commission members prior to the meeting will take a final tour of the 11 locations in which Lincoln-based ETV organizations operated.

McBride said other agenda items would include a report on the Nebraska ETV Network instructional program service as the new school year begins,

a status report on building construction, and other routine matters.

## Armed Robbers Drop Pants On About 100 Men

Baton Rouge, La. (UPI) — Two armed robbers stole the pants off about 100 men at the annual Catholic high school men's supper.

The robbers, wielding a shotgun and a rifle, walked into the school shortly after midnight and ordered every man in the place to drop his pants. They fled with the men's money and their pants.

Only 12 of the victims were willing to file complaints with police. Others went home before the officers arrived and still others were too ashamed to become involved by filing complaints. The 12 who filed complaints said they were robbed of a total of \$5,952.

**For better health, eat the 4 basic foods every day.**

**Here's one of them:**

## New Kearney Bank Rejected

State Banking Director Henry Ley said Monday his department has turned down a request to set up a third bank in Kearney.

The bank, which would have been called the Buffalo State Bank, would have been located at 110 West 22nd St. in Kearney, Ley said.

He said the application for a bank charter was from the Buffalo State Bank and was

signed by W. F. Nelson of Kearney.

Ley would not reveal the reason for the denial of the application but said such information would have to come from Nelson, who Ley said has been notified of the reason.

The Banking Department had earlier held a public hearing in Kearney on the question of whether Kearney needs another bank.

## Business Teacher Education Dept. Sets Open House

Alumni and parents of students in business teacher education at the University of Nebraska-Lincoln will have an opportunity to get acquainted and ask any questions they may have at the department's open house on campus Saturday, 9:30 a.m. until noon.

Dr. Gordon Culver, departmental chairman, said one of the objectives of the annual open house is to acquaint parents with the work of the department and with the people who do the teaching.

Members of Phi Beta Lambda, the professional business education organization, will co-host the open house.

## Now! Start ironing right in your washer with Soft Plus fabric conditioner.

Soft Plus, the world's first fabric conditioner does everything a fabric softener does—then goes a step farther.

Imagine, if you can, what it would be like to have a whole crew of expert laundresses ironing out wrinkles—right in your washer. That's the idea of what new Soft Plus does for you. This hard-working new fabric conditioner tackles tough wrinkles and keeps them from getting "set". Smooths away bothersome hairline wrinkles. Virtually eliminates touch-up ironing. Makes all ironing far, far easier.

But new Soft Plus doesn't stop with wrinkle fighting. Because it's a fabric conditioner, Soft Plus actually helps today's fabrics wear longer. Soft Plus coats each fiber strand with an invisible protective shield—a shield only the fiber strand knows is there.

Of course, new Soft Plus brightens at the same time that it protects, softens and smooths.

Start ironing right in your washer—with your very first capful of new Soft Plus Fabric Conditioner.

# More Women Are Becoming Involved In Violent Crimes

By LYNN SHERR  
Associated Press Writer

In increasing numbers, women are becoming more involved in crime and violence in the United States.

During the 10 years between 1960 and 1970, for instance, FBI figures show that female arrests for major crimes rose 200.6%, compared to an increase of 72.7% for men during the same period.

Statistics show the female conflict with the law covers the whole range of crime, from murder to shoplifting, from petty larceny to bank robbery, they are tending to be full partners with men, rather than accomplices in the past; they represent the whole social

spectrum, black and white, poor and middle class, urban and suburban.

Two factors

Most experts attribute the phenomenon primarily to two unrelated factors: the mushrooming use of narcotics, and the changing role of women. Another element is the deep involvement of many women with radical movements and their attacks on property, draft offices, etc.

Says Dr. Marvin E. Wolfgang of the Criminology Research Center at the University of Pennsylvania: "As we approach greater sexual equality and women engage in more occupations and social interactions, there is a higher

probability they'll be involved in more criminal behavior.

"They'll simply get into similar situations to those men have had. The sheer frequency of those contacts will increase."

Four women are now on the FBI's Most Wanted list, three of them, Bernardine Dohrn, Susan Saxe and Katherine Anne Power, are charged with crimes growing out of radical political activities.

The fourth woman on the FBI

list is a 35-year-old prison escapee charged with murder.

Local Statistics

The FBI figures on major crime are borne out in local statistics as well. In California women performed 76% more robberies in 1970 than they did in 1960. In Denver, they were arrested for nearly five times the number of burglaries as 10 years ago. In Detroit, arrests of women possessing illegal weapons have climbed 1,255%.

The FBI statistics also show that for female offenders under 18 years of age, the crime rate increased 256.5% during 1960-70, while it rose 79.5% for males under 18.

Dr. Wolfgang said the soaring rate of juvenile girls is almost predictable. "When the crime rate goes up, it's principally in the 'under 18' category—for both males and females," he said.

He also pointed to a similar surge in female aggression in

juvenile gangs, and connected both trends to the use of drugs.

"The drug scene is predominantly a youthful one. I suspect that explains it as well as anything."

Middle-Class Offenders

Drugs also explain the rise in the number of middle-class offenders. Virginia Carlson, superintendent of the California Institution for Women at Folsom, says "over 65% of them are Caucasian—definitely middle class group, from two-and-three-bedroom houses."

The increase in female crime, however, doesn't necessarily portend a new wave of criminal activity for the country, said Dr. Wolfgang.

"Full equality for women would logically lead to similar rates of crime for males and females," he said. "But it doesn't mean the entire crime rate will increase. As the role of men also changes, their crime rates may change. There may be a reduction for men."

## Health Council Names Gustafson;

Ronald N. Gustafson, native of Wakefield and graduate of Nebraska Wesleyan University, has been appointed planning assistant for personal health for the Southeast Nebraska Health Planning Council, Executive Director Jerry Woolen reported Tuesday.

Gustafson is completing a master's degree program in political science at the University of Nebraska-Lincoln.

## ETV Commission Will Meet Thursday

Formal acceptance of a \$223,662 grant from the U.S. Office of Health, Education and Welfare and authorization to invite bids of color television cameras are expected to be the major items on the agenda at a Thursday meeting of the Nebraska Educational Television Commission.

The public meeting is scheduled at 1:30 p.m. in the Alliance Room of the Nebraska

Center for Continuing Education.

According to Commission Secretary Jack McBride, commission members prior to the meeting will take a final tour of the 11 locations in which Lincoln-based ETV organizations operated.

McBride said other agenda items would include a report on the Nebraska ETV Network instructional program service as the new school year begins.

a status report on building construction, and other routine matters.

## Armed Robbers Drop Pants On About 100 Men

Baton Rouge, La. (UPI) — Two armed robbers stole the pants off about 100 men at the annual Catholic high school men's supper.

The robbers, wielding a shotgun and a rifle, walked into the school shortly after midnight and ordered every man in the place to drop his pants. They fled with the men's money and their pants.

Only 12 of the victims were willing to file complaints with police. Others went home before the officers arrived and still others were too ashamed to become involved by filing complaints. The 12 who filed complaints said they were robbed of a total of \$5,952.

For better health, eat the 4 basic foods every day.

Here's one of them:

## New Kearney Bank Rejected

State Banking Director Henry Ley said Monday his department has turned down a request to set up a third bank in Kearney.

The bank, which would have been called the Buffalo State Bank, would have been located at 110 West 22nd St. in Kearney, Ley said.

He said the application for a bank charter was from the Buffalo State Bank and was

signed by W. F. Nelson of Kearney.

Ley would not reveal the reason for the denial of the application but said such information would have to come from Nelson, who Ley said has been notified of the reason.

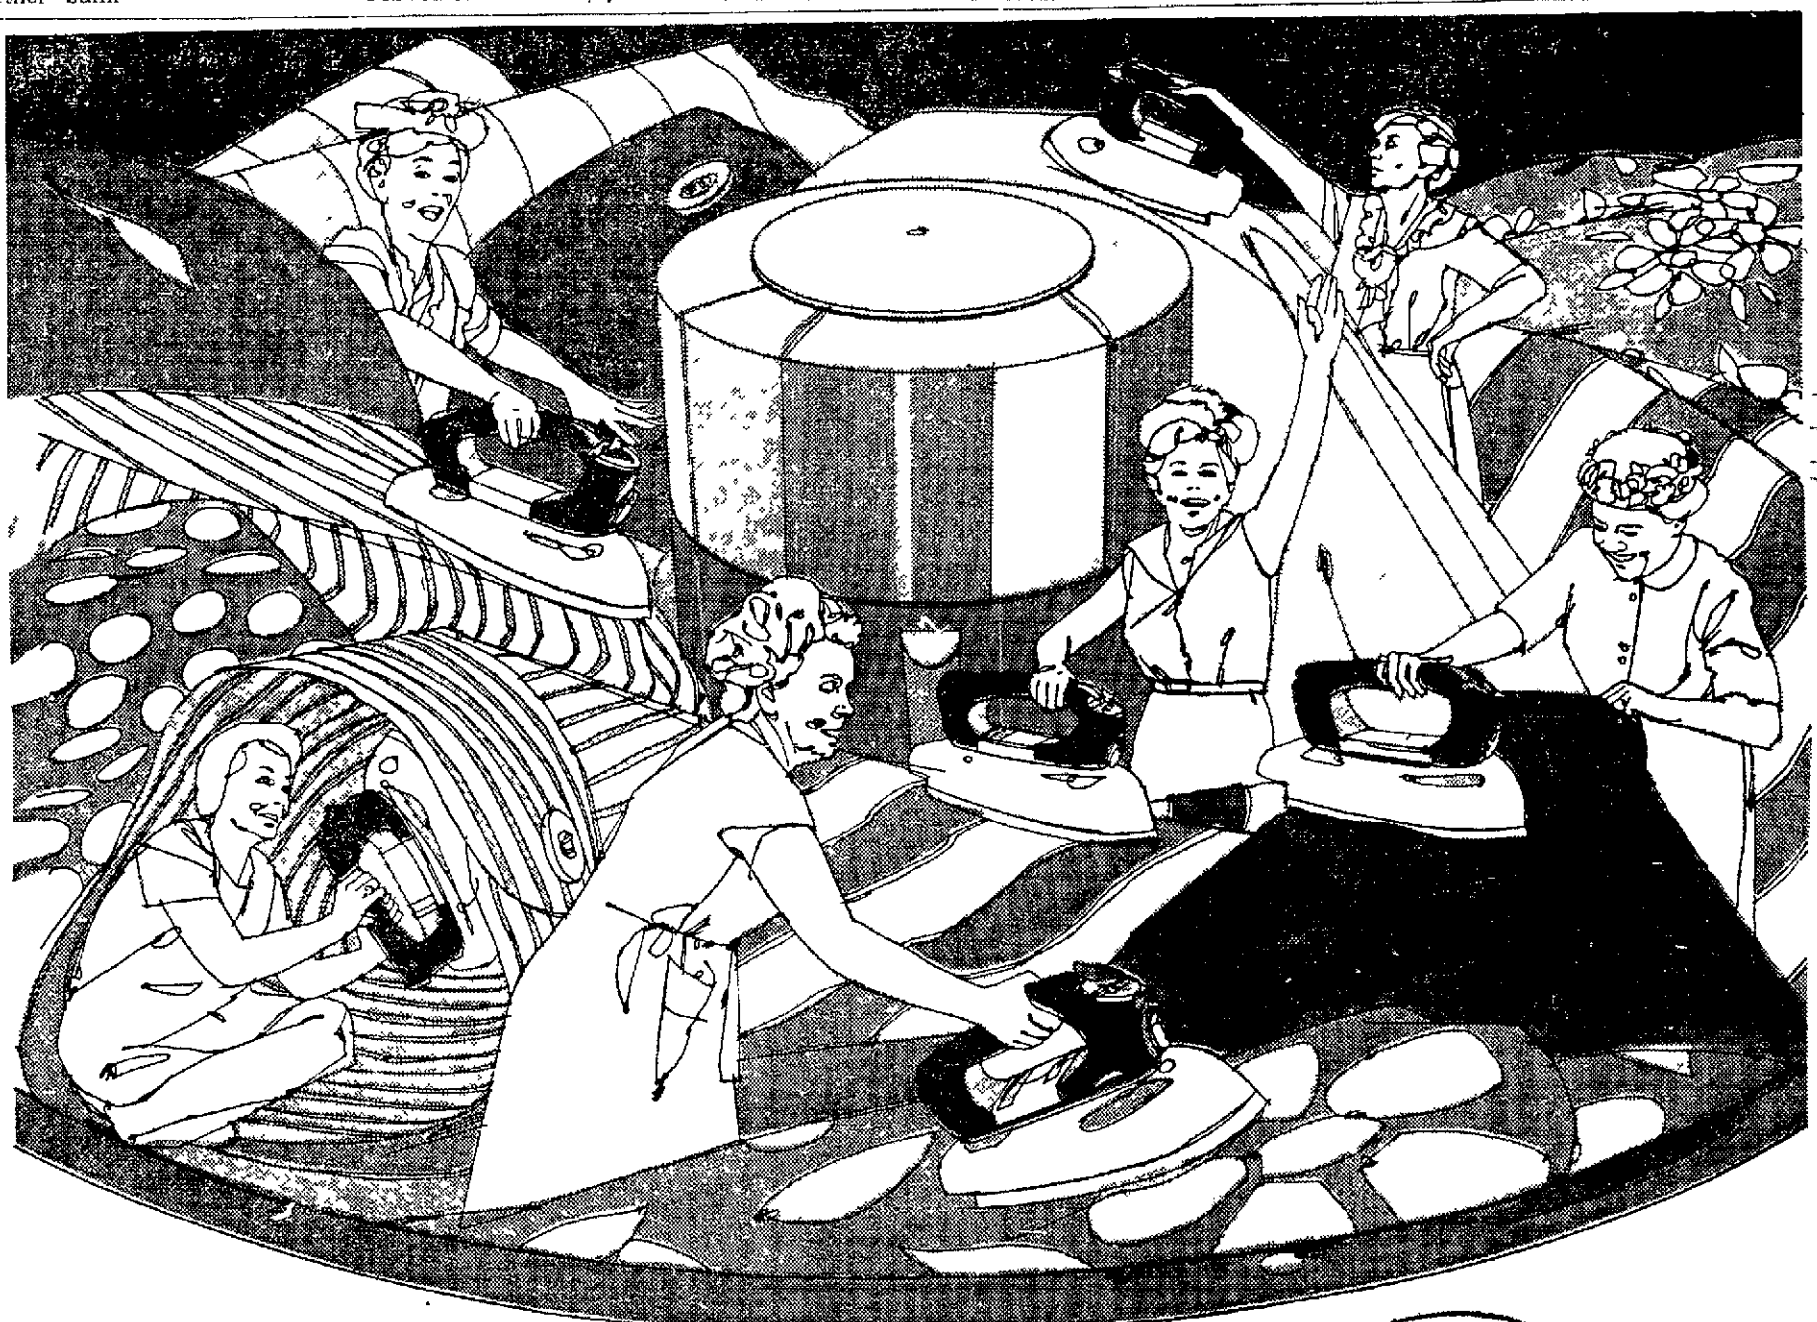

The Banking Department had earlier held a public hearing in Kearney on the question of whether Kearney needs another bank.

## Business Teacher Education Dept. Sets Open House

Alumni and parents of students in business teacher education at the University of Nebraska-Lincoln will have an opportunity to get acquainted and ask any questions they may have at the department's open house on campus Saturday 9:30 a.m. until noon.

Dr. Gordon Culver, departmental chairman, said one of the objectives of the annual open house is to acquaint parents with the work of the department and with the people who do the teaching.

Members of Phi Beta Lambda, the professional business education organization, will co-host the open house.

## Now! Start ironing right in your washer with Soft Plus fabric conditioner.

Soft Plus, the world's first fabric conditioner does everything a fabric softener does—then goes a step farther. Imagine, if you can, what it would be like to have a whole crew of expert laundresses ironing out wrinkles—right in your washer. That's the idea of what new Soft Plus does for you. This hard-working new fabric conditioner tackles tough wrinkles and keeps them from getting "set". Smooths away bothersome hairline wrinkles. Virtually eliminates touch-up ironing. Makes all ironing far, far easier.

But new Soft Plus doesn't stop with wrinkle fighting. Because it's a fabric conditioner, Soft Plus actually helps today's fabrics wear longer. Soft Plus coats each fiber strand with an invisible protective shield—a shield only the fiber strand knows is there.

Of course, new Soft Plus brightens at the same time that it protects, softens and smooths. Start ironing right in your washer—with your very first capful of new Soft Plus Fabric Conditioner.

# Sioux Want \$62 Million For Land Stolen By U.S.

Washington (AP) — A descendant of Chief Crazy Horse, the warrior chieftain who massacred cavalry troops under the command of Col. George A. Custer, appealed Tuesday for millions of dollars for lands taken from the Sioux tribes during the Indian wars.

David "Crazy Horse" Long, vice president of the Oglala Sioux Tribe in southwestern South Dakota, said the tribes seek \$62 million for some 48 million acres of land "taken from us by the United States" in 1868.

"My people, the Oglala Sioux, have waited a very long time to see justice done in these cases," Long told a news conference.

**1868 Land Values**  
The United States has estimated the value of the lands in South Dakota, North Dakota, Nebraska, Wyoming and Montana at slightly over

\$12 million. All are estimates based on land values in 1863, the year the United States and the Sioux tribes entered into a peace treaty.

The proposed settlement could wind up one of the oldest pieces of litigation in the U.S. courts, said attorney Arthur Lazarus. The original claim was filed in 1923 and the matter currently is before the Indian Claims Commission.

In addition to the 48 million acres, the commission has under consideration a companion claim covering the Black Hills, a region that was originally included in the Treaty of 1868.

It was wrested from the Sioux by blue-coated soldiers and prospectors seeking gold during the Black Hills Gold Rush in 1874-75.

The subsequent battles between the Indians and the miners resulted in the death of

Custer and his men in 1876 at the Little Big Horn.

**Worth \$27 Million**  
The Sioux contended the 7½-million acres in the Black Hills were worth \$27 million, while the United States estimated their value at \$5 million.

Long noted that "when the European peoples first came to the Western hemisphere, my ancestors greeted them in a friendly manner and helped them to survive when food ran short and when the winters were cold.

"The troubles which later developed between the American Indians and the European peoples came about because over and over again the Europeans broke their word and violated the rights of the Indian inhabitants of this land," he said.

Conflicts between U.S. cavalrymen and Sioux warriors ended in 1890 in the one-sided Battle of Wounded Knee.

## 2 Plead Innocent In Triple Murder

Washington, Pa. (UPI) — Two men, one accused of being a triggerman, pleaded innocent Tuesday to the murder of United Mine Workers official Joseph A. "Jock" Yablonski, his wife and daughter.

Paul E. Gilly, 37, of Cleveland, and his father-in-law, Silous Huddleston, 61, a retired LaFollette, Tenn., miner, entered their pleas before Washington County Judge Charles G. Sweet.

## Mansfield Pullout Debate To Start

Washington (AP) — The Senate agreed Tuesday to start debate Thursday on majority leader Mike Mansfield's new move to force U.S. withdrawal from Indochina.

But efforts to agree to a vote that day failed, reportedly because the Nixon administration wants to delay the vote until after Sunday's presidential election in South Vietnam.

## Proposed IMF Resolution Asks 'Satisfactory' Exchange Structure

Washington (AP) — A proposed resolution of the board of governors of the International Monetary Fund called on the 118 member nations Tuesday to proceed urgently to establish a new and "satisfactory" structure of exchange rates for their currencies.

The resolution was prepared for the board in an emergency procedure by the IMF's executive directors. It was read to the governors late in the day's session by IMF's managing director, Pierre-Paul Schweitzer.

The resolution asks the 12-member board of executive directors to "make reports to the board of governors without delay on the measures that are necessary or desirable for the improvement or reform of the international monetary system."

The resolution was prefaced by an explanation that the worldwide monetary disruption largely precipitated by President Nixon's Aug. 15 decision to halt the con-

vertibility of dollars into gold—"contains the dangers of instability and disorder in currency and trade relationships."

But, it said, the situation "also offers the opportunity for constructive changes in the international monetary system."

These changes — including the possible eventual development of a new international monetary system based at least partly on "paper gold," as recommended by Britain, Japan, Italy and France — are the objectives of the instruc-

tions to the IMF's executive directors.

The resolution must be cleared Thursday by the IMF's committee on procedure, then presented for approval to the full board of governors on Friday, final day of the annual meeting. Its adoption is certain, officials said.

## Plea To Stop Destroying Homes Ignored

United Nations, N.Y. (AP) — Israel ignored Tuesday a U.N. request to cease destruction of refugee homes in the Gaza Strip and defended the action as necessary to end terrorism against the Arab inhabitants of Gaza.

"The Israeli measures have already met with considerable success and have, in fact, saved the lives of refugees and other Arab inhabitants who otherwise would have fallen victim to the terror campaign," wrote Ambassador Yosef

Tekoah in a letter to Secretary-General U Thant.

Tekoah said the destruction had been necessary because the overcrowding and congested layout of the refugee quarters invited terror operations. He said no demolition took place unless alternative housing was provided.

Tekoah, in his letter to Thant, cited these figures:

"During the month of June of 1971 agents of Arab terror organizations murdered in the Gaza area 29 Arab inhabitants and wounded 153," Tekoah wrote.

"In July, they murdered 13 Arab inhabitants, and the figure for August was five dead

and 36 wounded. Most of the victims were refugees. During the first three weeks of September two persons were killed and three wounded."

# Exon Warns Against Using Crash Pollution Programs

Gov. J. James Exon said Tuesday that "unrealistic demands" to meet water pollution problems caused by feedlots would cause a decline in cattle-feeding and a rise in the price of beef.

In a speech to the National Symposium on Animal Waste Management in Warrenton, Va., Exon said, "Crash programs on pollution problems could lead to shortsighted outlooks when sensible long-range planning is the real answer."

The governor made the comment in reference to the December 31, 1972, deadline for waste control facilities to be completed under the 1969 Water Pollution Control Act.

The environmental issue, Exon said, must be "given time to be put on a rational basis for the sake of efficiency and economy."

"The consumer's stake in maintaining a high quality food product at a reasonable price," Exon said, "depends upon the

encouragement of keeping a strong cattle-feeding industry.

"Unreasonable or too extensive regulations could cause a wholesale departure of smaller feeders from the ranks of cattle-feeding."

Exon recommended increased federal funds as an incentive for a more rapid reduction in pollution potential.

"It only seems logical to maintain and improve upon the limited cost-sharing program administered through the Agricultural Stabilization and Conservation Service for the construction of livestock waste control facilities," he said.

Existing agencies and proper information inputs to the extension service, Exon said, will help produce solutions to animal waste problems "with less confusion and without having to set up a multitude of new agencies and . . . new programs."

Exon said he believes the goal can be achieved through state legislation requiring producers to prevent wastes from running to waterways.

Quoting a survey done in 1970, Exon said about 50% of the state's feedlots may need waste control systems. However, he said about half of these would be inexpensive changes.

In order to provide a

"favorable climate for the cattle feeding industry," Exon advanced the idea of agricultural zoning.

"Why should a feedlot operator with a tremendous investment where site location is vital be at the mercy of society's whims?" the governor said. "Zoning could provide specific areas for livestock production. Zoning can restrict the location of residential housing in areas zoned for agriculture."

Exon also "cautioned" those attending the conference that "agriculture is no longer in the position to keep taking in less while paying out more."

## Accident Victim Awarded \$22,500 Judgment Here

A Lancaster District Court jury Tuesday awarded a \$22,500 judgment to Gerald F. Sasek of 2016 No. 49th for personal injuries received in a 1969 car-motorcycle accident at 17th and Q.

The judgment was awarded against Mr. and Mrs. Daniel P. Demuth of 1241 No. 56th.

Mrs. Demuth was the driver of the car which was in collision with a motorcycle on which Sasek was a passenger.

## PACKING PLANT BLASTED

The National Food Stores packing house in Adams County, Colo., outside Denver was ripped by an explosion that destroyed refrigeration equipment and damaged the rear of the plant. It may have been a natural

gas explosion, but fire officials say the cause has not yet been determined. Debris was scattered about 100 feet from the center of the explosion. No one was injured.

## A. Sherdall Lewis Wins Acquittal

A Lancaster District Court jury Tuesday acquitted A. Sherdall Lewis, 21, of 2410 So. 9th on a charge of receiving stolen property. Lewis had pleaded innocent in August to a charge allegedly involving a Nov. 26 incident.

# Wise Use Of Resources Is Major Goal Of SCS

A Soil Conservation Service official said Tuesday "Although we must remain constantly alert to the environmental influence of proposed works of improvement, we cannot overlook the basic mission of the Soil Conservation Service—the proper management and wise use of all the nation's natural resources."

Hollis R. Williams, deputy administrator for watersheds, Washington, D.C., made his remarks during the opening session of a 4-day pollution abatement workshop in Lincoln.

"Resource plans," Williams said, "must provide for wise use of all resources, not exploitation of some while enhancing others."

Williams called for a coordination of studies, data input and recommendations of all agencies assisting with any project formulation.

"We can do no less than assume full responsibility for project planning," he said.

The objective of the workshop is aimed at developing an understanding of the responsibilities and techniques of pollution abatement.

Subjects to be reviewed include: —Policy and authorizations.

—Research information. —Standards and specifications.

—Implementation of assistance to soil and water conservation districts, landowners, project sponsors and other units of government.

Wednesday's session will feature speeches and panel discussions on agricultural chemicals, environmental tools, regulatory responsibilities of states regarding pollutants and how pollution affects fish and wildlife.

## Statement Filed

Akron, Ohio (AP) — Firestone Tire & Rubber Co. said Tuesday it had filed a registration statement covering the proposed sale of \$100 million in 30-year debentures. It said sale of the debentures would mark Firestone's first long-term public financing in the United States since 1963.

### TRUCKLOAD SALE REPORT

To our Customers, Lincolntes & Fellow Big Red Fans: The 4-day truckload sale we ran last week was a phenomenal success. I find it hard to believe so many quality minded people visited our store and purchased color sets in just 4 days. We have been in the Color TV Sales & Service business for 13 years in the same location, and why we waited so long to have our first Truckload Sale we'll never know. The great success of the sale may have been due to the High Quality Merchandise offered, tremendously low pricing, personalized service after the sale, "tell it like it is" sales methods, or a combination of all. To the many people who participated our sincere and heartfelt thanks.

**"CAP" ENYERAT**

### SPECIAL ANNOUNCEMENT

Due to the tremendous volume of business last week, (we emptied the truck and two other large shipments & half our regular floor inventory) we have negotiated with the factory, and they have authorized a one time re-inventory Purchase at the Truck Load Costs. The most popular models have been re-purchased and are in our store. Those of you who missed the sale now have another chance to buy and save at Truck Load Sale Prices until inventory is depleted.

# Exon Warns Against Using Crash Pollution Programs

Gov. J. James Exon said Tuesday that "unrealistic demands" to meet water pollution problems caused by feedlots would cause a decline in cattle-feeding and a rise in the price of beef.

In a speech to the National Symposium on Animal Waste Management in Warrenton, Va., Exon said, "Crash programs on pollution problems could lead to shortsighted outlooks when sensible long-range planning is the real answer."

The governor made the comment in reference to the December 31, 1972, deadline for waste control facilities to be completed under the 1969 Water Pollution Control Act.

The environmental issue, Exon said, must be "given time to be put on a rational basis for the sake of efficiency and economy."

"The consumer's stake in maintaining a high quality food product at a reasonable price," Exon said, "depends upon the

encouragement of keeping a strong cattle-feeding industry.

"Unreasonable or too extensive regulations could cause a wholesale departure of smaller feeders from the ranks of cattle-feeding."

Exon recommended increased federal funds as an incentive for a more rapid reduction in pollution potential.

"It only seems logical to maintain and improve upon the limited cost-sharing program administered through the Agricultural Stabilization and Conservation Service for the construction of livestock waste control facilities," he said.

Existing agencies and proper information inputs to the extension service, Exon said, will help produce solutions to animal waste problems "with less confusion and without having to set up a multitude of new agencies and . . . new programs."

Exon said he believes the goal can be achieved through state legislation requiring producers to prevent wastes from running to waterways.

Quoting a survey done in 1970, Exon said about 50% of the state's feedlots may need waste control systems. However, he said about half of these would be inexpensive changes.

In order to provide a

"favorable climate for the cattle feeding industry," Exon advanced the idea of agricultural zoning.

"Why should a feedlot operator with a tremendous investment where site location is vital be at the mercy of society's whims?" the governor said. "Zoning could provide specific areas for livestock production. Zoning can restrict the location of residential housing in areas zoned for agriculture."

Exon also "cautioned" those attending the conference that "agriculture is no longer in the position to keep taking in less while paying out more."

Birthdays rolling around again. I am Saturday's child. "Saturday's child has far to go." (But how about taking ten for a cigarette, Sergeant? I'm in no hurry.)

Birthdays come in bunches around here. Two boys and me. Listen to the astrology books: "The planetary ruler of Libra is harmonious, dainty Venus, imbuing its heirs with a love of peace, composure and beauty."

That's us. We love peace, composure and beauty. Also 10-speed bikes, McDonald's ham-

### Two Are Named To NU's Panel On Publications

President D. B. Varner Monday appointed two additional members to a special committee asked to draft appropriate guidelines for University of Nebraska publications.

Those named to serve are: Ann Pedersen, UN-L, and Richard D. Brown, UNO. Both are members of their campus's respective publication boards.

The committee was created in response to a resolution passed by the University of Nebraska Board of Regents which said that university publications should "be required to meet journalistic responsibility and the code of ethics of the working press of Nebraska."

burgers, water pistols, and the new Swiss Army knife that has special blades for fishermen.

October is birthday month. Presents to be bought—and paid for. November is tax month. For some reason I must up with tax money for what I think I might make next year.

December is the month we scratch for insurance money. January we pay the Christmas bills.

February is a raft of expensive anniversaries and birthdays and Valentine's Day.

In March I go to join the Foreign Legion.

"How I Lost 15 Pounds And Saved The Marriage." Everybody's on health diets around here. Losing weight or gaining weight. On and off the bathroom scales a dozen times a day.

I don't need a diet—I rarely move more than a pound in either direction.

But when the cook diets, the whole family diets. Save the marriage and throw the man away.

I did go on a non-saturated fat thing at one time. The health magazine insisted that butter clogged your inner works.

So we went on margarine. Sometimes I couldn't always persuade the cook that margarine was absolutely a life and death matter. It wasn't her diet. She wasn't interested.

Consequently, we often ran

out of margarine, and I had to stuff more butter into the mechanism.

Then I read in the magazine that it probably wasn't butter that did you in. It was sugar! I was loaded with sugar. (I should have stopped my subscription while they were still on butter.)

"How much do you weigh?" asked the dieter. "How should I know?" I said. "I haven't been in a drugstore for awhile."

I don't weigh on the bathroom scales. I only weigh when I pass one of those penny weighing machines. Not because I care what I weigh. It gets rid of pennies which seem to pile up in my pockets.

When diet time comes up, it gets morally involved. "Do you realize a martini has 160 calories?"

I said: "Out of my total intake of various products, why do you choose martinis?"

She said: "You'd probably feel better if you waited until 7:30 for the first one."

I said: "If I waited until 7:30, I'd feel terrible until I've had a martini."

"Look, I don't need to diet. I've got enough mileage I need a little alcohol rub come evening. I just want to eat, drink and be merry until sugar or butter or whatever lays me low."

She said: "We should all watch our health. What are you doing in the kitchen?" "Guess," I said. "Where did you put the vermouth?"

That's all it takes to make beautiful golden muffins just bursting with fresh blueberry flavor. Just 4 short minutes from package to oven. New Good-N-Rich One-Step Blueberry Muffin Mix is the first mix with real, sweet blueberry buds mixed right in with all the other yummy ingredients. The blueberry flavor buds are made from a new patented process. All you do is add one egg and a little water. There's

no can of blueberries to open and drain, nothing to stain the sink or yourself. And with blueberry buds already in the mix, there's no juice to color your muffins blue-gray either. So your muffins are not only better tasting, but they're also better looking! Look for the new blue package at your favorite grocery store today. Four short minutes plus a little baking time can bring you lasting compliments.

### Good'n Rich Blueberry Muffin Mix. The end of the blueberry muffin blues.

Mr. Grocer: Good-N-Rich (ConAgra) will redeem this coupon for 15¢ plus 3¢ handling if you redeem it on your sale of one package of Good-N-Rich Blueberry, Orange, or Raspberry Muffin Mix. Payment to be made by Good-N-Rich salesmen or check when coupon is mailed to Good-N-Rich Muffin Mix, 500 Kiewit Plaza, Omaha, Nebraska 68131. This coupon may not be assigned or transferred by you. Invoice proving purchase of sufficient product to cover coupons presented for redemption must be shown upon request. Void where taxed, restricted or prohibited by law. Good only in U.S.A. Cash value 1/20¢. Offer expires Dec. 31, 1972.

Redeem at your favorite store.

# Joint Purchasing Plan OK'd By County Board

By GERRY SWITZER  
Star Staff Writer  
Lancaster County Commissioners Tuesday took steps to cooperate with the City of Lincoln in the area of purchasing and voted to have the county clerk prepare a list of

general office supplies needed by the county to be put out for bid on an annual basis with the city.  
County Clerk Carl Hartman said that an agreement had been worked out with the city purchasing department

whereby the general office supplies such as stationary items, pens and other equipment generally used by all county offices would be put out for bid with the city with the hope that a better price might be obtained because of the large quantity.

The commissioners agreed that all department heads in the county should submit to Hartman their requests so that he might prepare the list.

Hartman said that his office has always maintained a central supply for such items for the county offices but this would be the first time that the items have been purchased through a combined bid letting with the city.

When asked by County Board Chairman Kenneth Bourne if he would second the motion on the proposal, commissioner Robert Colin said:

"You've got to be kidding; if I voted against that it would be like voting against motherhood."

Colin, who just became a commissioner last January, pushed central purchasing and bidding of all county equipment since his campaign.

In other action, the board, after considerable delay, approved the requested amounts for the Southeast Nebraska Health Planning Council, Vision 17, and the Lincoln Chamber of Commerce.

The board had delayed allowing the funds for the health planning group until they knew if such an allocation would be legal. County Attorney Paul Douglas informed them by letter that they could allow the money.

The commissioners had indicated earlier that none of the money requested had been appropriated in the budget but that \$10,000 was available in the economic development fund.

Since the board voted to allow Vision 17 and the Chamber \$5,000 each, it agreed to take the remaining \$6,500 out of the commissioners' miscellaneous fund, known as CM15.

## Persons Who Helped At Westview Praised

All persons who aided in any way in evacuating the residents of Westview and in putting out the fire which erupted there Friday night were commended Tuesday by Lancaster County Commissioner William Grossman.

Grossman, who said he was out of town at the time and unavailable to provide aid, said he would like to commend the people at Westview and Lancaster Manor, Lancaster County Welfare Director J. Earle Trabert, the Lincoln Police Department, Lancaster County Sheriff's office, the Lincoln Fire Department and other volunteers which aided in the situation.

He said he thought it was remarkable that no one was injured or became ill as a result of the fire and that they were able to move the residents into Lancaster Manor on at least a temporary basis.

Commissioner Robert Colin, who was on the scene shortly after the fire broke out, said he would like to be able to locate the two young boys who helped in removing residents and whose parents offered the use of their Volkswagen bus to transport patients.

Colin said that these young men were certainly to be commended but that he had been unable to locate them by the

names of Garrie and Donald Gordon as reported in local news accounts.

Colin said that he had already called for use of a bus when the offer for transportation was made but that he was appreciative of the offer of assistance.

Mayor Sam Schwartzkopf Monday had expressed appreciation to the Lincoln Fire Department and other volunteers who helped to put out the blaze and evacuated residents with no resulting injuries.

Officials also praised the cooperation of the Lincoln Transportation System for answering the request of a county commissioner, for a bus to transport the residents.

Commissioner Grossman also suggested that a letter be sent to Joe Hagaman of the State Health Department thanking him for allowing the county to move the Westview patients into Lancaster Manor on a temporary basis.

"I don't know what we would have done without Lancaster Manor," Grossman said, adding that he didn't know whether the hospitals could have handled that many people at one time in addition to the considerable cost involved with hospitalizing 39 people.

## 'Celebrity Race' Is Included In Bicycle Week Activities

Final plans for Bicycle Week in Lincoln beginning Sunday were approved by the Mayor's Bicycle Committee Tuesday.

Bicycle races and obstacle course events — including a "celebrity race"—are planned for Sunday on the University of Nebraska East Campus.

Volunteers for the celebrity race include Mayor Sam Schwartzkopf and Councilmen Harry Peterson and Richard Baker.

Other features include bicycle registration and safety displays on Monday and Tuesday.

day at the Lincoln High School parking lot, a cross-country race to Roca on Saturday and a bike ride in Pioneer's Park.

The mayor's committee said a packet containing suggested bicycle routes and the new bike ordinance and other materials would be distributed at all planned events.

The committee's publicity subcommittee said schedules of the week's events will be posted in downtown stores as well as carried in public service announcements on radio and television.

Assistant Police Chief Willis Manchester told the committee that the number of bicycle accidents decreased slightly in July and August, but 11 had been reported so far during September, as compared with four for September, 1970.

Seventy per cent of the accidents, he said, were attributable to the bicycle rider.

## Substitute Star Carrier Is Given \$100 Reward

A substitute Star carrier, 14-year-old Dana Edmunds, learned Tuesday that if you catch a newspaper thief, you get \$100.

On Aug. 24, Dana provided information that led to the apprehension of two persons involved in the theft of a bundle of Lincoln Star newspapers.

As is standard procedure in such cases, the Journal-Star Printing Co. rewarded Dana with a check for \$100.

Dana is the son of Mr. and Mrs. Robert Edmunds, 801 So. 36th. He said he plans to buy a 10-speed bicycle with the reward money.

## Kidney Recipient Is Satisfactory

Jennie Kirtley, 20, remains in satisfactory condition at Omaha Bishop Clarkson Hospital after receiving a new kidney Sept. 14.

The donor, Jennie's father William H. Kirtley of 1720 Sumner, was released Monday.

A Martell State Bank official Tuesday reported that the fund for the family had received \$265.

## Federal Deficit Is \$3.93 Billion For Last Month

Washington (AP) — The federal government ran a deficit of \$3.93 billion last month, the Treasury Department announced Tuesday.

The figure is down from July's \$5.36 billion and brings the total for the first two months of fiscal year 1972 to \$9.29 billion.

This is about the same as the \$9.03 billion deficit for the comparable period a year earlier and somewhat below the \$11.64 billion deficit that the government estimated it would be running at this time when the budget was announced last January.

## Robert Burkley Elected Head Of Bankers Group

Robert Burkley of Fairbury was elected president Tuesday of Group One of the Nebraska Bankers Association, Inc. at their annual meeting in Lincoln.

The vice president will be Ken Barnard of Milligan and the secretary-treasurer will be Bob Johnson of Lincoln.

About 280 members of the association heard afternoon talks by John W. Cattle, state association president from Seward, and Henry E. Ley, banking director in Lincoln.

The talks were followed by technical meetings.

## Building Unit Accepts Bid For Fencing

The County-City Building Committee Tuesday accepted the low bid of Myers Const. Co. for construction of a rail-like fence around the north parking lot adjacent to the building.

Myers' bid was \$5,382, while the other two bids were \$5,631 and \$6,905 submitted by Cook Const. Co. and Olson Const. Co., respectively.

The problems involved in putting up signs throughout the building to serve the public in finding various county and city offices was discussed.

The committee agreed that the present numbering system might have been satisfactory for identification from the maintenance standpoint, but is very confusing to the public.

The group also suggested that the building engineer allow the air conditioning in summer months to run until noon on Saturday so that personnel wishing to work on Saturday mornings might do so.

Charles Seale, City Superintendent of Building Inspectors, told the committee that many Saturdays due to the strong sunlight and retention of heat over night, it is impossible to work in the building Saturday.

He said many times he has come down because he could accomplish more in two hours without interruptions than he could in any weekday, but that due to the heat since the air conditioning was turned off, he was forced to leave.

# Joint Purchasing Plan OK'd By County Board

By GERRY SWITZER  
Star Staff Writer  
Lancaster County Commissioners Tuesday took steps to cooperate with the City of Lincoln in the area of purchasing and voted to have the county clerk prepare a list of

general office supplies needed by the county to be put out for bid on an annual basis with the city.

County Clerk Carl Hartman said that an agreement had been worked out with the city purchasing department

whereby the general office supplies such as stationary items, pens and other equipment generally used by all county offices would be put out for bid with the city with the hope that a better price might be obtained because of the large quantity.

The commissioners agreed that all department heads in the county should submit to Hartman their requests so that he might prepare the list.

Hartman said that his office has always maintained a central supply for such items for the county offices but this would be the first time that the items have been purchased through a combined bid letting with the city.

When asked by County Board Chairman Kenneth Bourne if he would second the motion on the proposal, commissioner Robert Colin said:

"You've got to be kidding; if I voted against that it would be like voting against motherhood."

Colin, who just became a commissioner last January, pushed central purchasing and bidding of all county equipment since his campaign.

In other action, the board, after considerable delay, approved the requested amounts for the Southeast Nebraska Health Planning Council, Vision 17, and the Lincoln Chamber of Commerce.

The board had delayed allowing the funds for the health planning group until they knew if such an allocation would be legal. County Attorney Paul Douglas informed them by letter that they could allow the money.

The commissioners had indicated earlier that none of the money requested had been appropriated in the budget but that \$10,000 was available in the economic development fund.

Since the board voted to allow Vision 17 and the Chamber \$5,000 each, it agreed to take the remaining \$6,500 out of the commissioners' miscellaneous fund, known as CM15.

## Persons Who Helped At Westview Praised

All persons who aided in any way in evacuating the residents of Westview and in putting out the fire which erupted there Friday night were commended Tuesday by Lancaster County Commissioner William Grossman.

Grossman, who said he was out of town at the time and unavailable to provide aid, said he would like to commend the people at Westview and Lancaster Manor, Lancaster County Welfare Director J. Earle Trabert, the Lincoln Police Department, Lancaster County Sheriff's office, the Lincoln Fire Department and other volunteers which aided in the situation.

He said he thought it was remarkable that no one was injured or became ill as a result of the fire and that they were able to move the residents into Lancaster Manor on at least a temporary basis.

Commissioner Robert Colin, who was on the scene shortly after the fire broke out, said he would like to be able to locate the two young boys who helped in removing residents and whose parents offered the use of their Volkswagen bus to transport patients.

Colin said that these young men were certainly to be commended but that he had been unable to locate them by the

names of Garrie and Donald Gordon as reported in local news accounts.

Cohn said that he had already called for use of a bus when the offer for transportation was made but that he was appreciative of the offer of assistance.

Mayor Sam Schwartzkopf Monday had expressed appreciation to the Lincoln Fire Department and other volunteers who helped to put out the blaze and evacuated residents with no resulting injuries.

Officials also praised the co-operation of the Lincoln Transportation System for answering the request of a county commissioner, for a bus to transport the residents.

Commissioner Grossman also suggested that a letter be sent to Joe Hagaman of the State Health Department thanking him for allowing the county to move the Westview patients into Lancaster Manor on a temporary basis.

"I don't know what we would have done without Lancaster Manor," Grossman said, adding that he didn't know whether the hospitals could have handled that many people at one time in addition to the considerable cost involved with hospitalizing 39 people.

## 'Celebrity Race' Is Included In Bicycle Week Activities

Final plans for Bicycle Week in Lincoln beginning Sunday were approved by the Mayor's Bicycle Committee Tuesday.

Bicycle races and obstacle course events — including a "celebrity race"—are planned for Sunday on the University of Nebraska East Campus.

Volunteers for the celebrity race include Mayor Sam Schwartzkopf and Councilmen Harry Peterson and Richard Baker.

Other features include bicycle registration and safety displays on Monday and Tuesday.

day at the Lincoln High School parking lot, a cross-country race to Roca on Saturday and a bike ride in Pioneers Park.

The mayor's committee said a packet containing suggested bicycle routes and the new bike ordinance and other materials would be distributed at all planned events.

The committee's publicity subcommittee said schedules of the week's events will be posted in downtown stores as well as carried in public service announcements on radio and television.

Assistant Police Chief Willis Manchester told the committee that the number of bicycle accidents decreased slightly in July and August, but it had been reported so far during September, as compared with four for September, 1970.

Seventy per cent of the accidents, he said, were attributable to the bicycle rider.

## Substitute Star Carrier Is Given \$100 Reward

A substitute Star carrier, 14-year-old Dana Edmunds, learned Tuesday that if you catch a newspaper thief, you get \$100.

On Aug. 24, Dana provided information that led to the apprehension of two persons involved in the theft of a bundle of Lincoln Star newspapers.

As is standard procedure in such cases, the Journal-Star Printing Co. rewarded Dana with a check for \$100.

Dana is the son of Mr. and Mrs. Robert Edmunds, 801 So. 36th. He said he plans to buy a 10-speed bicycle with the reward money.

## Kidney Recipient Is Satisfactory

Jennie Kirtley, 20, remains in satisfactory condition at Omaha Bishop Clarkson Hospital after receiving a new kidney Sept. 14.

The donor, Jennie's father William H. Kirtley of 1720 Sumner, was released Monday.

A Martell State Bank official Tuesday reported that the fund for the family had received \$265.

## Federal Deficit Is \$3.93 Billion For Last Month

Washington (AP) — The federal government ran a deficit of \$3.93 billion last month, the Treasury Department announced Tuesday.

The figure is down from July's \$5.36 billion and brings the total for the first two months of fiscal year 1972 to \$9.29 billion.

This is about the same as the \$9.03 billion deficit for the comparable period a year earlier and somewhat below the \$11.64 billion deficit that the government estimated it would be running at this time when the budget was announced last January.

## Robert Burkley Elected Head Of Bankers Group

Robert Burkley of Fairbury was elected president Tuesday of Group One of the Nebraska Bankers Association, Inc. at their annual meeting in Lincoln.

The vice president will be Ken Barnard of Milligan and the secretary-treasurer will be Bob Johnson of Lincoln.

About 280 members of the association heard afternoon talks by John W. Cattle, state association president from Seward, and Henry E. Ley, banking director in Lincoln.

The talks were followed by technical meetings.

## Building Unit Accepts Bid For Fencing

The County-City Building Committee Tuesday accepted the low bid of Meyers Const. Co. for construction of a rail-like fence around the north parking lot adjacent to the building.

Meyers' bid was \$5,362, while the other two bids were \$5,631 and \$6,905 submitted by Cook Const. Co. and Olson Const. Co., respectively.

The problems involved in putting up signs throughout the building to serve the public in finding various county and city offices was discussed.

The committee agreed that the present numbering system might have been satisfactory for identification from the maintenance standpoint, but is very confusing to the public.

The group also suggested that the building engineer allow the air conditioning in summer months to run until noon on Saturday so that personnel wishing to work on Saturday mornings might do so.

Charles Seale, City Superintendent of Building Inspectors, told the committee that many Saturdays due to the strong sunlight and retention of heat over night, it is impossible to work in the building Saturday.

He said many times he has come down because he could accomplish more in two hours without interruptions than he could in any weekday, but that due to the heat since the air conditioning was turned off, he was forced to leave.

# Thieu Launches Meetings, Parades Supporting Election

**The New York Times**  
Saigon — President Nguyen Van Thieu's administration Tuesday launched a series of low-key, pro-government meetings and parades in several cities in support of next Sunday's presidential election, while two small anti-Thieu students demonstrations flared briefly here.  
For the first time in the controversial one-man campaign

in which Thieu is seeking a vote of confidence, several long lines of young men marched single file through residential streets carrying posters supporting the president and his running mate, Tran Van Huong.  
The youths handed out leaflets urging the people to give the president his vote of confidence by filing regular ballots in the voting. Those who wish to vote against the presi-

dent, Thieu has explained, may file "irregular" ballots by tearing or marking them, or leaving them out of the envelopes that are used.  
Thieu has said he wants to gain at least a 50 or 60% margin of regular ballots to signify popular confidence, but he has not committed himself to a specific margin.

Antigovernment students, veterans and politicians are urging an outright boycott of the election. Two demonstrations against the one-man election flared briefly at the Van Hanh Buddhist University campus and near the Central Market, in downtown Saigon.

Van Hanh University has been the scene of several previous demonstrations against the election. As with those, the one Tuesday morning was dispersed by police with tear gas.

Tear gas was also used to end the demonstration at the Central Market. Three American-owned vehicles were firebombed in Saigon — two Army trucks and an American contractor's truck—but no Americans were injured.

The students have said they attack American-owned cars, trucks and buses to protest continued American support for Thieu's government.

A pro-government group, apparently sponsored by the Saigon administration, was announced Tuesday. It is called "the Anti-Communist People's Movement for Election Participation."

## Penicillin Discoverer's Widow Sentenced For Plot

Athens (UPI) — Lady Amalia Fleming, widow of the man who discovered penicillin, was convicted Tuesday on charges of plotting the escape of Greece's only death row inmate. She was sentenced to 16 months imprisonment.

Four other persons, including a 26-year-old theology student from Yardley, Pa., also were

convicted after 90 minutes of deliberation by a special five-man military tribunal.

John Skelton, the student, was sentenced to seven months imprisonment but the sentence was suspended for three years on condition he commit no crimes in Greece.

All five defendants were arrested Aug. 31 on charges they

plotted the escape of Alexandros Panagoulis, 33, sentenced to die three years ago on charges he attempted to kill Premier George Papadopoulos with a bomb.

All five defendants faced maximum five year prison terms but the prosecution called Monday for 18 month terms

for Lady Fleming. Lawyer Costas Androutsopoulos was described as the chief architect of the escape plot.

Androutsopoulos was jailed for 15 months, Mrs. Athina Psychoyiou, 42, a Greek-American born in Minneapolis, Minn., received a 14 month sentence and a prison guard was jailed for 13 months.

## Nixon Foresees POWs Returning

Washington (P) — President Nixon told relatives of American prisoners of war and those missing in action that he believes the government will eventually succeed in returning the men to their homes.

In a surprise visit to a banquet of the National League of Families of American Prisoners and Missing in Southeast Asia, Nixon said his goal is "obtaining the release of all our prisoners of war and missing in action wherever they may be in Southeast Asia."

Nixon said he was pushing every possible lead, including many private channels that cannot be disclosed.

"Eventually Succeed"  
"And I believe that we will eventually succeed in our goal," Nixon said to a rousing ovation. "That is my commitment that I make to you."

White House press secretary Ronald Ziegler said Nixon decided on the spur of the moment to visit the dinner. Several telegrams had been sent to Nixon from league members asking him to appear.

Earlier Tuesday the convention adopted several resolutions including some which expressed distress at the lack of progress in the POW-MIA problem. Sen. Edward M. Kennedy suggested one way to get the

men back would be to take action like that involved in ransom of the Bay of Pigs prisoners.

"Refused To Talk"  
"At first Castro refused even to talk," Kennedy told the league. "He wouldn't identify the prisoners. He wouldn't talk about releasing them, but finally a way was found."

"We found out what they needed, and that was pharmaceuticals . . . So, we gave them \$13 million worth of pharmaceuticals and got the prisoners back," Kennedy said.

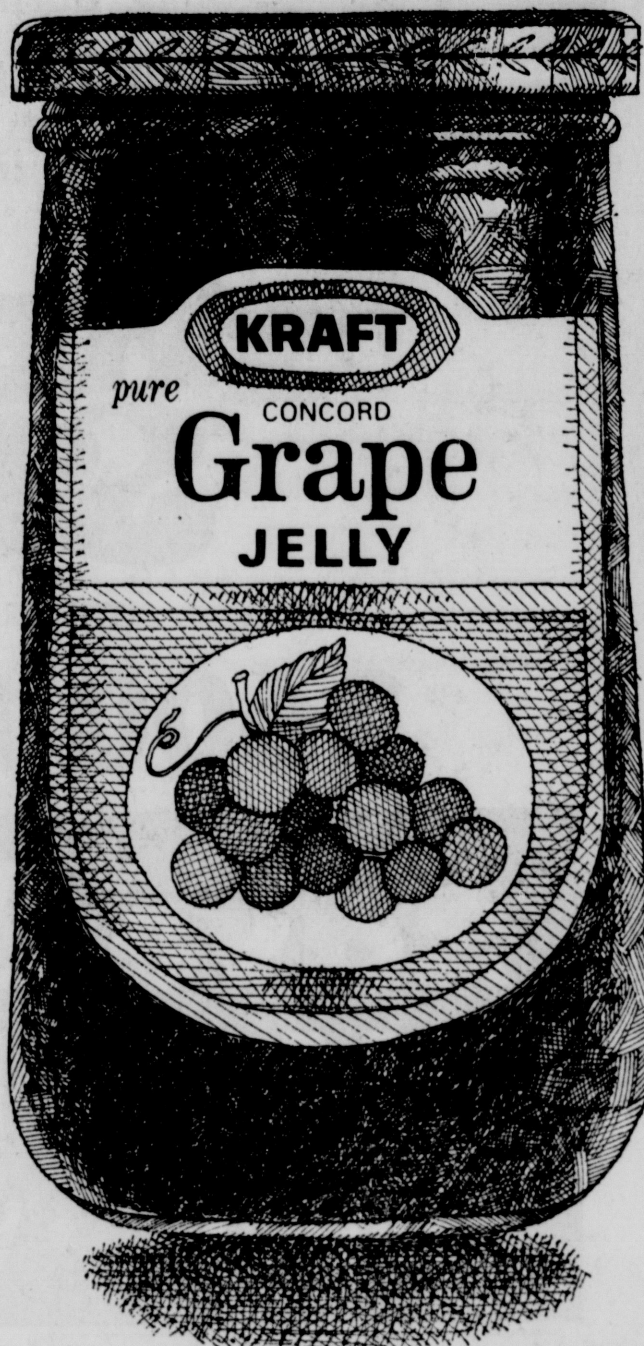

"There are some who say we shouldn't pay that kind of

ransom," the Massachusetts Democrat added. "But those people came home."

The exchange for prisoners taken by Fidel Castro's forces in the abortive Cuban invasion of 1961 was effected during the administration of Kennedy's brother, President John F. Kennedy.

## Violence In North Ireland Is Condemned

London (P) — Three prime ministers ended a meeting on embattled Northern Ireland Tuesday with a condemnation of violence and two significant moves toward curbing the province's two years of bloodshed. Britain's Edward Heath was host at the two-day summit to Northern Ireland's Brian Faulkner and the Irish Republic's Jack Lynch.

It was the first such meeting since the Irish Partition in 1925 and was called in the hope of foiling the guerrilla war waged by the outlawed Irish Republican Army — IRA — against Northern Ireland's role as part of the United Kingdom.

The three leaders, bidding to defuse a situation which has cost 110 lives since August 1969, said in an agreed statement: "We are at one in condemning any form of violence as an instrument of political pressure; and it is our common purpose to seek to bring violence and internment and all other emergency measures to an end without delay."

The statement disclosed no concrete measures either to thwart the IRA or to persuade political leaders of Northern Ireland's Roman Catholic minority to end their boycott of Parliament and other public institutions.

In separate news conferences later, however, these factors emerged:

—Lynch met Faulkner's demand for tighter control of explosives inside the Irish Republic.

—Faulkner soon will unveil blueprints for an enlarged Northern Ireland Parliament intended to bring more Roman Catholics into public life.

# Winnebago Project Contracts Awarded

Winnebago — Buckingham Wood Products Co. of Rapid City, S.D., will be awarded contracts for two Winnebago housing projects subject to approval by the U.S. Department of Housing and Urban Development (HUD).

Msgr. Frank Hulsman, chairman of the Winnebago Housing Authority, said two contracts would be awarded amounting to about \$1,300,000 and \$225,300.

The larger contract would be for the conventional construction of 77 housing units in and around Winnebago. The other will cover the cost of building 12 living units under the HUD "turnkey" program.

Originated in 1966, the turnkey program is a government sponsored, privately financed system for residential construction.

The Winnebago version of the program requires that potential residents aid in the construction of the homes that will be

purchased from the developer upon completion.

Under the provisions of the federal turnkey system, the local housing authority must purchase the completed project after agreeing to the independent plans of the developer.

If the local authority fails to meet the terms of the contract, HUD assumes the purchase responsibility.

Msgr. Hulsman said the Buckingham Co. has indicated it would be able to begin construction within two weeks.

He said the Winnebago Housing Authority intends to meet with HUD officials in Omaha as soon as possible to get their approval of the contractor and price.

"I'm quite sure it will be OK'd with a minimum of red tape since the price is so good," Msgr. Hulsman said.

He said the project would house "mostly Indian people, although no one will be excluded — that would be against the principle of the whole thing."

# 'Phone Phreaks' Make Costly Calls For Free

Philadelphia UPI) — American Telephone and Telegraph Co., announced an international investigation Tuesday into the use of sophisticated electronic devices used by so-called "Phone Phreaks" to place illegal, toll-free long distance telephone calls.

William S. Cashel, president of Bell Telephone Co. of Pennsylvania, said an investigation was expanded into 14 states and Great Britain following the arrests of four persons in Chester County, Pa., and two others in Memphis, Tenn.

"This is not just fun and games anymore," Cashel said. "It's truly a question of fraud now."

"Blue Boxes" Carl Teets, headquarters security manager for Bell of Pennsylvania, said the electronic devices, known as "blue boxes," were developed about 10 years ago by "quite intelligent" inventors with electronic or engineering backgrounds.

He said the "blue boxes," assembled for between \$20 and \$25, consisted of a multiple frequency tone generator that allowed users to bypass long distance operators and use toll lines without paying for the calls. Teets would not elaborate further.

Teets said telephone companies became concerned about a year ago when investigators discovered that about 50 to 60 persons were using the devices and had organized to teach between 200 to 250 others. He said the group dubbed itself the "Phone Phreaks."

Conceivably, he said, "if enough people work together they could tie up entire towns" and Bell offices.

"Nip It In Bud" "We're concerned that professional criminals could move in and utilize these devices. That's why we want to nip it in the bud."

In addition to the initial arrests, Teets said 57 other cases were being investigated in 14 states and Great Britain. He estimated that those arrested here and in Memphis cost Bell of Pennsylvania about \$2,000 a month for the past two years.

Arrested in Chester County were Francis E. Mitchell, 27, of Devon, a seven-year employee of the Long Lines Department of American Telephone and Telegraph Co., Pennsylvania Bell's parent firm; Mrs. Helen Williams, 43, of West Chester, a toll traffic operator at Bell's West Chester office; Kenneth M. Spacil, 18, of Glen Moore, and Robert Helms, 18, of Downingtown. An unidentified 17-year-old college student was also being sought.

# Soup Line Highlights Geneva's Celebration

By SAM THORSON  
Outstate Nebraska Bureau  
Geneva — A "dirty thirties" soup line highlighted County Government Day here Tuesday as this Fillmore County town continued its week-long centennial celebration.

Actually, there were no soup lines in Fillmore County during the "dirty thirties" — the soup supper was "just an idea" for a community supper, according to Mrs. Claire Christy, Fillmore County treasurer, who supervised the dishing out of more than 300 pounds of bean and chicken vegetable soup to about 400 hungry townspeople, some of whom came back three or four times for "seconds."

County officials and employees, including the Fillmore County supervisors, served the soup, crackers, celery, pickles and cold apple cider.

Following the soup feed in a

tent in the village square, another 300 or so citizens — these mostly in the 5-14 year age group — made their way to the city auditorium for a showing of oldtime silent films, and kicked up a ruckus of their own, stomping to the live piano music and throwing wadded popcorn sacks at each other between films.

The evening events followed an American Legion-sponsored program in the morning honoring county government, and a mass bicycle registration and rodeo in the afternoon.

The rest of the week's schedule includes a Centennial Sidewalk Bazaar all day Thursday; a parade at 5 p.m. Thursday followed by a barbecue in the park tent and a Geneva-Fairmont water fight, and a centennial bus which will haul a load of football fans to Lincoln for the Nebraska-Utah State game Saturday.

# U.S. Caught In Golden Age Of Glut, Warns Dr. Rienow

Lincoln Star Special  
Crete — Claiming that this country is consuming its heritage and that arrogance has outstripped intelligence, Dr. Robert Rienow appealed for a reassessment of the notion of progress at the first Doane College centennial symposium.

For too long, he said, "we have equated progress only with growth and growth is merely acceleration toward end" of society unless the country acts now.

Dr. Rienow is professor of political science at the graduate school of the New York State University at Albany.

The speaker said America is caught in the "golden age of glut," and the only product lacking is "courage, goodwill and decency" to do the job of reclaiming environmental qualities.

Dr. Rienow appealed for a "massive public education program" to inform people about the nature of the ecological crisis and said this country "must institutionalize our new commitment" to get the job done.

He advocated that Congress enact a national corporate code that would give industry a legal defense for "expenditures for environment."

Dr. Rienow also touched on the necessity for "zero population growth" and deplored what he called an absence of commitment by the federal government to actively work for environmental quality.

# Police Return

Quebec City, Que. (UPI) — About 3,500 members of the Quebec provincial police force went back to work after a 36-hour walkout.

# A Busy Weekend Is On Its Way

There is another big and busy weekend peering around the corner, and it carries a huge 'Big Red' sign. The game, of course, will be the center of attention on Saturday afternoon, and the larger portion of the weekend embellishments are before and after the stadium battle.

There are those, we hear for whom the approaching weekend will be a mad, but merry pace. They will be attending pre-game parties, will be frolicking after the game, and then will hurry home to pack.

We're talking, about the group of Lincoln people who will be leaving on Sunday for Washington D.C., where Mrs. A. B. Sheldon of Lexington will be honored as an outstanding Nebraskan. Mrs. Sheldon (Sheldon Art Gallery) will be honored because of her great contributions and interest in the arts — in

Nebraska, needless today.

An interesting sidelight has to do with the fact that Larry Regan, a former Lincoln attorney and now assistant to Nancy Hanks, chairman of the National Council on Arts, and also chairman of the National Endowment For the Arts, has made some special plans for the group from Nebraska.

We're sure we already have mentioned that Saturday will be a festive for Kappa Kappa Gamma alumnae from here, there and everywhere who happen to be in Lincoln on Saturday. The alums will have cocktails and brunch at The Knolls before the game.

The fun doesn't stop with the weekend, however. Next Tuesday evening, for instance,

the members of the Fifty Fifty Club will be dining and playing bridge at the Radisson-Cornhusker Hotel.

An 'autumn leaves' theme has been chosen for the party for which the host and hostess will be Mr. and Mrs. Wayne Reese.

We have some news of a marriage which, so we are told, will be solemnized on Oct. 28 — And that's all we can tell you about it at the moment. It will, we're sure, be of interest to numerous Lincoln residents.

## Chaparral Retreat

The state-wide fall retreat for the Midwest Federation of Chaparral Poets will be held in Grand Island from Friday evening, Oct. 1, through Sunday afternoon, Oct. 3.

General chairman for the three-day event is Myron Singer of Grand Island, and the clinic will be conducted by Mrs. Bernice Halbert.

The Yancey Hotel will be headquarters for the fall retreat of Chaparral Poets, according to Alden S. Metcalf, federation publicity chairman.

## Heritage Club Greet New Members

Other Heritage League projects include the Christian Record, the Personal Crisis Service, and a civic service recently completed — planting trees in the new Northeast Park.

Pictured at the luncheon with club president Mrs. Moseman (second from the left) are new Heritage League members, from left to right, Mrs. William F. Norris, Mrs. John Schou, Mrs. Earle Brown, Mrs. Gary Scott, Mrs. Vincent Goeres, and Mrs. Neal Tyner.

MISS ANNE KOTSIPOULOS

Of special interest to University of Nebraska campus circles this morning is the announcement made by Mr. and Mrs. George P. Kotsiopoulos of Kearney, of the engagement and approaching marriage of their daughter, Anne, to Donald Sutton, son of Mr. and Mrs. Charles Sutton of Belle Fourche, S.D.

A January wedding is planned.

Miss Kotsiopoulos is a senior at the University of Nebraska where she is a member of Kappa Alpha Theta sorority, of which she is serving as president, and where she is majoring in fashion merchandising. The bride-elect also is president of the Panhellenic Association.

Mr. Sutton is a senior at the University of Nebraska where he is majoring in biology. His fraternity is Phi Delta Theta of which he is serving as president.

## DAR Plans Luncheon

The members of Deborah Avery Chapter of the Daughters of the American Revolution will meet for their first luncheon of the club year on Friday afternoon, Oct. 1.

The 12:30 o'clock luncheon will be held at the University Club.

"Another Trip with Margaret" will be the topic of

the program to be presented by Mrs. Joel E. McLafferty.

Hostesses for the event will be Mrs. Grant A. Ackerman, Mrs. Roscoe Abbott, Mrs. M. L. Flack, Mrs. H. T. Hermann, Mrs. Doane Pickering, Mrs. Boyd M. Raynor, and Miss Elizabeth Wright.

New members of the Heritage League, a women's service organization, were honored at a special luncheon held at Hillcrest Country Club on Tuesday afternoon, Sept. 28.

The six new members were welcomed by Heritage League president, Mrs. Keith Moseman, and were introduced

to the group's various civic and service projects.

Club members spend many volunteer hours placing phone calls for the Community Blood Bank and working with children through the Vision Screening Project — undertaken in conjunction with the Lincoln Alumnae of Delta Gamma sorority.

## A CHILD'S WORLD

BY PHYLLIS WOOLLEN

Dear Mrs. Woollen:

Our son, Tim, has recently acquired the habit of running away from home. As of yet, it is nothing serious since he always returns. But, needless to say, I worry myself each and every time he does it.

What do you think could be wrong with the boy that he is doing this? I would greatly appreciate your advice.

Worried

(The following discussion is under the supervision and cooperation of the staff of the Child Guidance Center. We invite questions from our readers.)

Usually this sort of normal running away is the child's method of testing his parents concern and love for him. It might also serve the child as a hopeful tact for manipulating his parents.

Running away from home assumes more serious manifestations when the occurrence is more frequent and the child does not inform his parents that he is leaving. It will also require more attention if the period that the child is away is extended.

The reaction of the parent is most important. While the parent on the one hand should exhibit concern for the child and his welfare,

as well as for the reason that he is running away, on the other hand the parent should not be manipulated. He might handle the situation by saying something to the effect of, "Tim, I am concerned about you, and if you have a problem I would like to talk to you about it. But, if you feel you have to leave, then I will understand."

In more serious manifestations, it is important for the parents to conceive that the child is signalling something is wrong. The child may require more evidence that their parents care for them, or they may be fearful of some situation on the home front.

When the running away takes on a more serious aspects, some professional assistance will be required for the child's own welfare and safety. Running away becomes a physical enactment of a cry for help, especially when it is difficult for the child to explain lucidly what troubles him. For these children, running away is a way of saying, "come and get me and see that something is wrong."

While we re-emphasize that in many cases running away is symptomatic of the normal growing up process, it cannot always be dismissed as a mere attention-getting device not worthy of concern. If the child is that hungry for attention, there might well be cause for concern.

## Abby: not a 'psycowologist'

DEAR ABBY: We have a cow on our farm named Helen Mae and she hates women. Helen Mae is a beautiful Guernsey with soft brown eyes and a gentle manner, but she won't let a woman within 20 feet of her. She is very friendly

to all men whether she's seen them before or not, but any woman who has tried to milk her has had to run for her life. You can't fool Helen Mae either. She can tell women from men regardless of how they're dressed.

Is there any explanation for this? And if you can find out if there is some way to get Helen Mae to let a woman milk her, I'd appreciate it, as my husband can't always get to her at milking time.

FARMER'S WIFE

DEAR WIFE: None of my farm experts have studied psycow-ology, but they tell me that cows have their hangups just like humans. However, I'll milk my readers and try to come up with an udder opinion.

DEAR ABBY: I really got a big chuckle the other day when I read your answer to the lady whose 12-year-old son still wets the bed. You said, "No man ever went on a honeymoon in a diaper."

Well, you're wrong. I did. Due to an accident, I became a paraplegic from the waist down, and I always wear "diaper-type" shorts, well-padded in front. I wore them on my honeymoon last year, at age 41. And I still wear them. Sign me:

ALL WET IN FREEPORT, PA.

DEAR WET: Thank you for teaching me a lesson I should have learned years ago. "ABSOLUTES" are risky. Now it's my turn to be all wet.

B. Jay Becker

But Sylvia, with typically indomitable spirit, bravely carried on. She led the king and another spade, ruffing in dummy, then played a diamond to the ace — forgetting in the excitement of the moment to discard a diamond on the king of hearts. She was heard to gasp at this juncture, but it was too late to retract the play.

Sylvia now led a trump. East cashed his A-10 of trumps but then, with only hearts left, he had to lead one into the K-J, permitting Sylvia to shed both diamonds and make the contract.

Would you call this luck?

South dealer.

North-South vulnerable.

The bidding:

<b>NORTH</b>			
♠ A 8			
♥ K J 7			
♦ 9 8 7 6 5			
♣ J 3 2			
<b>WEST</b>			
♠ Q 10 7 5 3

## MONEY MATTERS

By LINDA OLIG

Credit, loans, and installment payments became so popular so fast that often upstart companies were formed and many did not operate in the best public interest. To solve such widespread problems, the Federal Government established laws to protect the public.

One such law, the "Truth-In-Lending" law requires anyone who lends money or furnishes consumer credit to explain in writing the credit costs or charges of the lender or seller.

The creditor must make two very important disclosures. He must reveal the annual percentage rate that the customer will be charged. The rate measures the cost of credit in a uniform manner. Second, the creditor must reveal the finance charge — that is, how much he charges for the use of credit — and this must be stated in dollars-and-cents.

The law enables you to shop for credit by comparing credit charges and helps to compare the difference in cost of BUYING on credit from a seller and BORROWING from a lender so that you may buy for cash.

It is as dangerous and foolish

to sign a contract without first reading and understanding the terms as it is to sign a blank check. The contract sets down the obligations of the seller and the buyer — the wording, however, will protect the seller. Therefore, make certain it also protects the buyer — YOU.

Make certain that all terms of the contract are in writing — whatever the seller promises means nothing unless it is included in the contract. For example, many sellers promise that all finance charges will be dropped if the total cost of the purchase is paid off within a certain period. Also, beware of "balloon clauses" — a series of small payments to be followed by a large sum, usually so big you can't pay it.

Another point — insist that insurance fees, interest rates, and any other parts of the total financing charge be itemized separately — so that you can see what you're paying for.

If a time payment purchase is paid off in advance, whether a rebate is given or not may depend on provisions of the contract or the willingness of the creditor — except where it is required by law. The formula for figuring rebates is known as the "Rule of 78" — and the

amount of the rebate is figured on the finance charge remaining after subtracting any allowable deductions, such as insurance or a minimum charge.

The Rule of 78 applies where the installment payments are equal each month, according to the Better Business Bureau—and the "78" is derived from the total number of installment units outstanding month to month in a 12 month contract. (Twelve plus 11 plus all of the other numbers down to one equals 78.)

In the first month, you use 12-78ths of the total finance charge; an additional 11-78ths or a total of 23-78ths in the second month; and so forth. In any month when you pay off the purchase, the amount of the rebate would be the number of 78ths you had NOT used.

The "Rule of 78" is a confusing one, but it is to your advantage to know something about rebates in order to have any questions cleared up BEFORE signing your name to any contract.

**MAKING CENTS**—Charge accounts, loans and other forms of credit are great conveniences in helping you to keep a record of purchases as well as sales taxes.

# A Busy Weekend Is On Its Way

There is another big and busy weekend peering around the corner, and it carries a huge 'Big Red' sign. The game, of course, will be the center of attention on Saturday afternoon, and the larger portion of the weekend embellishments are before and after the stadium battle.

There are those, we hear for whom the approaching weekend will be a mad, but merry pace. They will be attending pre-game parties, will be frolicking after the game, and then will hurry home to pack.

We're talking, about the group of Lincoln people who will be leaving on Sunday for Washington D.C., where Mrs. A. B. Sheldon of Lexington will be honored as an outstanding Nebraskan. Mrs. Sheldon (Sheldon Art Gallery) will be honored because of her great contributions and interest in the arts — in Nebraska, needless today.

An interesting sidelight has to do with the fact that Larry Regan, a former Lincoln attorney and now assistant to Nancy Hanks, chairman of the National Council on Arts, and also chairman of the National Endowment For the Arts, has made some special plans for the group from Nebraska.

We're sure we already have mentioned that Saturday will be a festive for Kappa Kappa Gamma alumnae from here, there and everywhere who happen to be in Lincoln on Saturday. The alums will have cocktails and brunch at The Knolls before the game.

The fun doesn't stop with the weekend, however. Next Tuesday evening, for instance,

the members of the Fifty Fifty Club will be dining and playing bridge at the Radisson-Cornhusker Hotel.

An 'autumn leaves' theme has been chosen for the party for which the host and hostess will be Mr. and Mrs. Wayne Reese.

We have some news of a marriage which, so we are told, will be solemnized on Oct. 28 — And that's all we can tell you about it at the moment. It will, we're sure, be of interest to numerous Lincoln residents.

## Heritage Club Greet New Members

**MISS ANNE KOTSIOPULOS**

Of special interest to University of Nebraska campus circles this morning is the announcement made by Mr. and Mrs. George P. Kotsiopulos of Kearney, of the engagement and approaching marriage of their daughter, Anne, to Donald Sutton, son of Mr. and Mrs. Charles Sutton of Belle Fourche, S.D.

A January wedding is planned.

Miss Kotsiopulos is a senior at the University of Nebraska where she is a member of Kappa Alpha Theta sorority, of which she is serving as president, and where she is majoring in fashion merchandising. The bride-elect also is president of the Panhellenic Association.

Mr. Sutton is a senior at the University of Nebraska where he is majoring in biology. His fraternity is Phi Delta Theta of which he is serving as president.

## DAR Plans Luncheon

The members of Deborah Avery Chapter of the Daughters of the American Revolution will meet for their first luncheon of the club year on Friday afternoon, Oct. 1.

The 12:30 o'clock luncheon will be held at the University Club.

"Another Trip with Margaret" will be the topic of

New members of the Heritage League, a women's service organization, were honored at a special luncheon held at Hillcrest Country Club on Tuesday afternoon, Sept. 28.

The six new members were welcomed by Heritage League president, Mrs. Keith Moseman, and were introduced to the group's various civic and service projects.

Club members spend many volunteer hours placing phone calls for the Community Blood Bank and working with children through the Vision Screening Project — undertaken in conjunction with the Lincoln Alumnae of Delta Gamma sorority.

Other Heritage League projects include the Christian Record, the Personal Crisis Service, and a civic service recently completed — planting trees in the new Northeast Park.

Pictured at the luncheon with club president Mrs. Moseman (second from the left) are new Heritage League members, from left to right, Mrs. William F. Norris, Mrs. John Schou, Mrs. Earle Brown, Mrs. Gary Scott, Mrs. Vincent Goeres, and Mrs. Neal Tyner.

## Chaparral Retreat

The state-wide fall retreat for the Midwest Federation of Chaparral Poets will be held in Grand Island, from Friday evening, Oct. 1, through Sunday afternoon, Oct. 3.

General chairman for the three-day event is Myron Singer of Grand Island, and the clinic will be conducted by Mrs. Bernice Halbert.

The Yancey Hotel will be headquarters for the fall retreat of Chaparral Poets, according to Alden S. Metcalf, federation publicity chairman.

# Know Your Antiques

Uncle Sam extended his hand at the Penny Arcade about 1870. This painted cast iron strength testing machine worked for a penny. (American Heritage Sale, Parke-Bernet, Nov. 12, New York City)

By RALPH AND TERRY KOVEL

Penny arcade machines are among the new collectors' interests. Vending machines have been ignored until recently. The first vending machine dates from the first century. An Urn in a Temple in Alexandria was made so that it spurted water when a coin was dropped in the proper place.

Gambling games were in use during the 18th and early 19th centuries. It was not until the time of the Civil War that many of the mechanical marvels now being collected were made.

Automated music machines that ran with use of a coin were known in the 18th century. A machine that sold tobacco and snuff was used in 18th century

England. One such brass box still exists.

By the mid-19th century, coin operated machines were made that delivered gum, candy, smoking utensils, stamps, perfume, collar buttons, stationery, handkerchiefs, food, or entertainment. Pin ball machines, weight guessing, fortune telling, strength testing, and movie machines were found in penny arcades.

An unusual strength testing machine made in the shape of Uncle Sam was in use during the late 19th century. This painted cast iron figure depicted a man with his hand extended. You grasped the hand and an indicator in Uncle Sam's chest showed you how strong you were.

This and other pieces of interest to collectors of Americana will be auctioned at Parke Bernet Gallery, 980 Madison Ave., New York City, on November 12 and 13. A catalogue for the sale pictures many such items and offers a chance-to-bid-by-mail.

## Chapter Party

The fall rush party for Gamma Delta Chapter of Epsilon Sigma Alpha business sorority was held on Monday evening, Sept. 27.

Hostess for the party, which combined games and a box lunch with the "Back to School" theme, was Mrs. Joe Becker, and Mrs. Kenneth Dill

of Pleasant Dale served as assisting hostess.

Guests at the party included Mrs. Larry Duensine, Mrs. Jeff Mumby, and Mrs. Cindy Splain.

The group's next event, a model meeting, will be held on Monday evening, Oct. 11, at the home of Mrs. Harm Ottersberg, 8230 Chestnut Lane.

## bridge

Duplicate Bridge enthusiasts will gather in the Club Room, 2738 South St., on Wednesday evening, Sept. 29, for another evening of attempting to outdo the other tables of bridge.

The games are scheduled to begin at 7:30 o'clock.

## Hurry!

Directory closes September 30th. Call in changes. The Lincoln Telephone Company.

## Denture Invention

For People with "Uppers" and "Lowers"

The nearest thing to having your own teeth is possible now with a plastic cream discovery that actually holds both "uppers" and "lowers" as never before possible. It's a revolutionary discovery called FIXODENT® for daily home use. (U.S. Pat. #3,003,988) With FIXODENT many denture wearers now eat, speak, laugh, with little worry of dentures coming loose. FIXODENT forms an elastic membrane that helps absorb the shock of biting and chewing. You may bite harder, chew better, eat more naturally. FIXODENT may help you speak more clearly, be more at ease. The special pencil-point dispenser lets you spot FIXODENT with precision... where needed! One application may last for hours. Dentures that fit are essential to health. See your dentist regularly. Get easy-to-use FIXODENT Denture Adhesive Cream at all drug counters.

# MONEY MATTERS

## A CHILD'S WORLD

BY PHYLLIS WOOLLEN

Dear Mrs. Woollen:

Our son, Tim, has recently acquired the habit of running away from home. As of yet, it is nothing serious since he always returns. But, needless to say, I worry myself each and every time he does it.

What do you think could be wrong with the boy that he is doing this? I would greatly appreciate your advice.

Worried

(The following discussion is under the supervision and cooperation of the staff of the Child Guidance Center. We invite questions from our readers.)

Usually this sort of normal running away is the child's method of testing his parents concern and love for him. It might also serve the child as a hopeful tact for manipulating his parents.

Running away from home assumes more serious manifestations when the occurrence is more frequent and the child does not inform his parents that he is leaving. It will also require more attention if the period that the child is away is extended.

The reaction of the parent is most important. While the parent on the one hand should exhibit concern for the child and his welfare,

as well as for the reason that he is running away, on the other hand the parent should not be manipulated. He might handle the situation by saying something to the effect of, "Tim, I am concerned about you, and if you have a problem I would like to talk to you about it. But, if you feel you have to leave, then I will understand."

In more serious manifestations, it is important for the parents to conceive that the child is signalling something is wrong. The child may require more evidence that their parents care for them, or they may be fearful of some situation on the home front.

When the running away takes on a more serious aspects, some professional assistance will be required for the child's own welfare and safety. Running away becomes a physical enactment of a cry for help, especially when it is difficult for the child to explain lucidly what troubles him. For these children, running away is a way of saying, "come and get me and see that something is wrong."

While we re-emphasize that in many cases running away is symptomatic of the normal growing up process, it cannot always be dismissed as a mere attention-getting device not worthy of concern. If the child is that hungry for attention, there might well be cause for concern.

By LINDA OLIG

Credit, loans, and installment payments became so popular so fast that often upstart companies were formed and many did not operate in the best public interest. To solve such widespread problems, the Federal Government established laws to protect the public.

One such law, the "Truth-In-Lending" law requires anyone who lends money or furnishes consumer credit to explain in writing the credit costs or charges of the lender or seller.

The creditor must make two very important disclosures. He must reveal the annual percentage rate that the customer will be charged. The rate measures the cost of credit in a uniform manner. Second, the creditor must reveal the finance charge — that is, how much he charges for the use of credit — and this must be stated in dollars-and-cents.

The law enables you to shop for credit by comparing credit charges and helps to compare the difference in cost of BUYING on credit from a seller and BORROWING from a lender so that you may buy for cash.

It is as dangerous and foolish

to sign a contract without first reading and understanding the terms as it is to sign a blank check. The contract sets down the obligations of the seller and the buyer — the wording, however, will protect the seller. Therefore, make certain it also protects the buyer — YOU.

Make certain that all terms of the contract are in writing — whatever the seller promises means nothing unless it is included in the contract. For example, many sellers promise that all finance charges will be dropped if the total cost of the purchase is paid off within a certain period. Also, beware of "balloon clauses" — a series of small payments to be followed by a large sum, usually so big you can't pay it.

Another point — insist that insurance fees, interest rates, and any other parts of the total financing charge be itemized separately — so that you can see what you're paying for.

If a time payment purchase is paid off in advance, whether a rebate is given or not may depend on provisions of the contract or the willingness of the creditor — except where it is required by law. The formula for figuring rebates is known as the "Rule of 78" — and the

amount of the rebate is figured on the finance charge remaining after subtracting any allowable deductions, such as insurance or a minimum charge.

The Rule of 78 applies where the installment payments are equal each month, according to the Better Business Bureau — and the '78' is derived from the total number of installment units outstanding month to month in a 12 month contract. (Twelve plus 11 plus all of the other numbers down to one equals 78.)

In the first month, you use 12-78ths of the total finance charge; an additional 11-78ths or a total of 23-78ths in the second month; and so forth. In any month when you pay off the purchase, the amount of the rebate would be the number of 78ths you had NOT used.

The "Rule of 78" is a confusing one, but it is to your advantage to know something about rebates in order to have any questions cleared up BEFORE signing your name to any contract.

MAKING CENTS — Charge accounts, loans and other forms of credit are great conveniences in helping you to keep a record of purchases as well as sales taxes.

## Abby: not a 'psycowologist'

DEAR ABBY: We have a cow on our farm named Helen Mae and she hates women. Helen Mae is a beautiful Guernsey with soft brown eyes and a gentle manner, but she won't let a woman within 20 feet of her. She is very friendly

to all men whether she's seen them before or not, but any woman who has tried to milk her has had to run for her life. You can't fool Helen Mae either. She can tell women from men regardless of how they're dressed.

Is there any explanation for this? And if you can find out if there is some way to get Helen Mae to let a woman milk her, I'd appreciate it, as my husband can't always get to her at milking time.

FARMER'S WIFE

DEAR WIFE: None of my farm experts have studied psycow-ology, but they tell me that cows have their hangups just like humans. However, I'll milk my readers and try to come up with an udder opinion.

## Bridge: Sylvia

B. Jay Becker

South dealer.  
North-South vulnerable.  
The bidding:

NORTH		EAST	
♠ A 8	♥ K J 7	♠ 6 4 2	♥ Q 10 9 5 3 2
♦ 9 8 7 6 5	♣ J 3 2	♦ Q	♣ A 10 9
WEST		SOUTH	
♠ Q 10 7 5 3	♥ 8 6 4	♠ K J 9	♥ A
♦ K J 10 4	♣ Q	♦ A 3 2	♣ K 8 7 6 5 4

The bidding:  
South West North East  
1 ♣ Pass 1 ♦ 1 ♥  
2 ♣ 2 ♥ 3 ♣ Pass  
3 ♣

Opening lead — eight of hearts.

Most members contended that Sylvia was fantastically lucky when it came to these fortuitous happenstances. They would heatedly insist that Sylvia knew absolutely nothing about bridge, and they simply could not conceive that she ever consciously performed the amazing feats recounted here from time to time.

In support of that contention they would cite this deal as an example of Sylvia's sheer dumb luck. West led a heart, Sylvia winning East's nine with the ace. She then played a spade to the ace, returned a low club, and won with the king, capturing West's queen.

The situation looked hopeless, for East had two trump tricks coming and there were still two diamond losers to be taken care of. True, she could discard one of them on the king of hearts, but the other would inevitably constitute the setting

trick. But Sylvia, with typically indomitable spirit, bravely carried on. She led the king and another spade, ruffing in dummy, then played a diamond to the ace — forgetting in the excitement of the moment to discard a diamond on the king of hearts. She was heard to gasp at this juncture, but it was too late to retract the play.

Sylvia now led a trump. East cashed his A-10 of trumps but then, with only hearts left, he had to lead one into the K-J, permitting Sylvia to shed both diamonds and make the contract.

Would you call this luck?

DEAR ABBY: I really got a big chuckle the other day when I read your answer to the lady whose 12-year-old son still wets the bed. You said, "No man ever went on a honeymoon in a diaper."

Well, you're wrong. I did. Due to an accident, I became a paraplegic from the waist down, and I always wear "diaper-type" shorts, well-padded in front. I wore them on my honeymoon last year, at age 41. And I still wear them.

Sign me:

ALL WET IN FREEPORT, PA.

DEAR WET: Thank you for teaching me a lesson I should have learned years ago. "ABSOLUTES" are risky. Now it's my turn to be all wet.

OPEN DAILY 10 A.M. THURSDAYS 'TIL 9 P.M.  
HOME FOOTBALL SATURDAYS OPEN 9:30 A.M.

By Hal Brown  
Sports Editor, The Star

### Depends On Vantage Point

To the 67,000-plus fans sitting in Memorial Stadium Saturday, Nebraska's 34-7 win over Texas A&M may not have been as impressive as the previous two victories by near-similar scores over Oregon and Minnesota.

But it all depends on your vantage point and to readers of sports pages in Kansas, South Carolina, Washington and other points, it had to seem impressive.

Wire service stories on weekend college football action used the verbs "rolled" and "routed" to describe the victory.

And headline writers used such words as "Huskers Rip Texas A&M" and "Huskers Romp Again."

It's those verbs and those headlines that voters in the national polls largely base their votes on.

Just wondering — Do you suppose it was Ohio State's Woody Hayes or Colorado's Eddie Crowder who gave the Buffs their one first place vote in the United Press International poll this week? Both are on the UPI Board of Coaches.

### Where Did Ara's Vote Go?

And who do you suppose gave Notre Dame its one vote in the UPI poll? Irish coach Ara Parseghian is a voting member.

Parseghian by the way didn't consider going for two points rather than one after his team's late score against Purdue as much of a gamble as some fans might have thought.

"In the rain," he explained, "We had a hand-to-hand transmission of the ball to the quarterback and a pass and there were fewer chances of something going wrong than in kicking the point where the center has to snap it back, the holder has to field it and put it down and the kicker has to kick a wet slippery ball."

From The Provincialism Isn't Dead Yet Department — What else could it be that would get Kansas State a vote in The Associated Press poll where voters cast a ballot for only the best 15? The AP panel includes a K-State sportscaster.

But then maybe that voter was correct. After all didn't Kansas State beat Tulsa by 19-10 and Tulsa beat Arkansas by 21-20? Do you suppose that makes Kansas State better than Arkansas?

Or to go a step further, Utah State, the Huskers' Saturday foe, is better than Arkansas since it defeated Kansas State by 10-7.

### 6 Husker Foes On Panel

Coaches of six of Nebraska's 12 foes this season are among the 35 coaches who vote weekly in the UPI poll.

In addition to Chuck Fairbanks of Oklahoma, Al Onofrio of Missouri and Don Fambrough of Kansas from the Midlands section, there's Eddie Crowder of Colorado and Chuck Mills of Utah State from the Rocky Mountains sector and Murray Warmath of Minnesota from the Midwest district.

Wyoming coach Fritz Shurmur gives this synopsis of Colorado: "Their defense picks on you until you bleed for what you get."

"If they keep their momentum, I think they have a chance to go all the way. This is the most physically gifted team we have played in my 10 years of coaching."

When Oklahoma blanked SMU, 30-0, in its opener, it was the first Sooners shutout since the 47-0 whitewashing of Nebraska in 1968.

Speaking of shutouts, Kansas' blanking of its first two opponents was the first time a Big Eight team had scored back-to-back shutouts since 1967 when Nebraska blanked Texas Christian, Iowa State and Oklahoma State in successive games.

Thirty-two television stations with dual-affiliation had to make a choice between carrying the Michigan State-Notre Dame football game or a major league baseball playoff Saturday.

Twenty-four chose the football game. A year ago, ABC-TV went to a night game between Alabama and Mississippi to avoid the conflict with baseball. This year, they decided to buck the baseball playoffs and came up a winner.

When Kansas State met Brigham Young Saturday, there was a purple steer (painted) on the Wildcat sidelines, a donation from alumni to the K-State Steer-A-Year program.

Some K-State students have started a drive to save the steer from the training table to make it a partner of KU mascot, Touchdown the VII, a real wildcat, but assistant athletic director Ed Head says, "I think it is mostly talk. Besides, their enthusiasm might be retarded when they discover the steer is a distant cousin of Ralphie (the Colorado buffalo)."

### —WORKS OUT IN SWEAT CLOTHES—

## Kinney Joins NU Practice But More Tests Scheduled

By HAL BROWN  
Star Sports Editor

Nebraska I back Jeff Kinney, the Huskers' leading ground gainer who was hospitalized Monday for tests, joined the NU practice session Tuesday, but worked only in sweat clothes.

"We hope to have him back in uniform Wednesday," head coach Bob Devaney said. "They didn't find anything wrong with him in the tests, but they're planning to take some more next week."

Kinney, who was scheduled for the tests because he had been losing weight, is expected to play Saturday when the Huskers meet Utah State.

"His problem could be that he is still trying to bounce back from the flu," Devaney analyzed.

Husker defensive back Joe Blahak missed Tuesday's drills with the flu, but also is expected to be ready to go Saturday. His spot in the lineup Tuesday was taken by Gary Hollstein.

But while Kinney and Blahak are expected to be on hand Saturday, Devaney said starting linebacker Bill Sloey, who re-injured a knee in the win over Texas A&M, "is definitely out indefinitely. We don't know when we can count on him being back."

The Huskers were put through contact efforts Tuesday while working on their goal line defenses.

"We have been dissatisfied with our defense in short yardage situations," Devaney explained, "So we decided to go live in an effort to show some improvement in that area."

Husker fans may also get a look at a third Husker punter come Saturday. Rich Sanger, Colorado 10th with 34.3.

In total offense the Big Eight has three in the top 10 with Oklahoma seventh, averaging 463.5 yards per game; Iowa State ninth with 440.0 and Colorado 10th with 434.7.

Those three also are among the top 14 in rushing offense with the Sooners third at 330.0, Colorado sixth at 332.0 and Iowa State 14th at 293.0.

Two Huskers, Johnny Rodgers and Bill Kosch, hold single game highs among the nation's collegians for the 1971 season.

Rodgers' three touchdown passes caught against Minnesota is matched only by Memphis State's Stan Davis against Mississippi on the same day.

Kosch's 116 yards in pass interception returns against Texas A&M that included one of 95 yards for a touchdown, is unmatched this season.

# Three May Be A Crowd, But Colorado Likes It

... TRIPLE-QUARTERBACK SYSTEM MAKES BUFFS' TRIPLE-OPTION GO

Boulder, Colo. (AP) — Three's a crowd, but Colorado football coach Eddie Crowder isn't letting that little bit of congestion clog up his potent triple-option offense.

The Buffaloes, who knocked off their second top ten team in three games with a 20-14 verdict Saturday over Ohio State, have an abundance of talent at quarterback, so much so that enemy defenses must think they're coming out of the woodwork.

Crowder has reason to be pleased with the execution of the triple option as directed by sophomores Ken Johnson, Joe Duenas and Rich Bland. The Buffs have claimed a 31-21 victory over Louisiana State, ninth-rated at the time, then routed Wyoming 56-13 and topped the sixth-rated Buckeyes last week.

The problem of just who to play at quarterback might have been more acute except for a couple of nagging injuries that briefly trimmed the signal-calling corps.

Johnson, the acknowledged first-stringer, hit nine of 18 passes for 82 yards and one touchdown and also ran for 54 yards in

the LSU game. He executed the option so well that another sophomore, tailback Charlie Davis, gained 174 yards and fullback John Tarver chipped in with 92 yards to thoroughly demoralize the fabled LSU rushing defense.

But Johnson sprained his right wrist late in the game, and Duenas got the call for the Buffs' second game. The 5-7, 174-pounder made an even more dramatic debut, running for 106 yards and three TDs and passing for 111 more and another score against Wyoming. Bland gained 72 yards, scored twice and directed CU to still another score in a substitute role.

Duenas sustained an ankle sprain against the Cowboys and wasn't available for Ohio State, but Johnson was recovered. And how!

He gained 84 yards in 16 carries, scored twice and hit four of nine passes for 97 yards. Davis had his third straight 100-plus rushing day with 135 yards in 18 carries, and Tarver got 54 tough yards up the middle.

Crowder says CU is the only team he knows of that uses the triple option off the "I."

"By taking one of the halfbacks and making an 'I' back out of him," he says, "and putting the other at slotback or as a flanker, it spreads out the defense and makes it vulnerable to our triple option."

"Tarver is such a strong runner up the middle on the first option they have to protect against him. Johnson, Duenas and Bland are fine runners and ball handlers on the second option, and this gives Davis a little edge on the third option, the pitchout. Then there's Cliff Branch for the long pass threat."

"We really have all the components for a complete arsenal of weapons for the first time since I've been coaching at Colorado. And having three such fine quarterbacks is almost too much to hope for."

CU's offense is so deep that against Ohio State Crowder sent in his second offensive unit in the second period with the Buffs leading 13-0 and in possession deep in their own territory.

"We just decided that we must build

depth and give the players confidence by having them step in during a tough situation," Crowder explained.

Johnson is the biggest of the three quarterbacks at 6-2 and 206 pounds. "He drops back better than Duenas and Bland and hits the line more physically than either of the other two on the option," Crowder says.

Duenas is the quickest of the three on handling the options and probably the best pure passer, according to the CU mentor, and Bland is the strongest runner. "He reads the options well and is a good power runner," Crowder says.

Crowder says Bland is talented enough to play any other position in the backfield and perform well as the situation arises.

Crowder knew he had a good deal of young raw talent at the position, but had no idea it would blossom so quickly. "You know, we knew what Johnson could do before the season started and expected things from him. But what surprised us was how quickly Duenas and Bland became competitive."

# DODGERS, GIANTS

## Wills' Hit Sparks LA To 2-1 Win

Los Angeles (AP)—Maury Wills' two-out single off shortstop Roger Metzger's glove in the bottom of the eighth scored Bobby Valentine as the Los Angeles Dodgers edged Houston 2-1 Tuesday night and remained hot on the heels of San Francisco in the National League West.

Bill Singer, hurling a three-hitter, outdueled Don Wilson of the Astros, who pitched five perfect innings and also finished with a three-hitter.

Duke Sims led off the eighth with a walk and left for pinch-runner Bill Grabarkewitz, who was thrown out at second attempting to steal.

Valentine also walked and was sacrificed to second by Singer, 19-17 before Wills singled sharply to Metzger, the ball glancing off his glove, and Valentine scoring easily.

Houston took a 1-0 lead in the fourth inning when Joe Morgan walked, took third on a single to left by Cesar Cedeno and scored on Bob Watson's line drive single to center.

Cedeno, who had taken second on a passed ball by Sims, also tried to score on the play but was thrown out at the plate by Willie Davis.

It remained 1-0 until the sixth when Sims homered into the right field seats, his sixth of the season and third in three games.

COLORADO DUO . . . Bud Magrum (left) and Charlie Davis of the University of Colorado took honors as Big Eight Linebacker and Back of the Week. Both played

key roles as the Buffs upset Ohio State, 20-14 last Saturday at Columbus. Magrum had nine unassisted and 11 assisted tackles while Davis gained 135 yards.

# Tulsa QB Now Razorback Public Enemy Number One

... STARKS NAMED BACK OF WEEK

By Associated Press

When the University of Tulsa football team returned home from Fayetteville, Ark., Saturday night, quarterback Todd Starks stepped off the bus into the arms of his girl friend, Ina Dresser.

"It was unreal," Miss Dresser gasped. "You wouldn't believe it. Todd Starks, all over the radio. Golden Arm — right here."

It was quite a reception for Todd Starks, who earlier Saturday earned the title of public enemy No. 1 in Arkansas by throwing three touchdown passes in the final period to lead unheralded Tulsa to a stunning 21-20 upset of the seventh-ranked — at the time — Razorbacks.

Quite a reception for an unwanted quarterback. Only Tulsa and New Mexico State offered him scholarships when he got out of Foothill Junior College in Los Altos, Calif., last year, even though he led the nation's junior colleges in passing as a freshman.

For his performance in completing 24 of 43 passes for 257 yards and touchdown passes of 23 yards to Dave Stewart, nine to Drew Pearson and 21 to Larry Frey, Starks was named national college Back of the Week by The Associated Press Tuesday.

The 6-1, 175-pound junior from Palo Alto, Calif., was all-conference at Cubberley High School — in golf, not football. The best he did in football was second team all-league. He won the quarterbacking job at Tulsa by completing 16 of 26 passes for three touchdowns in the spring game.

In winning Back of the Week honors, Starks had to beat out — Lydell Mitchell and Franco Harris, Penn State running backs, who combined for 356 yards and five touchdowns in a 44-14 rout of Iowa.

—Ed Marinaro, Cornell running back, gained 260 yards on 43 carries and scored four touchdowns as the Big Red whipped Colgate 38-20.

—Robert Newhouse, Houston running back, carried 31 times for 237 yards and a touchdown.

Williamson said the tourney's professional division was closed Monday with the arrival of entries from three touring professionals. That brought the pro field to 52. Only ten amateur vacancies remain in the \$8,500 event.

Top money in this year's professional division is \$1,200, while amateurs playing in the championship flight will share \$1,000 in merchandise. The tourney will be played over the rugged Lochland Country club course near Hastings Oct. 9-10.

in a 12-3 triumph over Cincinnati.

—Woodrow Green, Arizona State running back, gained 210 yards and scored twice in the Sun Devils' 41-21 victory over Utah.

—Dick Jauron, Yale running back, gained a school record 189 yards as the Elis trounced Connecticut 23-0.

—George Amundson, Iowa State running back, carried 28 times for 196 yards and two touchdowns in a 44-20 victory over New Mexico.

## Mustangs Get Financial Aid

Omaha (AP) — The Omaha Mustangs' professional football team has received adequate financing "to fulfill all of our commitments," general manager Bill Monahan said Tuesday.

"We will complete the season as planned without making any financial cutbacks," he said. Monahan did not disclose the source nor amount of the financing.

The Mustangs' remaining schedule in the Midwest Professional Football League includes Kansas City Oct. 9 and Joliet, Ill., Oct. 23 with road games at Des Moines Saturday night and Quad Cities Oct. 16.

Monahan gave the loop an option Monday night — either Peoria, Ill., goes or Omaha goes. In a telephone vote of loop managers, Peoria was ousted.

Peoria, scheduled to meet the Mustangs Saturday night, failed to field a team after only four players showed up. Car trouble was blamed for the failure to show.

"I don't think the league had any other choice," Monahan said. "They could have called us all day long, but never did contact me."

The financial loss to the Mustangs due to the forfeit by Peoria was about \$7,000 Monahan said.

# Know Your Antiques

Uncle Sam extended his hand at the Penny Arcade about 1870. This painted cast iron strength testing machine worked for a penny. (American Heritage Sale, Parke-Bernet, Nov. 12, New York City)

By RALPH AND TERRY KOVEL

Penny arcade machines are among the new collectors' interests. Vending machines have been ignored until recently. The first vending machine dates from the first century. An Urn in a Temple in Alexandria was made so that it spouted water when a coin was dropped in the proper place.

Gambling games were in use during the 18th and early 19th centuries. It was not until the time of the Civil War that many of the mechanical marvels now being collected were made.

Automated music machines that ran with use of a coin were known in the 18th century. A machine that sold tobacco and snuff was used in 18th century

England. One such brass box still exists.

By the mid-19th century, coin operated machines were made that delivered gum, candy, smoking utensils, stamps, perfume, collar buttons, stationery, handkerchiefs, food, or entertainment. Pin ball machines, weight guessing, fortune telling, strength testing, and movie machines were found in penny arcades.

An unusual strength testing machine made in the shape of Uncle Sam was in use during the late 19th century. This painted cast iron figure depicted a man with his hand extended. You grasped the hand and an indicator in Uncle Sam's chest showed you how strong you were.

This and other pieces of interest to collectors of Americana will be auctioned at Parke Bernet Gallery, 980 Madison Ave, New York City, on November 12 and 13. A catalogue for the sale pictures many such items and offers a chance-to-bid-by-mail.

# Big 8 Football Briefs

## Iowa State

Ames, Iowa (AP) — Iowa State's starting offensive guards, Ray Harm and Mike Terrizzi, both missed football practice Tuesday with what Coach Johnny Majors called a virus infection.

Reserve defensive lineman Bob Martinson also sat out the practice session with an ankle injury.

All three may be recovered in time to face Kent State Saturday, Majors said.

## Johnson Gets Back Salary

New York (AP) — An impartial arbitration panel has ruled that emotional factors were involved in Alex Johnson's performance this season and ordered the California Angels to pay the outfielder's salary in full, the Major League Baseball Players Association announced Tuesday.

Johnson was suspended indefinitely by the Angels on June 26 for "not hustling and showing the proper mental attitude." He had been fined numerous times this season after winning the American League batting championship in 1970.

According to the players association, Johnson was improperly suspended and placed on the restricted list on July 26.

The association said the arbitration panel ruled that the Angels were correct in removing Johnson from active play on June 26, "but that since he was in fact disabled by that time, he should have gone on the disabled list and not been suspended."

Johnson's salary from his June 26 suspension to the end of the season amounts to \$29,970.

However, the panel upheld the 29 disciplinary fines levied against Johnson by the Angels totaling approximately \$3,750.

## Defense Holds Key In UNO Contest

Omaha — Defense appears to hold the key this week as the University of Nebraska at Omaha travels to meet cross-state rival Wayne State with hopes of evening its season record at 2-2.

The Wildcats are winless in two outings. Kick-off at Memorial Stadium in Wayne is set for 1:30 p.m.

## Kansas State

Manhattan, Kan. (AP) — Kansas State's football team is approaching its game with Colorado Saturday in the best physical condition since its opening game, Coach Vince Vance said.

## Pitcher Bunning Calls It Quits

Philadelphia (UPI) — Right-hander Jim Bunning, saying he "couldn't get people out" anymore Tuesday called it quits after a 16-year major league baseball career that included two no-hitters, one of them a perfect game.

The 39-year-old Bunning, who ranks second among baseball's all-time strikeout artists with 2,820, said he was "in no rush to make a decision" as to his future but indicated he would consider a baseball job.

"When you do something for 22 years you hate to leave," he said. "I'll just sit back and do a little evaluating."

## KC Royals Release Ex-Manager Metro

Kansas City (AP) — Charlie Metro, a special assignment scout, has been released by the Kansas City Royals, the club announced Tuesday.

Metro managed the Royals for two months during the 1970 season. He joined the Kansas City club in 1968 as director of player procurement.

## Lincoln High Scores Tennis Win Over LNE

Lincoln High School won all except one single match in scoring a 4-1 tennis victory over Lincoln Northeast Tuesday on the LHS courts.

## Fort Marcy Retired

New York (UPI) — Rokeby Stable's Fort Marcy, the horse of the year in 1970 with over \$1-million in earnings, was retired Tuesday after spraining his left front ankle.

## RESERVE FOOTBALL

East 45, Beatrice 0  
Beatrice 0 0 0 0 0 0  
East 14 8 16 15-45  
East — Glenn, 5 run, Churchill, 2 run, Spomer, 30 pass from Newton, Kopelka, 11 run, Gunn, 6 run, Arfield 25 pass from Kickenpariser safety, PAT—Rose-land (2), Kicks, Hawkins (2), runs, McKenpariser, run.

## Gibson said Tuesday.

Gibson reported that Terry Brown, defensive back who has missed two games with a knee injury, and tailback Isaac Jackson, absent from the lineup last Saturday with a hip pointer, were back at full strength.

Greg Jones, second team linebacker, missed Tuesday's workout because of a virus, but he was expected to return later in the week.

## Kansas

Lawrence, Kan. (AP) — Kansas football coach Don Fambrough listed Bobby Childs, starting offensive guard and Eddie Sheats, defensive end who missed last Saturday's game at Florida State, as doubtful for Saturday's game at Minnesota.

Child's replacement is Don Perkins, a junior who has spent most of his time on defense.

## Colorado

Boulder, Colo. (AP) — Colorado's injury situation was considered serious following the loss of defensive end Rick Kay and defensive tackle Herb Orvis. Kay suffered a broken arm in last week's game against Ohio State. Orvis, who has a sprained ankle, is expected to be out for the next two games.

Sophomore quarterback Joe Duenas has not fully recovered from a sprained ankle suffered in the Wyoming game, but Coach Eddie Crowder said he should be able to go against Kansas State on Saturday if needed.

## Missouri

Columbia, Mo. (AP) — Three offensive backs remained questionable for Saturday's game with Army as the Missouri football team ran through an uneventful workout Tuesday.

Slotback Mike Fink remained on the sidelines with a hip pointer, and Coach Al Onofrio did not indicate whether he would be ready Saturday.

Mike Farmer, the quarterback injured in the Tigers' opener, appeared doubtful for the Army contest. Bruce Berry, a sophomore tailback, already has been ruled out for the game.

## FLAG FOOTBALL

## Senator Proposes End To Exemption

Washington (AP) — Sen. Warren G. Magnuson, D-Wash., introduced Tuesday a bill to end professional baseball's exemption from the antitrust laws, saying the transfer of the Washington Senators to Arlington, Tex., "again raises the need for Congress to consider this question."

Sen. William B. Spong, D-Va., joined him in sponsoring the bill.

# Sacred Heart Tops Class D

... MEAD STILL FIRST

**By VIRGIL PARKER**  
**Prep Sports Writer**

Defending champion Mead continues as the No. 1 eight-man football team in the state in the current top ten high school football ratings, but previous Class D leader Silver Creek — despite registering a 35-0 shutout over its latest foe — is replaced by Falls City Sacred Heart in the top spot among the small school 11-man teams.

It may seem strange (particularly to Silver Creek boosters) that a team can score 69 points and allow just 8 in three games and blank its last two opponents and still lose its No. 1 ranking.

But the Falls City Sacred Heart story is even more amazing. Coach Bill Jenkins Irish eleven has tallied 97 points in their three outings and has yet to be scored on.

The additional edged gained by the Falls City club comes from the size — and success of its foes. Sacred Heart opened against a Class C team (Southeast Consolidated, 41-0), beat Class D Sterling, 30-0 and last week disposed of Class B Tecumseh, 26-0.

Though Southeast hasn't done much this fall, Sterling won its other game against a Class C team, while Tecumseh had previously blanked two Class C opponents before getting the same treatment from the Irish.

On the other hand, the three Silver Creek foes all came from the Class D ranks, suggesting less stiff competition.

But the two leaders are still just a smidgen apart, just as they were in the initial rating a week ago when the order was reversed.

One big change in the Class D list occurred when Bancroft, No. 3 a week ago, advanced to Class C after an enrollment increase. It is replaced by Nelson, which decreased and fell from Class C with a perfect 3-0 record.

## Deer Permits Still Available For Archers

Archers, who neglected to get their 1971 deer permits before the season opened on Sept. 18, may now purchase permits at Game Commission District Offices in North Platte, Alliance, Bassett, and Norfolk.

The archery permits are being sold at the four outstate offices as a convenience to the hunter and to reduce the time it takes to obtain a permit. Hunters may also apply for permits, which will be delivered by mail, by stopping at the Game and Parks Commission office at 2200 No. 33rd in Lincoln, or by sending an application along with the permit fee to the Game Commission, P.O. Box 30370, Lincoln, Neb., 68503.

So far, more than 3,700 archers have taken out permits for the 96-day hunt. The season is open through Dec. 31, with the exception of the Nov. 13 through 21 firearm hunt. Last year, a record 4,804 permits were issued, and 19 percent of the bowmen scored.

## Two Deadlock For Rodeo Title

Omaha (P) — Marvin Shoulders of Henryetta, Okla., and Ron Taylor of Hollywood, Calif., tied for first place in the brahma bull riding at the Ak-Sar-Ben Rodeo with 69 points each.

**Results:**  
**Bareback riding** fifth—1. Mike Jeldy, Prairie du Chien, Wis., 49; 2. Perry Hatfield, Kearney, Ariz., 46; 3. Reid Bergstrom, Miles City, Mont., 43; 4. round split.  
**Bull riding** first—1. Ron Taylor, Hollywood, Calif., and Marvin Shoulders, Henryetta, Okla., 69; 2. Ken Gee, Commerce City, Colo., 68; 3. Bill Lyne, George West, Tex., 67.  
**Steer wrestling** first—1. Steve Germain, Timber Lake, S.D., 4.6 seconds; 2. Jim Smith, Castle, Okla., and Walt Linderman, Bellevue, Mont., 4.8; 4. Rex Bland, Trent, Tex., 5.1.  
**Saddle bronc riding**—1. J. C. Bonine, Hysham, Mont., 67; 2. Shawn Davis, Whitehall, Mont., 64; 3. Bill Smith, Cody, Wyo., 62; 4. Pat Chapman, Rapid City, S.D., 60.

## Ley Captures Golf Tourney

Nebraska City — Lincoln's Mike Ley won the Dog Days Open golf tournament here Sunday with a four-under-par 68.

Ley had a seven-stroke edge over runnerup Gary Teel of Nebraska City. Third was Jim Bartak of Omaha with a 76.

## Wichita State Sets Memorial

Wichita, Kan. (P) — Memorial services are planned Sunday at Wichita State University in honor of those who died in the WSU airplane crash in the Colorado Rockies last October.

The memorial, in the amphitheater at the rear of Duerksen Fine Arts Center, was set for Sunday to allow members of the 1971 WSU football team and coaching staff to attend.

The anniversary of the tragedy is Saturday.

Thirty-one football players, coaches and friends were killed when their charter plane crashed near Georgetown, Colo. It was bound for Logan, Utah, for a scheduled game with Utah State.

# Haigler's Collicott Earns Top Honor

... SCATBACK PUTS ON ONE-MAN SHOW

By VIRGIL PARKER  
Prep Sports Writer

Gail Collicott scored all of Haigler's points in a 34-24 victory over Palisade last Friday night.

His sensational one-man show earns the senior scatback an additional honor, Player of the Week.

Before the Palisade game Gail and his twin sister Galena were chosen as Homecoming King and Queen. Then he went out on the field and scored all five of Haigler's touchdowns and added two conversions. In addition, Collicott:

—Gained 241 of the 288 yards rushing by Haigler on 20 carries for a 12-yard average.

—Had two pass receptions for 27 yards.

—Was in on 19 tackles, seven unassisted and recovered two fumbles.

—Did the punting and kickoffs for Haigler and re-

turned the Palisade punts and kicks.

Collicott's initial tally came in the first quarter on a 49-yard run. He followed it up with a 32-yard scamper in the second quarter and then took an 18-yard pass for another TD.

In the third quarter he rambled 32 yards to score and capped the evening with a 58-yard dash to paydirt in the final frame.

Others who had outstanding games over the past weekend and deserve special recognition include:

**Carroll Van Cleave, Gothenburg** — Scored on runs of 36 and 25 yards in 21-19 upset of Holdrege.

**Ron Velder, Dorchester** — Averaged nearly eight yards per carry and scored three times while dumping Elmwood out of the top ten ratings, 26-0. Led the defense as well, intercepting a pass and recovering a fumble.

**Gordie Winter, Norfolk** — For his outstanding play as an offensive guard and defensive tackle and the fact that his three PAT conversions made the difference in a 21-19 victory over Fremont.

**James Wenz, Nehawka** — Sparked Nehawka to its third consecutive triumph with five touchdowns, including a 65-yard kickoff return, against Nebraska Deaf.

**Gary Gammel, Crete** — Took over at quarterback with three minutes remaining and Seward leading 8-0. Proceeded to pass to Randy Snell for a 60-yard touchdown and also for a two-point conversion to tie the game. Then Gary intercepted a pass and returned it 78 yards for a touchdown with 1:12 remaining to provide a Crete victory.

**Greg L'Heureux, Bladen** — within a three-day span against Guide Rock and Byron, Greg paced Bladen to a pair of wins by scoring eight touchdowns. He was in on 35 tackles as a defensive back and handled the punting duties, which included a 63-yard quick kick.

**Tom Blahak, Columbus** — Had one of those rare nights for a tackle. Tom scooped up a fumble and rambled for a touchdown to provide Scotus with a 6-0 victory over Omaha Holy Name.

**Chad Bishop, O'Neill** — His punt return touchdown romps of 56 and 81 yards paced the Eagles to a 36-8 triumph over Crofton.

## Journal and Star Want Ads

Your low-cost Want Ad appears daily in the Lincoln Star (Mornings) and Lincoln Journal (Evenings) or the Sunday Journal and Star at the following cash rates:

DAYS		1	2	3	4	5	6	7	8	9	10
Weekdays	10-12	1.02	1.44	1.90	2.36	2.82	3.28	3.74	4.20	4.66	5.12
Weekends	11-15	1.10	1.54	1.98	2.42	2.86	3.30	3.74	4.18	4.62	5.06
16-20	11-15	1.10	1.54	1.98	2.42	2.86	3.30	3.74	4.18	4.62	5.06
21-25	11-15	1.10	1.54	1.98	2.42	2.86	3.30	3.74	4.18	4.62	5.06
26-30	11-15	1.10	1.54	1.98	2.42	2.86	3.30	3.74	4.18	4.62	5.06
31	11-15	1.10	1.54	1.98	2.42	2.86	3.30	3.74	4.18	4.62	5.06

FOR GREATEST ECONOMY start your ad for 10 lines. Cancel when you obtain results. You pay only the rate earned at the time of cancellation.

These low-cost rates apply to Want Ads from within the State of Nebraska which are placed for consecutive days and are paid for within 10 days after the ad expires or is canceled. Daily rate for ads from outside the State of Nebraska is \$5.00 per line.

Single power rates either evening Journal or morning Star are 75% of the combination rates. These ads would appear under "Too Late To Classify" column.

DEADLINES FOR FAMILY WANT ADS: Call 432-7345 Monday through Friday for publication on following day. Call before 5 p.m. on Saturdays for Monday morning publication. Sunday Journal and Star call anytime before 1 p.m. on Saturdays for publication Sunday.

ERRORS: Advertisers should check their ads on first insertion and report any error at once. Dial 432-7451 for corrections.

ADJUSTMENTS: The company is responsible for typographical errors or misclassification only to cancel the first day's charge on that portion of ad that may be corrected. Advertisers will be charged for any error, all ads will be classified properly.

BLIND BOX SERVICE: There is \$1.00 additional charge for this confidential service. When using a Blind Box Number, add 4 additional words to your Want Ad. Four additional words from the above table add \$1.00 for Blind Box Service charge for publication Sunday.

OFFICE HOURS: Daily, 9 a.m. to 5 p.m.; Saturday, 9 a.m. to 1 p.m.; CLOSED SUNDAY.

TO PLACE ADS  
Dial 432-7451

800-742-7315 for outside, toll free

Malco hearing aid glasses for right ear. 689-5775

ORIGIN: ROCKERS

Experts agree rocking chairs are an American institution and some models date back to the 1750's. Though most people believe Ben Franklin devised it, some historians believe that earlier Americans built crude rockers of their own.

# Airports 'Face Trouble' Meeting Rules

By TIM AHERN  
The Associated Press  
State Aeronautics Director Nicolas Smeloff said Tuesday most of Nebraska's airports which have regularly scheduled airline service "will have a very difficult time" meeting new safety regulations under a 1970 federal law.

The law, the Airport and Airways Development Act, was passed at the behest of the airline industry and provided for the Federal Aviation Administration (FAA) to draw up revised safety regulations for airports with regularly scheduled service.

The FAA has done so and the new rules are scheduled to become effective next May

with the FAA given the task of certifying airports under the new rules.

Should airports not be certified, they could ultimately lose their airline service according to a provision of the law which allows airlines to appeal to the Civil Aeronautics Board (CAB) to halt service to those airports not meeting certification standards.

With the exception of airports in Lincoln and Omaha, Smeloff said, Nebraska's 11 other cities with regular service "will have trouble."

The 11 include Columbus, Norfolk, McCook, Scottsbluff, Chadron, Hastings, Kearney, North Platte, Alliance, Sidney, and Grand Island.

However, Smeloff said, Sen. Carl Curtis, R-Nebr., has introduced a bill in the Senate to set the effective date of the new regulations back one year from May, 1972 to May, 1973.

Smeloff said his department, "along with a lot of other states and airports," have protested the new regulations.

The new requirements include optimum maintenance of safety and pavement areas with no deterioration of surfaces allowed, upgrading of marking and lighting of runways, airport plans for meeting all forms of emergencies, elimination of all bird hazards, and protection against vandalism of all navigational aids.

"It would definitely be a

financial hardship on the smaller communities," Smeloff said.

The city of North Platte is one of the cities protesting the new regulations, he said.

The added cost to airports would be great, he said, especially under a provision of the law that all airports must have and maintain fire and rescue equipment at the airport rather than simply relying on the fire fighting facilities of the nearby community.

The fire fighting requirement would be one of the toughest to meet, he explained, since the new regulations require that a fire vehicle must be maintained and manned at the airport at all times.

**DID YOU KNOW THIS? IT'S A FACT:**  
John Quincy Adams was born July 11, 1767, at Braintree, Mass.  
Never put cigars in refrigerators or ice chests. They often pick up food odors.  
During the first eight months of 1971 nine New York City policemen were killed in the line of duty.

**DAILY CRYPTOQUOTE**  
One letter simply stands for another in this example. A is used for the three L's X for the two O's etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

**WISHING WELL**  
by William J. Miller  
Here is a practical little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is six or more, subtract 4. If the number is less than 6, add three. The result is your key number. Start at the upper left-hand corner of the rectangle and check every one of your key numbers left to right. Then read the message the letters under the checked figures gives you. Distributed by King Features Inc., Registered U.S. Patent Office.
